FAQ – Frequently Asked Questions

What is the difference between SN30 Pro for Android and SN30 Pro?

The differences are:

- A. Different body and button colour
- B. Motion control, rumble, Turbo function are not supported
- C. Supports button swap function, 8BitDo Ultimate Software, and analog triggers
- D. Works on Android only

What systems does it work with? Does it auto reconnect to those system?

SN30 Pro for Android is a Bluetooth controller, it works with Android devices to play Cloud gaming with Xbox Game Pass and controller-supported Android games.

It auto reconnects with the press of START once it has been successfully paired.

* Cloud gaming with Xbox Game Pass may not be available in some countries/regions, please contact Microsoft Customer Service for details.

Does it work with Windows?

You can use it on Windows 10 and Switch using the 8BitDo USB Wireless Adapter.

Does it work with PS5, Xbox Series S/X, PS3, PS4, Xbox One, Xbox 360, Wii, Wii U?

No, it does not.

How do I change the controller? How long does the battery last when fully charged?

We suggest you charge it via a phone power adapter and original USB cable.

The controller uses 480mAh rechargeable battery with 1-2 hour charging time. The battery can last up to 16 hours when fully charged.

Does it have vibration?

No, it does not.

Does the Mobile Gaming Clip fit my phone?

The clip is expandable to fit Min 49mm, Max 86mm smartphones.
