## N8550-32C Switch FSOS Software Release Notes

N8550-32C Switch FSOS Software Release Notes-product

### Product Information

<b>Model</b>	N8550-32C
<b>Product Version Type</b>	Official Version
<b>Applicable Customers</b>	Data Center Customers
<b>Release Date</b>	2021-07-27
<b>Baseline Version</b>	V100R201

### Bug Fixes

<b>Version</b>	V410 R240
----------------	-----------

## Version Changes

<b>Version</b>	V410 R240
<b>Hardware Support Changes</b>	None
<b>Functional Support Changes</b>	Add MLAG, EVPN and NTP functions
<b>Version</b>	V100R201
<b>Hardware Support Changes</b>	None
<b>Functional Support Changes</b>	None

## Upgrade Instructions

```
N8550-32C#show ver FS Platform Copyright (c) 2009-2020 FS.COM Inc. All Rights Reserved.
FSP (R) Software Version V410R240 Compiled Jul 27 2021 10:35:46
FS Switch N8550-32C System Uptime is 0 days 0 hours 17 minutes 30 seconds
Hardware Version : N/A
BIOS Version : N/A
FPGA Version : N/A
Serial Number : 772632X1943019
System Memory : 16322248K
```

To upgrade or downgrade the device to the specified version, you need to use the provided upgrade file. Make sure to choose the correct file for your N8550-32C switch.

## Version Information

- **Version Number** V410R240
- **Product** N8550-32C
- **Version Type** Official Version
- **Applicable Customers** Data Center Customers
- **Release Date** 2021-07-27
- **Baseline Version** V100R201

Use the show version command to view the version number, an example is as follows:

```
N8550-32C#show ver
```

```
FS Platform
```

```
Copyright (c) 2009-2020 FS.COM Inc. All Rights Reserved.
```

```
FSP (R) Software Version V410R240
```

```
Compiled Jul 27 2021 10:35:46
```

```
FS Switch N8550-32C
```

```
System Uptime is 0 days 0 hours 17 minutes 30 seconds
```

```
Hardware Version : N/A
```

```
BIOS Version      : N/A
```

```
FPGA Version      : N/A
```

```
Serial Number     : 772632X1943019
```

```
System Memory     : 16322248K
```

## Bug fixes

### V410 R240

Based on v100r201 newly added to solve the following problems

Solve the problem of incompatibility with 10G SFP+ Passive DAC 3m cable
