CAMPINGAZ 39350

User Manual for CAMPINGAZ CV 360 Gas Cartridge

Model: 39350

1. Product Overview

The CAMPINGAZ CV 360 gas cartridge is a compact and efficient fuel source designed for various portable Campingaz appliances, including the Campingaz Spotflam torch. It contains a high-performance butane/propane gas mix, ensuring reliable operation for tasks requiring precise flame control or general outdoor use.

This image displays the CAMPINGAZ CV 360 gas cartridge, a compact blue and white cylinder designed for portable gas appliances. The label clearly indicates 'BUTANE' and 'CV360', highlighting its primary gas component and model.

Key Features:

- **High Performance Gas Mix:** Contains a powerful butane/propane (60/40) gas mix for efficient combustion.
- **Self-Sealing Safety Valve:** Allows for easy and secure connection, and the cartridge can be removed and reinserted even when not empty.
- **Compact and Portable:** Ideal for small-scale projects, crafts, and outdoor activities due to its convenient size and weight.
- **Wide Compatibility:** Specifically designed for use with Campingaz devices, such as the Campingaz Spotflam torch.
- **Quality Controlled:** Manufactured and quality-controlled in Europe (Lyon, France).

2. Safety Information

Always read and understand all safety warnings and instructions before using this product. Failure to follow these instructions may result in fire, explosion, serious injury, or death.

- **Ventilation:** Use only in well-ventilated areas. Do not use in enclosed spaces.
- **Flammable Gas:** This cartridge contains highly flammable gas under pressure. Keep away from heat, hot

surfaces, sparks, open flames, and other ignition sources. No smoking.

- **Handling:** Do not puncture or incinerate, even after use. Do not expose to temperatures exceeding 50°C (122°F).
- **Storage:** Store in a cool, dry place, away from direct sunlight and out of reach of children and pets.
- **Leak Detection:** If you suspect a gas leak, immediately move to a well-ventilated area, extinguish all open flames, and contact emergency services if necessary. Do not attempt to find leaks with a flame.
- **Disposal:** Dispose of empty cartridges according to local regulations.
- **Compatibility:** Use only with Campingaz appliances designed for CV 360 cartridges.

3. Setup

Before connecting the gas cartridge, ensure your Campingaz appliance is turned off and in good working condition. Perform this operation in a well-ventilated area, away from any ignition sources.

1. **Prepare Appliance:** Ensure the appliance's valve is fully closed.
2. **Align Cartridge:** Align the cartridge's valve with the appliance's connector.
3. **Connect:** Push the appliance firmly onto the cartridge and twist clockwise until you hear a distinct "click." This indicates a secure and airtight connection. Do not overtighten.
4. **Check for Leaks:** After connection, listen for any hissing sounds or apply a soapy water solution to the connection point. Bubbles indicate a leak. If a leak is detected, disconnect immediately and re-attempt connection. If the leak persists, do not use the cartridge or appliance.

4. Operating Instructions

Once the CV 360 cartridge is securely connected to your Campingaz appliance, you can proceed with operation according to your appliance's specific instructions.

- **Ignition:** Follow your appliance's instructions for ignition. Ensure proper ventilation during use.
- **Flame Adjustment:** Adjust the flame intensity as required using the appliance's controls.
- **Disconnection (if needed):** Thanks to the self-sealing valve, the cartridge can be disconnected from the appliance even if it's not empty. To disconnect, twist the appliance counter-clockwise until it separates from the cartridge. This feature is useful for transporting the cartridge or using it with multiple devices.
- **Reconnection:** To reconnect, follow the "Setup" instructions.

5. Maintenance

The CAMPINGAZ CV 360 gas cartridge requires minimal maintenance. Proper storage and handling are crucial for safety and longevity.

- **Storage:** Store cartridges in a cool, dry, well-ventilated area, away from direct sunlight, heat sources, and flammable materials. Ensure the protective cap is securely in place if the cartridge is disconnected.
- **Inspection:** Before each use, visually inspect the cartridge for any signs of damage, corrosion, or leaks. Do not use a damaged cartridge.
- **Cleaning:** Keep the valve area clean and free from debris.

6. Troubleshooting

If you encounter issues while using your CAMPINGAZ CV 360 gas cartridge, consider the following common problems and solutions:

- **No Gas Flow / Appliance Not Igniting:**
  - Ensure the cartridge is securely connected to the appliance (listen for the "click").
  - Check if the appliance's valve is fully open.
  - Verify the cartridge is not empty.
  - Ensure the appliance's igniter is functioning correctly.
- **Gas Leak Detected (Hissing Sound / Smell):**
  - Immediately move the appliance and cartridge to a well-ventilated outdoor area.
  - Extinguish all open flames and ignition sources.
  - Disconnect the cartridge carefully.
  - Re-examine the connection point for debris or damage. Reconnect following "Setup" instructions. If the leak persists, the cartridge or appliance may be faulty. Do not use.
- **Weak Flame:**
  - The cartridge may be running low on gas.
  - Ensure the appliance's gas flow is not obstructed.
  - Operating in very cold conditions can affect gas pressure.

If troubleshooting steps do not resolve the issue, discontinue use and contact Campingaz customer support or a qualified technician.

7. Technical Specifications

Brand:	CAMPINGAZ
Model Number:	39350
Fuel Type:	Butane/Propane Mix (60/40)
Gas Capacity:	52 g
Weight:	110 g
Dimensions (without cap):	Approx. 4 cm (diameter) x 14.5 cm (height)
Compatibility:	Campingaz Spotflam torch and other compatible Campingaz devices
Material:	Metal (Cartridge), Other (as per product data)
Power Source:	Gas

8. Warranty and Support
