### 3nStar K10 Micro Kiosk Android Based Terminal Owner's Manual

K10 Series kiosk is a n Android based terminal featuring specialized hardware that provides access to information and applications for communication.

This compact, easy-to-install and affordable device allows retailers to put the power of self-service in every aisle or department. So, no matter where in the store your customers might be, help is never more than a few steps away.

Customers can check price and inventory, check the balance on a gift card, look up a loyalty point balance, determine the location of a product and call for assistance — all with the scan of a barcode or press of a button or touchpad. In addition, the K10 easily connects to mobile printers.
