BLOSSOMZ BLZ-9296

BLOSSOMZ Maddox Crossing Dining Table

Model: BLZ-9296

Introduction

This manual provides essential information for the assembly, use, and maintenance of your BLOSSOMZ Maddox Crossing Dining Table. Designed to seat up to six people, this table features sturdy wood construction and a classic design. Please read these instructions carefully before assembly and use to ensure safe and proper operation.

Setup and Assembly

Assembly is required for this dining table. It is recommended that two adults perform the assembly. Ensure all parts are present before beginning.

Required Tools (Not Included):

- Phillips head screwdriver
- Allen wrench (often included with hardware, but a personal set may be useful)

Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a soft, clean surface to prevent scratches. Verify all hardware and components are present against the parts list (refer to your product packaging for the complete list).
2. **Attach Legs to Tabletop:** Position the tabletop upside down on a protected surface. Attach the leg assemblies to the designated mounting points on the underside of the tabletop using the provided bolts and washers. Do not fully tighten bolts at this stage.
3. **Install Support Beams:** Connect the central support beam(s) between the leg assemblies. Secure with bolts and washers, again, do not fully tighten.
4. **Align and Tighten:** Once all components are loosely assembled, gently turn the table upright. Ensure the table is level and stable. Then, systematically tighten all bolts and fasteners until secure. Avoid over-tightening.
5. **Final Inspection:** Check all connections for tightness and stability. The table should not wobble.

Operating and Usage

The BLOSSOMZ Maddox Crossing Dining Table is designed for indoor use as a dining surface. It comfortably seats up to six individuals.

General Use Guidelines:

- **Seating Capacity:** The table is designed to accommodate up to 6 people. Do not exceed this capacity to ensure stability and safety.
- **Weight Distribution:** Distribute weight evenly across the tabletop. Avoid placing heavy objects on one side or corner exclusively.
- **Placement:** Place the table on a flat, level surface to prevent wobbling.
- **Heat Protection:** Always use placemats, coasters, or hot pads under hot dishes to protect the wood surface from heat damage.
- **Sharp Objects:** Avoid dragging sharp or abrasive objects across the tabletop to prevent scratches.

Care and Maintenance

Proper care will help maintain the beauty and longevity of your dining table.

Cleaning:

- **Regular Cleaning:** Wipe the table surface regularly with a soft, damp cloth.
- **Spills:** Immediately wipe up spills with a dry cloth to prevent moisture from penetrating the wood.
- **Cleaning Agents:** Use only mild, non-abrasive wood-safe cleaners. Avoid harsh chemicals, ammonia-based cleaners, or silicone-based polishes, as these can damage the finish.

General Care:

- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight, which can cause fading or cracking of the wood finish.
- **Humidity:** Maintain a consistent humidity level in the room. Extreme changes in humidity can cause wood to expand or contract, leading to cracks or warping.
- **Tighten Fasteners:** Periodically check and tighten all bolts and screws to ensure the table remains stable.

Troubleshooting

Here are solutions to common issues you might encounter:

- **Table Wobbles:**
    - Ensure the table is on a flat, level surface.
    - Check all assembly bolts and screws. Tighten any loose fasteners.
    - If one leg is slightly shorter, use a small furniture pad or shim under the leg to level the table.
- **Scratches on Surface:**
    - For minor scratches, a wood repair marker or furniture polish designed for scratches may help.
    - Always use placemats and coasters to prevent future scratches.
- **Stains:**

- For fresh spills, wipe immediately.
- For stubborn stains, consult a professional furniture restorer or use a specialized wood stain remover with caution, testing on an inconspicuous area first.

Specifications
