5. Maintenance and Care

- **Cleaning:** Keep the cable and its connectors clean and free from dust and debris. Use a soft, dry cloth for cleaning.
- **Storage:** When not in use, store the cable in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid tightly coiling or bending the cable sharply to prevent internal damage.
- **Handling:** Always grasp the connector housing when plugging or unplugging the cable, rather than pulling on the cable itself.
