DURACELL 01310

Duracell CR2 3V Lithium Battery Instruction Manual

Model: 01310 | Brand: DURACELL

Introduction

This manual provides essential information for the safe and effective use of Duracell CR2 3V High Power Lithium Batteries. These batteries are designed to deliver long-lasting, reliable power for a wide range of specialty devices, including digital cameras, lighting equipment, and other electronics.

Product Features

- **Versatile Power:** Designed for use in a variety of compatible devices such as digital cameras, lighting equipment, and other electronics.
- **Long-Lasting Performance:** Developed to provide reliable performance for your specialty devices.
- **Extended Storage Life:** Guaranteed for 10 years in storage, ensuring readiness when needed.
- **Broad Compatibility:** Equivalent to 3V CR17355, DLCR2, and ELCR2 battery types.
- **Trusted Quality:** From storm season to medical needs to the holidays, Duracell is a trusted battery brand.

Setup and Installation

Duracell CR2 batteries are commonly used in devices requiring 3V lithium power. Always refer to your device's specific instruction manual for precise battery installation steps. Generally, ensure correct polarity (+/-) when inserting batteries into the compartment.

For devices requiring two CR2 batteries, such as some cameras, ensure both batteries are inserted with the positive terminal facing the correct direction as indicated by the device's battery compartment markings. Typically, the positive terminal (the raised bump) should align with the positive contact in the device.

Operating Instructions

Once installed, your Duracell CR2 batteries will provide consistent power to your compatible devices. These batteries are ideal for high-drain devices that require stable voltage and long operational life. Always turn off your device before installing or removing batteries.

Maintenance

To ensure optimal performance and longevity of your Duracell CR2 batteries:

- **Storage:** Store batteries in their original packaging in a cool, dry place at room temperature. Avoid extreme temperatures. Duracell CR2 batteries are guaranteed for 10 years in storage.
- **Cleaning:** Periodically clean battery contacts in your device and on the batteries with a clean, dry cloth to ensure good electrical connection.

- **Disposal:** Dispose of used batteries according to local regulations. Do not dispose of batteries in fire.

Troubleshooting

If your device is not functioning after battery installation, consider the following:

- **Incorrect Battery Size:** Ensure you are using the correct battery size (CR2) for your device. Some devices may require 3V batteries that are physically different, such as CR123A, which are not interchangeable with CR2 despite similar voltage. Always verify the exact battery type specified by your device manufacturer.
- **Incorrect Polarity:** Double-check that the batteries are inserted with the correct positive (+) and negative (-) orientation.
- **Battery Contacts:** Inspect battery contacts in the device and on the batteries for any dirt, corrosion, or bending. Clean if necessary.
- **Device Malfunction:** If batteries are correctly installed and are new, the issue might be with the device itself.

Safety Information

WARNING:
Battery can explode or leak if heated, disassembled, shorted, recharged, exposed to fire or high temperature or inserted incorrectly. Do not carry batteries loose in your pocket or purse. Keep batteries away from children. If swallowed, consult a physician at once. For information on treatment, call (202) 625-3333 collect.
The bulb voltage for compatible devices is 3 volts.

Specifications

Brand	DURACELL
Model Number	01310
Battery Cell Composition	Lithium
Battery Capacity	780 (mAh, assumed from context)
Number of Batteries	2 Lithium Metal batteries required (included)
Product Dimensions	0.63 x 3.5 x 3.5 inches; 0.48 ounces
Recommended Uses	Camera Flash, Photographic Lighting, Scooter, Camera, Bicycle
Manufacturer	Duracell Distributing, Inc
Country of Origin	USA
First Available Date	October 2, 2001

Warranty and Support

Duracell CR2 High Power Lithium batteries are guaranteed for 10 years in storage. For product support or inquiries, please refer to the contact information provided on the product packaging or visit the official Duracell website. Always retain your proof of purchase for warranty claims.
For general information or assistance, you may contact Duracell customer service. The back of the packaging (image

provided in Setup section) lists a contact number: 1-800-551-2355 (9:00 AM-5:00 PM E.S.T.).
