8BitDo M30V2 Bluetooth Gamepad Controller

Product Information

Specifications:

- **FCC Regulatory Compliance:** Part 15 of FCC Rules
- **RF Exposure:** Complies with FCC radiation exposure limits

Product Usage Instructions

FCC Regulatory Conformance:

This device complies with Part 15 of the FCC Rules. To ensure proper operation, please follow these guidelines:

1. This device must not cause harmful interference.
2. The device must accept any interference received, including undesired operation.
3. **For optimal performance, you can:**
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment to an outlet on a different circuit from the receiver.
 - Consult the dealer or a radio/TV technician for assistance.

NOTE: The manufacturer is not liable for any radio or TV interference caused by unauthorized modifications to the equipment. Unauthorized modifications could void the user's authority to operate the equipment.

RF Exposure:

This equipment complies with FCC radiation exposure limits for an uncontrolled environment.

FAQ (Frequently Asked Questions)

• **Q: What should I do if I experience interference with the device?**

A: If you encounter interference, try reorienting the antenna, increasing separation from other devices, or consult a professional for further assistance.

• **Q: Can I modify the equipment without voiding my authority to operate it?**

A: No, any unauthorized modifications to the equipment may void your authority to operate it and could cause radio or TV interference.

FCC regulatory conformance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

NOTE:

- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

RF Exposure

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
