### FS SFP10G Optical Transceivers

### WARNING

- Caution against moisture.
- Do not disassemble or modify.
- Please wear antistatic gloves.
- Never look into fiber ports.
- The transceiver can only be installed or replaced by qualified personnel.

## OVERVIEW

- 25G SFP28
- 10G SFP+
- 1G SFP

- 100G QSFP28
- 40G QSFP+

- 10G-T SFP+
- 1G-T SFP

## INSTALLATION

**NOTE:** Line up the module with the port and slide it gently into the port until the lock is fully seated.

## LC Cables Installation

**NOTE:** When inserting into a device, please make sure the module matches the device bayonet properly. Do not push in or pull out the module with force.

## MTP Cables Installation

## Product Warranty

FS ensures our customers that any damage or faulty items due to our workmanship, we will offer a free return within 30 days from the day you receive your goods. For Fiber Optic Transceivers, we also offer replacement service if there are any quality issues within 1 year.

**Warranty:** All Fiber Optic Transceivers enjoy 5 years limited warranty against defect in materials or workmanship. For more details about warranty, please check at <https://www.fs.com/policies/warranty.html>

**Return:** If you want to return item(s), information on how to return can be found at [https://www.fs.com/policies/day\\_return\\_policy.html](https://www.fs.com/policies/day_return_policy.html)

## FCC

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

**CAUTION:** Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.
