FAQ – Frequently Asked Questions

What is the difference between SN30 2.4G NT and SN 30 2.4G?

SN30 2.4G NT works with original SNES / SFC console.
SN30 2.4G works with NES / SFC / SNES Classic console.

Does it have a wireless receiver?

Yes, there is a 2.4g receiver for SNES that comes with it.

Can I use two SN30 2.4G NT on one SNES?

Yes, you can. One receiver for one controller port. One receiver for one controller.

Can I use it on Windows and Switch?

Yes, you can use it on Windows 10 and Switch wired via USB cable.

Does it work with other 8BitDo receivers/adapters?

No, it does not. It only works with the 2.4g receiver which comes with it.

How do I charge the controller? How long does the battery last when fully charged?

We suggest you charge it via a phone power adapter and original USB cable.
The controller uses 180mAh rechargeable battery with 1-2 hour charging time. The battery can last up to 18 hours when fully charged.
