8BitDo NGCRR Retro Receiver for NGC Mod Kit For NGC Controller Instruction Manual 📄

## 8BitDo NGCRR Retro Receiver for NGC Mod Kit For NGC Controller
INSTRUCTION MANUAL

8BitDo Mod Kit for Original NGC Controller

1. With the controller off, press and hold **B+START buttons** for 3 seconds to enter its pairing mode, the **Status LED** blinks rapidly. (This is required for the very first time only)
2. Connect the NGC receiver to the controller port of NGC console.
3. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
4. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Ultimate Bluetooth Controller

1. Turn the **Mode switch** to BT position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly. (This is required for the very first time only)
4. Connect the NGC receiver to the controller port of NGC console.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Ultimate 2.4G Controller

1. Turn the **Mode switch** to D position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Profile button** for 5 seconds to switch to Bluetooth connection. (The controller will vibrate once)
4. Hold the **Star button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly. (This is required for the very first time only)
5. Connect the NGC receiver to the controller port of NGC console.
6. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
7. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Ultimate C Bluetooth Controller

1. Press the **Home button** to turn on the controller.
2. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly. (This is required for the very first time only)
3. Connect the NGC receiver to the controller port of NGC console.
4. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
5. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Ultimate 2C Wireless Controller

1. Turn the **Mode switch** to BT position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly. (This is required for the very first time only)
4. Connect the NGC receiver to the controller port of NGC console.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Ultimate 2C Bluetooth Controller

1. Press the **Home button** to turn on the controller.
2. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly. (This is required for the very first time only)
3. Connect the NGC receiver to the controller port of NGC console.
4. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
5. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Ultimate 3-mode Controller for Xbox

1. Turn the **Mode switch** to BT position.
2. Press the **Xbox button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly. (This is required for the very first time only)
4. Connect the NGC receiver to the controller port of NGC console.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Pro 2 Bluetooth Gamepad

1. Turn the **Mode switch** to D position.
2. Press the **Start button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side. (This is required for the very first time only)
4. Connect the NGC receiver to the controller port of NGC console.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

SN30 Pro+ Bluetooth Gamepad

1. Press the **B+Start buttons** to turn on the controller.
2. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side. (This is required for the very first time only)
3. Connect the NGC receiver to the controller port of NGC console.
4. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
5. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

SN30 Pro Bluetooth Gamepad

1. Press the **B+Start buttons** to turn on the controller.
2. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side. (This is required for the very first time only)
3. Connect the NGC receiver to the controller port of NGC console.
4. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
5. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

SN30 Pro for Android

1. Press the **Xbox button** to turn on the controller.
2. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly.
   (This is required for the very first time only)
3. Connect the NGC receiver to the controller port of NGC console.
4. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
5. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.
Lite 2

1. Turn the **Mode switch** to D position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side.
   (This is required for the very first time only)
4. Connect the NGC receiver to the controller port of NGC console.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Lite SE

1. Turn the **Mode switch** to D position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side.
   (This is required for the very first time only)
4. Connect the NGC receiver to the controller port of NGC console.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.
Lite

1. Turn the **Mode switch** to X position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side.
   (This is required for the very first time only)
4. Connect the NGC receiver to the controller port of NGC console.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.
M30 Bluetooth Controller

1. Press the **B+Start buttons** to turn on the controller.
2. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side.
   (This is required for the very first time only)
3. Connect the NGC receiver to the controller port of NGC console.
4. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
5. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.
Micro Bluetooth Gamepad

1. Turn the **Mode switch** to D position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Pair button** for a second to enter its pairing mode, the **Status LED** will start to roll side to side. (This is
   required for the very first time only)
4. Connect the NGC receiver to the controller port of NGC console.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

NEOGEO Wireless Controller

1. Turn the **Mode switch** to BT position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side.
   (This is required for the very first time only)
4. Connect the NGC receiver to the controller port of NGC console.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Arcade Stick V3

1. Turn the **Mode switch** to X position.
2. Turn the **Connection switch** to BT position.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, The four **LEDs** will start to blink clockwise. (This is
   required for the very first time only)
4. Connect the NGC receiver to the controller port of NGC console.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

## 8BitDo Mod Kit for Original N64 Controller

1. Turn the **Mode switch** to D position.
2. Press the **Start button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly.
   (This is required for the very first time only)
4. Connect the NGC receiver to the controller port of NGC console.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.
DualSense / DualSense Edge

