Drive Medical 10210-1

Drive Medical 10210-1 2-Button Folding Walker with Wheels User Manual

Brand: Drive Medical | Model: 10210-1

Introduction

The Drive Medical 10210-1 2-Button Folding Walker with Wheels is designed to provide safe, convenient, and reliable mobility assistance for seniors and adults. This lightweight and durable walker features a unique push-button folding mechanism, a U-shaped frame for enhanced clearance, and 5-inch wheels with newly designed rear glide caps for smooth movement across various terrains. Its contoured hand grips and adjustable height settings ensure comfortable use.

Important Safety Information

Please read and understand all safety information before using your walker. Failure to do so may result in injury.

- Do not load more than 350 pounds on the walker. Exceeding this weight limit can compromise the walker's stability and lead to falls or damage.
- Regularly inspect all parts of the walker for wear, damage, or loose components. Do not use the walker if any part is damaged or missing.
- Ensure all four legs of the walker are firmly on the ground before applying weight.
- Use caution on uneven surfaces, inclines, or slippery floors.
- Keep the walker clean and free from obstructions.

Setup

Unpacking

Carefully remove all components from the packaging. Inspect the walker for any visible damage that may have occurred during shipping. Retain packaging for future storage or transport if needed.

Assembly

The Drive Medical 10210-1 walker comes largely pre-assembled. Follow these steps for final setup:

1. Align the middle of your foot with the back legs of the walker. This ensures proper balance and positioning.
2. Lift the walker up and place it comfortably in front of you, making sure all four legs end up firmly on the floor.
3. Carefully, walk forward one step at a time, maintaining a stable posture.

Height Adjustment

The walker's height can be adjusted to suit individual user needs, ensuring optimal comfort and support. The height is adjustable from 32 to 39 inches.

- Locate the push-buttons on each leg of the walker.
- Press the button and slide the leg up or down to the desired height. Ensure the button clicks securely into one of the adjustment holes.
- Repeat for all four legs, ensuring they are set to the same height for stability.

Operating Instructions

Folding and Unfolding

The walker features a convenient 2-button folding mechanism for easy storage and transport.

- **To Fold:** Press the red push-buttons located on the side bars of the walker. Each side operates independently. Push the side inward until it folds. Repeat for the other side. The walker will fold compactly.
- **To Unfold:** Gently pull the sides of the walker outwards until they lock securely into place. Ensure both sides are fully extended and locked before use.

Image: A close-up view of a hand pressing the red push-button on the walker's frame, illustrating how the walker can be easily folded using fingers, palms, or the side of the hand.

Walking with the Walker

To use the walker effectively and safely:

- Stand upright with the walker in front of you.
- Push the walker forward a comfortable distance.
- Step forward with one foot, then bring the other foot to meet it. Maintain a natural walking pattern.
- The U-shaped frame provides greater clearance, allowing you to walk more naturally and closer to the walker.

Using for Standing Assistance

The walker's design can assist with standing from a seated position:

- Position the walker close to your chair.
- Grip the handles firmly.
- Use the walker for support as you push up to a standing position. The U-shaped frame allows the walker to pull over your knees, providing closer support.

Image: A person seated in a chair, using the walker positioned in front of them to assist in standing up, illustrating how the walker pulls over the knees for easier transition.

Maintenance

Proper maintenance ensures the longevity and safe operation of your walker.

- **Cleaning:** Wipe down the frame and hand grips regularly with a damp cloth and mild soap. Avoid abrasive cleaners.
- **Inspection:** Periodically check all screws, bolts, and fasteners to ensure they are tight. Inspect the wheels and glide caps for wear and tear. Replace worn parts immediately.
- **Storage:** Store the walker in a dry place away from extreme temperatures. The folding feature allows for compact storage.

Troubleshooting

If you encounter any issues with your walker, refer to the following common problems and solutions:

- **Walker feels unstable:** Ensure all four legs are adjusted to the same height and are securely locked. Check that the folding mechanism is fully engaged and locked.
- **Wheels not rolling smoothly:** Check for debris or hair caught in the wheel axles. Clean the wheels if necessary. Ensure the wheels are not damaged.
- **Difficulty folding/unfolding:** Ensure the push-buttons are fully depressed. Check for any obstructions in the folding mechanism. Do not force the mechanism.
- **Hand grips feel loose:** Inspect the hand grips for damage. If they are loose, they may need to be replaced.

If problems persist, contact Drive Medical customer support.

Specifications

Feature	Specification
Model Number	10210-1
Product Dimensions	18"D x 32"W x 25"H (18 x 32 x 25 inches)
Item Weight	6.6 Pounds (6.55 Pounds)
Material	Aluminum
Color	Silver
Weight Capacity	Up to 350 Pounds
Wheel Size	5 inches (front wheels)
