Gardena 03723-20

Gardena Combisystem Wooden Garden Tool Handle 130 cm

Model: 03723-20

Product Overview

The Gardena Combisystem Wooden Garden Tool Handle (Model 03723-20) is designed for use with various Gardena Combisystem tool heads. This handle measures 130 cm (approximately 51 inches) in length and is constructed from high-quality ash wood. Its design aims to provide a comfortable grip and reduce vibrations during use.

Note: This product is the handle only. Compatible tool heads are sold separately.

Setup and Assembly

The Gardena Combisystem handle features a secure connection mechanism for attaching various tool heads. Follow these steps to attach a tool head:

1. **Select Tool Head:** Choose the desired Gardena Combisystem tool head (e.g., rake, hoe, broom).
2. **Align Connection:** Align the connection point of the tool head with the end of the handle.
3. **Secure Attachment:** Push the tool head onto the handle until it clicks into place. Ensure the orange locking mechanism is engaged and the tool head is firmly secured.
4. **Verify Connection:** Gently pull on the tool head to confirm it is securely attached and does not wobble.

Operating Instructions

Once a tool head is securely attached, the handle is ready for use. The ergonomic design and ash wood construction are intended to provide a comfortable and efficient gardening experience.

- **Ergonomic Grip:** The shaped handle provides a non-slip grip, promoting an ergonomic working position.
- **Vibration Damping:** The resilient ash wood construction helps to damp vibrations, reducing user fatigue during prolonged use.

- **Tool Head Compatibility:** This handle is compatible with all Gardena Combisystem tool heads, allowing for a wide range of gardening tasks.

Maintenance

Proper maintenance will extend the life of your Gardena Combisystem handle.

- **Cleaning:** After each use, wipe the handle clean with a damp cloth to remove dirt and debris.
- **Drying:** Ensure the handle is completely dry before storing to prevent wood damage or mold growth.
- **Storage:** Store the handle in a dry, protected area, away from direct sunlight and extreme temperatures. Hanging the handle can help prevent warping.
- **Wood Care:** Periodically inspect the wood for signs of wear or dryness. Applying a wood conditioner or linseed oil can help maintain the wood's integrity and appearance.

Troubleshooting

If you encounter issues with your Gardena Combisystem handle, consider the following:

- **Tool Head Not Securing:** Ensure the tool head is fully inserted and the orange locking mechanism is engaged. Check for any debris obstructing the connection.
- **Wobbling Tool Head:** If the tool head wobbles, detach it and re-attach, ensuring a firm connection. If the issue persists, inspect both the handle's connection point and the tool head's connection for damage.
- **Wood Splintering/Cracking:** This can occur from prolonged exposure to moisture or extreme dryness. Regular wood care (as described in the Maintenance section) can help prevent this. If severe, discontinue use and consider replacement.

Specifications

Model Number:	03723-20
Brand:	Gardena
Material:	Ash Wood
Length:	130 cm (approximately 51.18 inches)
Width:	Approximately 2.05 inches
Weight:	459.99 Grams
Handle Type:	Pull Handle
Additional Features:	Easy to Install, Vibration Damping

Warranty and Support

Gardena offers a **25-year warranty** on this Combisystem handle, covering defects in materials and workmanship under normal use. Additionally, all Gardena products come with a minimum 12-month parts and labor warranty.
For warranty claims or technical support, please contact Gardena customer service. If your product is older than 12 months and requires repair, a national repair service is available to provide a free estimate for parts and labor.
For more information, visit the official Gardena website or contact your local Gardena dealer.
