Drive Medical 12011kd-1

Drive Medical 12011KD-1 Tub Transfer Bench User Manual

Brand: Drive Medical

Model: 12011KD-1

Introduction

This user manual provides essential information for the safe and effective use of your Drive Medical 12011KD-1 Tub Transfer Bench. Please read all instructions carefully before assembly and operation to ensure proper functionality and user safety.

Safety Information

Always ensure all legs are securely locked into place before use. Verify that the suction cups are firmly attached to the tub surface. Do not exceed the maximum weight capacity of 400 pounds. Regularly inspect the bench for any signs of wear or damage. Discontinue use if any components are compromised.

Setup and Assembly

The Drive Medical 12011KD-1 Tub Transfer Bench features tool-free assembly for the backrest, legs, and arm support. Follow these steps for initial setup:

1. **Attach the Backrest:** Align the backrest with the designated slots on the seat and secure it using the provided pins. The backrest is reversible to accommodate left or right tub entry.
2. **Install the Arm Support:** Insert the arm support into the appropriate slot on the seat and secure with the pin.
3. **Attach the Legs:** Insert the legs into the leg receivers on the underside of the seat. Ensure the dual-column extension legs are properly aligned.
4. **Adjust Height:** The legs are height-adjustable in 0.5-inch increments from 17.5 inches to 22.5 inches. Press the pinch-free lever to adjust the height to comfortably clear your tub and suit your needs. Ensure all legs are set to the same height for stability.
5. **Position the Bench:** Place the bench with the legs featuring extra-large suction cups inside the bathtub, and the other legs outside the tub. Press down firmly on the seat to engage the suction cups, ensuring a secure lock to the tub surface.

Operating Instructions

The tub transfer bench is designed to make entering and exiting the bathtub safer and easier. Follow these steps for proper operation:

1. **Approach the Bench:** Position yourself facing the bench, with the side of the bench extending over the bathtub.
2. **Sit Down:** Carefully sit on the portion of the bench that is outside the tub.
3. **Transfer into the Tub:** While seated, lift one leg over the tub wall and place it inside the tub. Use the arm support and backrest for stability as you slide across the seat until both legs are inside the tub.
4. **Exiting the Tub:** Reverse the process. Slide across the seat until your legs are outside the tub, then carefully stand up.

Maintenance

To ensure the longevity and hygiene of your tub transfer bench, regular cleaning and inspection are recommended:

- **Cleaning:** Clean the bench regularly with a mild soap and water solution. Rinse thoroughly and wipe dry. Avoid abrasive cleaners or solvents that may damage the plastic or aluminum components.
- **Drainage:** The seat features drainage holes to prevent water pooling, which helps keep the seat dry and clean during and after use.
- **Inspection:** Periodically check all connections, pins, and leg adjustments to ensure they are secure. Inspect the rubber tips and suction cups for wear or cracking and replace if necessary to maintain stability.

Troubleshooting

If you encounter any issues with your tub transfer bench, consider the following:

- **Instability:** Ensure all legs are adjusted to the same height and that the suction cups are firmly adhered to the tub surface. Check for any debris under the suction cups that might prevent a proper seal.
- **Difficulty Adjusting Height:** Ensure the pinch-free levers are fully depressed when attempting to adjust the leg height. Clean any debris from the adjustment holes.
- **Corrosion:** The aluminum frame is designed to be corrosion-proof. If any unusual discoloration or rust-like appearance occurs, clean the area thoroughly.

Specifications

Feature	Detail
Maximum Weight Recommendation	400 Pounds
Minimum Height	17.5 Inches
Seat Depth	15.5 inches
Manufacturer	Drive Medical
UPC	822383224916
Product Dimensions	23"D x 35"W x 32"H (Overall); 28.4 x 16.4 x 9 inches (Packaged)
Item Weight	10 Pounds
Item Model Number	12011kd-1
Number of Pieces	1
Material	Plastic
Color	Gray