1. With the controller off, press and hold **Create+PS buttons** for 3 seconds to enter its pairing mode,
   the **Status LED** blinks rapidly. (This is required for the very first time only)
2. Connect the NGC receiver to the controller port of NGC console.
3. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
4. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.
DualShock 4

Xbox One / Xbox Series / Xbox Elite Series 2 / Xbox Elite

1. With the controller off, press and hold **Share+PS buttons** for 3 seconds to enter its pairing mode, the **Status LED** blinks rapidly. (This is required for the very first time only)
2. Connect the NGC receiver to the controller port of NGC console.
3. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
4. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Series 2-Core / Xbox Adaptive Controller

1. Press the **Xbox button** to turn on the controller.
2. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly. (This is required for the very first time only)
3. Connect the NGC receiver to the controller port of NGC console.
4. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
5. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Switch Pro

1. With the controller off, press and hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side. (This is required for the very first time only)
2. Connect the NGC receiver to the controller port of NGC console.
3. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
4. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Wii U Pro

1. With the controller off, press and hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** blinks rapidly. (This is required for the very first time only)
2. Connect the NGC receiver to the controller port of NGC console.
3. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
4. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

8BitDo Mod Kit for Original NGC Controller

1. With the controller off, press and hold **B+START buttons** for 3 seconds to enter its pairing mode, the **Status LED** blinks rapidly. (This is required for the very first time only)
2. Connect the NGC receiver to the USB port of your Windows device.
3. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
4. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Ultimate Bluetooth Controller

1. Turn the **Mode switch** to BT position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly. (This is required for the very first time only)
4. Connect the NGC receiver to the USB port of your Windows device.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Ultimate 2.4G Controller

1. Turn the **Mode switch** to D position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Profile button** for 5 seconds to switch to **Bluetooth connection.** (The controller will vibrate once)
4. Hold the **Star button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly. (This is required for the very first time only)
5. Connect the NGC receiver to the USB port of your Windows device.
6. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
7. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Ultimate C Bluetooth Controller

1. Press the **Home button** to turn on the controller.
2. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly. (This is required for the very first time only)
3. Connect the NGC receiver to the USB port of your Windows device.
4. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
5. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Ultimate 2C Wireless Controller

1. Turn the **Mode switch** to BT position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly. (This is required for the very first time only)
4. Connect the NGC receiver to the USB port of your Windows device.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.

Ultimate 2C Bluetooth Controller

1. Press the **Home button** to turn on the controller.
2. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly. (This is required for the very first time only)
3. Connect the NGC receiver to the USB port of your Windows device.
4. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
5. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Ultimate 3-mode Controller for Xbox
1. Turn the **Mode switch** to **BT** position.
2. Press the **Xbox button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly.
   (This is required for the very first time only)
4. Connect the NGC receiver to the USB port of your Windows device.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Pro 2 Bluetooth Gamepad

1. Turn the **Mode switch** to **D** position.
2. Press the **Start button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side. (This is required for the very first time only)
4. Connect the NGC receiver to the USB port of your Windows device.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

SN30 Pro+ Bluetooth Gamepad

1. Press the **B+Start buttons** to turn on the controller.
2. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side.
   (This is required for the very first time only)
3. Connect the NGC receiver to the USB port of your Windows device.
4. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
5. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.
SN30 Pro Bluetooth Gamepad

1. Press the **B+Start buttons** to turn on the controller.
2. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side. (This is required for the very first time only)
3. Connect the NGC receiver to the USB port of your Windows device.
4. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
5. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

SN30 Pro for Android

1. Press the **Xbox button** to turn on the controller.
2. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly.
   (This is required for the very first time only)
3. Connect the NGC receiver to the USB port of your Windows device.
4. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
5. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Lite 2

1. Turn the **Mode switch** to **D** position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side. (This is required for the very first time only)
4. Connect the NGC receiver to the USB port of your Windows device.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Lite SE

1. Turn the **Mode switch** to **D** position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side.
   (This is required for the very first time only)
4. Connect the NGC receiver to the USB port of your Windows device.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.
Lite

1. Turn the **Mode switch** to **X** position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side. (This is required for the very first time only)
4. Connect the NGC receiver to the USB port of your Windows device.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

M30 Bluetooth Controller

1. Press the **B+Start buttons** to turn on the controller.
2. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side.
   (This is required for the very first time only)
3. Connect the NGC receiver to the USB port of your Windows device.
4. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
5. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Micro Bluetooth Gamepad

