1. **Unpack and Identify Components:** Carefully remove all parts from the packaging. Lay them out and compare them against the parts list in your detailed assembly guide to ensure everything is present.
2. **Assemble Base and Side Panels:** Attach the bottom and top panels to the main side panels using the provided screws and wooden dowels. Ensure all connections are firm and aligned.
3. **Insert Shelves:** Slide the shelves into the pre-drilled slots or attach them using the shelf pins. Ensure each shelf is level and securely seated.
4. **Attach Back Panel:** Secure the back panel to the assembled frame using the small nails or screws provided. This adds stability to the structure.
5. **Wall Anchoring (Crucial Safety Step):** Position the assembled cabinet in its desired location. Maintenance and Care

Proper maintenance and care will help preserve the appearance and extend the lifespan of your Vicco Viktor Bathroom Cabinet.

- **Cleaning:** Wipe all surfaces with a soft, damp cloth. For more stubborn marks, a mild soap solution can be used. Avoid using abrasive cleaners, harsh chemicals, or solvents, as these can damage the melamine resin coating and finish.
- **Spills:** In a bathroom environment, promptly wipe up any water or liquid spills to prevent moisture absorption and potential damage to the particle board.

- **Inspection:** Periodically check all screws, connections, and wall anchors to ensure they remain tight and secure. Re-tighten any loose fasteners as needed.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight, which can cause discoloration or fading of the cabinet's finish over time.

Troubleshooting

Issue: Cabinet feels unstable or wobbly.

Solution: First, ensure all assembly screws and connections are fully tightened. Verify that the cabinet is placed on a completely level surface. Most importantly, confirm that the cabinet is properly anchored to the wall using the provided wall anchoring kit and appropriate fasteners for your wall type. If the issue persists, re-check the assembly steps in the detailed manual.
