HZSSDTKJ Twin Daybed with Trundle and Guardrail - Model WF191421 Instruction Manual

Brand: HZSSDTKJ | **Model:** WF191421

1. Important Safety Information

Please read and understand all instructions before beginning assembly and use. Keep this manual for future reference.

- Ensure all parts are present and undamaged before assembly. Contact customer support immediately if any parts are missing or defective.
- Assemble the daybed on a soft, clean surface (e.g., carpet) to prevent scratching.
- Do not use power tools for assembly as this may overtighten screws and damage the wood.
- Periodically check all connections and tighten screws as needed to maintain stability.
- Do not allow children to play on or around the daybed without supervision.
- The daybed and trundle are designed for sleeping. Avoid jumping on the bed.
- Maximum weight capacity for both the daybed and trundle is 200 lbs each. Do not exceed this limit.

2. Package Contents

Verify that all components listed below are included in your package. If any items are missing, please contact HZSSDTKJ customer support.

- Wooden Daybed Frame components (headboard, footboard, side rails, trundle frame, slats)
- Hardware pack (screws, bolts, nuts, Allen wrench)
- Installation Manual

3. Setup and Assembly Instructions

Detailed step-by-step assembly instructions and all necessary tools are included in your product package. Please refer to the separate "Installation Manual" provided for specific assembly steps.

General Assembly Tips:

- Identify all parts and hardware before starting.
- Follow the numerical or alphabetical order of steps as indicated in the manual.

- Do not fully tighten all screws until the entire frame is assembled to allow for minor adjustments. Once assembled, tighten all screws securely.
- Two people are recommended for assembly to ensure safety and ease of construction.

Figure 3.2: Dimensional diagram of the daybed. Overall length is 79.5 inches, width is 41.7 inches (daybed) and 83.4 inches (with trundle extended), and height is 30 inches. The daybed mattress area is 76 inches long.

4. Operating Instructions

This daybed features a pull-out trundle for additional sleeping space.

4.1 Extending the Trundle

1. Locate the trundle unit beneath the main daybed frame.
2. Gently pull the trundle frame outwards from the main daybed. The trundle is equipped with wheels for smooth movement.
3. Pull until the trundle is fully extended and positioned as desired for use.

4.2 Retracting the Trundle

1. Ensure there are no obstructions (e.g., bedding, pillows) on the trundle that would prevent it from sliding back in.
2. Gently push the trundle frame back underneath the main daybed until it is fully nested.

5. Maintenance

Proper care will extend the life and appearance of your daybed.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish.
- **Tightening:** Periodically check all bolts and screws to ensure they are tight. Loose connections can lead to instability and noise.
- **Placement:** Avoid placing the daybed in direct sunlight or near heat sources, as this can cause wood to dry out, crack, or fade.
- **Mattress Care:** Follow the care instructions for your mattresses. Ensure the mattress thickness for the trundle is 4-6 inches and for the daybed is 6 inches to fit properly.

6. Troubleshooting

If you encounter any issues with your daybed, refer to the following common solutions:

- **Squeaking Noises:**
  - Check and tighten all bolts and screws.
  - Ensure slats are properly seated and not rubbing against the frame.
- **Trundle Difficult to Pull Out/Push In:**
  - Check for any obstructions beneath the daybed or on the trundle.
  - Inspect trundle wheels for debris or damage.
  - Ensure the trundle mattress is not too thick (maximum 4-6 inches).
- **Instability/Wobbling:**
  - Re-check all connections and tighten all hardware.
  - Ensure the daybed is on a level surface.

If problems persist, please contact HZSSDTKJ customer support for assistance.
