BATTERY XPRO INFO

### BATTERY

Only use the charger provided with the battery. Do not place any object on the charger.

Charging the BH battery at 70-80% is mandatory if not used or stored for a long time period.

Additionally, control the level of the battery charger evevery 3 months and keep it always above 20% charge.

If the battery is in deep sleep mode and in order to wake it up, please charge the battery to 100% capacity.
