Control Mode

**Note:**

1. The specific format needs to be supported by the receiving device
2. If your Bluetooth devices do not support aptX-HD, the LED will not be green.
3. ML300 will choose the most advanced encoding mode according to the mode supported by your device: aptX-

LL > aptX > SBC

**Note:** In RX mode, if there is a sound delay, please double-click  button to improve the sound quality.

## Instructions

### TX Mode:

1. Connect ML300 to a TV or another device with a 3.5mm audio cable.
2. Slide the mode button to the “TX” side, please press and hold the  button for about 2 seconds to enter pairing mode, (LED lights flashing red and blue).
3. Set your device (Bluetooth headphone or Bluetooth speaker) to pairing mode, and wait for the pairing to succeed. (LED stays blue) 4
4. Enjoy your music.

### RX Mode

1. Connect ML300 to an amplifier or powered speaker with a 3.5mm audio cable.
2. Slide the mode button to the “RX” side, please press and hold the  button for about 2 seconds to enter pairing mode, (LED lights flashing red and blue).
3. Activate the Bluetooth of the mobile phone/computer/tablet, click -ML300’ to connect, and wait for the pairing to succeed. (LED stays blue)
4. Enjoy your music.

### \* How to enter pairing mode?

Press and hold the  button for 2 seconds, and ML300 will enter the pairing mode. (LED lights flashing red and blue)

### How to pair the second device?

1. Set ML300 to pairing mode again (press and hold the  button for 2 seconds until the LED flashes red and blue).
2. Set your second device to pairing mode, and wait for the pairing to succeed. (LED stays purple)
3. Enjoy your music.

**Note:** You can only play music on one device at a time, so if you want to play music on the second device, you need to pause the music on the first device before playing it on the second device.

#### **Charging method**

- When it is charging in the OFF mode, the LED will be steady red, and the LED will be off when it is fully charged.
- When it is charging in the TX/RX mode, the LED will not change.

#### **How to reset the device?**

If ML300 cannot be connected or does not work normally, please refer to the following methods to reset the device: Press and hold the  button for about 7 seconds until the LED flashes purple 3 times, and then the device will restart and clear the list of paired devices, and the factory settings will be restored successfully.

The Bluetooth word mark and logos are owned by Bluetooth SIG, Inc. and any use of such marks by IMii Ltd. is under license. Other trademarks and trade names are those of their respective owners.

**FCC:** This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference. Changes or modifications not expressly approved by IMii Ltd. will void the users authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class 2 digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an electrical outlet on a different circuit to that which the receiver is connected.
- Consult the manufacturer or an experienced radio/TV technician for help.

This product, like other radio devices, emits radiofrequency electromagnetic energy and operates within the guidelines found in radio frequency safety standards and recommendations. These standards and recommendations reflect the consensus of the scientific community and result from deliberations of panels and committees of scientists who continually review and interpret the extensive research literature.

#### **CE**

Mii Ltd. hereby declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address: [www.lmii.com](http://www.lmii.com)

In accordance with Article 10(2) and Article 10(10), this product is allowed to be used in all EU member states.

Shenzhen Mii Technologies Limited Baoan District, Shenzhen 518100 China

EU Importer:

eVatmaster Consulting GmbH
