2. Initial Setup

2.1. Unboxing and Package Contents

Carefully remove all items from the packaging. Ensure the following components are present:

- TCL 60 5G Smartphone
- 2 x USB-C Cables
- User Manual (this document)

2.2. Charging the Device

Before first use, it is recommended to fully charge the device. Connect one end of the provided USB-C cable to the phone's USB-C port and the other end to a compatible 18W fast charger (not included) or a computer's USB port. The battery indicator on the screen will show charging progress.

2.3. Inserting SIM Cards

The TCL 60 5G supports Dual SIM functionality (1 physical SIM + eSIM). Locate the SIM card tray on the side of the device. Use the SIM ejector tool (not included) to open the tray. Insert your Nano-SIM card into the designated slot. For eSIM activation, refer to your mobile carrier's instructions.

4. Maintenance and Care

4.1. Battery Care

The 5200mAh battery provides extended usage. To prolong battery life, avoid extreme temperatures, do not overcharge, and use the provided or certified charging accessories. The 18W fast charge feature allows for quick power replenishment.

4.2. Cleaning Your Device

Use a soft, lint-free cloth to clean the screen and body of the phone. Avoid using harsh chemicals or abrasive materials that could damage the finish or screen coating.

4.3. Software Updates

Regularly check for and install software updates to ensure optimal performance, security, and access to new features. Updates are typically found in the device's settings menu under "System" or "Software Update."

5. Troubleshooting Common Issues

This section addresses common issues you might encounter with your TCL 60 5G smartphone.

- **Device not powering on:** Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again.
- **Screen unresponsive:** Try restarting the device by holding the Power button for an extended period (e.g., 10-15 seconds) until it reboots.
- **Poor network signal:** Check your SIM card insertion. Move to an area with better network coverage. Ensure mobile data is enabled in settings.
- **Apps crashing:** Clear the cache of the problematic app in settings, or reinstall the app. Ensure your device software is up to date.
- **Battery draining quickly:** Reduce screen brightness, disable unnecessary background apps, turn off Wi-Fi/Bluetooth when not in use, and check for power-intensive apps in battery usage settings.

If issues persist, consider performing a factory reset (*note: this will erase all data on your device, back up important information first*) or contact customer support.
