PKPOWER 5V AC DC Adapter Charger

User Manual: PK Power 5V AC DC Adapter Charger

For John Lewis db545-1 Spectrum Solo DAB FM Radio Mains

1. Introduction

This manual provides essential information for the safe and effective use of your PK Power 5V AC DC Adapter Charger. Please read this manual thoroughly before using the product and retain it for future reference.
This adapter is designed to provide a stable 5V DC power supply to compatible devices, specifically the John Lewis db545-1 Spectrum Solo DAB FM Radio Mains.

2. Important Safety Information

- **Read all instructions:** Before using the adapter, read all safety instructions and warnings.
- **Indoor use only:** This adapter is intended for indoor use in dry locations. Do not expose to rain, moisture, or extreme temperatures.
- **Proper voltage:** Ensure the wall outlet voltage is within the adapter's specified input range (100-240V AC).
- **Avoid damage:** Do not use the adapter if the cord or plug is damaged. Do not attempt to open or modify the adapter.
- **Ventilation:** Ensure adequate ventilation around the adapter during use. Do not cover it with cloth or other materials.
- **Children and pets:** Keep the adapter out of reach of children and pets.
- **Disconnect when not in use:** Unplug the adapter from the power outlet when not in use for extended periods.
- **Protection Features:** This adapter is equipped with Over Voltage Protection (OVP), Over Current Protection (OCP), and Short Circuit Protection (SCP) to ensure safe operation.

3. Setup Instructions

1. **Unpack:** Carefully remove the PK Power 5V AC DC Adapter Charger from its packaging.
2. **Inspect:** Visually inspect the adapter and its cable for any signs of damage. Do not use if damaged.
3. **Connect to Device:** Locate the power input port on your John Lewis db545-1 Spectrum Solo DAB FM Radio Mains. Insert the barrel connector of the adapter firmly into this port.
4. **Connect to Power Outlet:** Plug the 2-pin AC plug of the adapter into a standard wall power outlet (100-240V AC,

50/60Hz).

5. **Verify Connection:** Ensure both connections are secure. The device should now receive power.

Figure 1: PK Power 5V AC DC Adapter Charger. This image shows the compact black adapter with its integrated power cable and barrel connector, ready for use.

4. Operating Instructions

Once the adapter is correctly connected to both the power outlet and your John Lewis db545-1 Spectrum Solo DAB FM Radio Mains, the radio will receive power. Refer to your radio's specific user manual for instructions on how to operate the radio itself.

- The adapter provides a continuous 5V DC output.
- No user interaction is required with the adapter itself during operation, beyond ensuring secure connections.

5. Compatibility

This PK Power adapter is specifically designed and tested for compatibility with the following device:

- **John Lewis db545-1 Spectrum Solo DAB FM Radio Mains**

Using this adapter with incompatible devices may result in improper function or damage to the device or adapter. Always verify the voltage and connector type requirements of your device before connecting.

6. Maintenance and Care

- **Cleaning:** Disconnect the adapter from the power outlet and the device before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, store the adapter in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid tightly winding the cable to prevent damage.
- **Inspection:** Periodically inspect the adapter and cable for any signs of wear, cuts, or damage. If damage is observed, discontinue use immediately.

7. Troubleshooting

Problem	Possible Cause	Solution
Device not powering on.	Adapter not properly plugged into wall outlet or device.	Ensure all connections are secure. Try a different wall outlet.
Device not powering on.	Adapter or cable is damaged.	Inspect the adapter and cable for visible damage. Discontinue use if damaged.
Device not powering on.	Device itself has an issue.	Test the device with another known-good power source if available, or consult the device's manual.
Adapter feels warm during use.	Normal operation.	A slight warmth is normal. If it becomes excessively hot, disconnect immediately and contact support. Ensure proper ventilation.

8. Product Specifications

Feature	Detail
Model	5V AC DC Adapter Charger
Input Voltage	100-240V AC, 50/60Hz
Output Voltage	5V DC
Connector Type	Barrel Connector
AC Plug Type	2 Pin (US Standard)
Protection Features	OVP (Over Voltage Protection), OCP (Over Current Protection), SCP (Short Circuit Protection)
Certifications	CE, FCC, RoHS
Item Weight	Approximately 3 ounces