1. Turn the **Mode switch** to D position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Pair button** for a second to enter its pairing mode, the **Status LED** will start to roll side to side. (This is
   required for the very first time only)
4. Connect the NGC receiver to the USB port of your Windows device.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

NEOGEO Wireless Controller

1. Turn the **Mode switch** to BT position.
2. Press the **Home button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to roll side to side.
   (This is required for the very first time only)
4. Connect the NGC receiver to the USB port of your Windows device.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Arcade Stick V3

1. Turn the **Mode switch** to X position.
2. Turn the **Connection switch** to BT position.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, The four **LEDs** will start to blink clockwise. (This is
   required for the very first time only)
4. Connect the NGC receiver to the USB port of your Windows device.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

8BitDo Mod Kit for Original N64 Controller

1. Turn the **Mode switch** to D position.
2. Press the **Start button** to turn on the controller.
3. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly.
   (This is required for the very first time only)
4. Connect the NGC receiver to the USB port of your Windows device.
5. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
6. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

DualSense / DualSense Edge

1. With the controller off, press and hold **Create+PS buttons** for 3 seconds to enter its pairing mode,
   the **Status LED** blinks rapidly. (This is required for the very first time only)
2. Connect the NGC receiver to the USB port of your Windows device.
3. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
4. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

DualShock 4

1. With the controller off, press and hold **Share+PS buttons** for 3 seconds to enter its pairing mode, the
   Status LED blinks rapidly. (This is required for the very first time only)
2. Connect the NGC receiver to the USB port of your Windows device.
3. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
4. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Xbox One / Xbox Series / Xbox Elite Series 2 / Xbox Elite Series 2-Core / Xbox Adaptive Controller

1. Press the **Xbox button** to turn on the controller.
2. Hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** will start to blink rapidly. (This is
   required for the very first time only)
3. Connect the NGC receiver to the USB port of your Windows device.
4. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
5. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Switch Pro

1. With the controller off, press and hold **Pair button** for 3 seconds to enter its pairing mode, the
   Status LED will start to roll side to side. (This is required for the very first time only)
2. Connect the NGC receiver to the USB port of your Windows device.
3. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
4. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Wii U Pro

1. With the controller off, press and hold the **Pair button** for 3 seconds to enter its pairing mode, the **Status LED** blinks
   rapidly. (This is required for the very first time only)
2. Connect the NGC receiver to the USB port of your Windows device.
3. Press the **Pair button** of the receiver, the **Status LED** starts to blink rapidly.
4. The **Status LED** of the controller and the receiver will remain solid to indicate a successful connection.

Safety Warnings:

- Please always use batteries, chargers, and accessories provided by the manufacturer.
- The manufacturer is not liable for any safety issues arising from the use of non-manufacturer-approved accessories.
- Do not attempt to disassemble, modify, or repair the device yourself. Unauthorized actions may result in serious injury.
- Avoid crushing, disassembling, puncturing, or attempting to modify the device or its battery, as these actions can be dangerous.
- Any unauthorized changes or modifications to the device will void the manufacturer's warranty.

Support

Please visit support.8bitdo.com for further information & additional support.

FCC regulatory conformance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

– Reorient or relocate the receiving antenna.
– Increase the separation between the equipment and receiver.
– Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

RF Exposure

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

IC regulatory conformance
This device complies with CAN ICES-003 (B)/NMB-003(B).
This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.
Cet appareil est conforme à la norme CAN ICES-003 (B)/NMB-003 (B).

RF Exposure

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment.

Cet équipement est conforme aux limites d'exposition aux radiations de la IC définies pour un environnement non contrôlé.

Specifications:

- Product Name: Retro Receiver for NGC
- Compatible with: NGC Console
- Controller Compatibility: 8BitDo Mod Kit for Original NGC Controller, Ultimate Bluetooth Controller, Ultimate 2.4G Controller, Ultimate 2C Wireless Controller, Ultimate C Bluetooth Controller, Ultimate 2C Bluetooth Controller

---

Frequently Asked Questions (FAQ)

Q: How do I know if the controller is successfully paired with the NGC receiver?

A: The Status LED of both the controller and the receiver will remain solid once they are successfully connected.

Q: Do I need to enter pairing mode every time I use the controller?

A: Pairing mode is only required for the very first time or when connecting to a new device. Once paired, subsequent connections should be automatic.
