Setup

Preparing for Play:

1. Place the interactive central hub in the middle of the playing area.
2. Shuffle all 91 domino tiles face down thoroughly.
3. Each player draws a specific number of dominoes based on the number of participants:
    - 2-4 Players: 15 dominoes each
    - 5-6 Players: 12 dominoes each
    - 7-8 Players: 10 dominoes each
4. The remaining dominoes form the boneyard (draw pile).
5. Players arrange their drawn dominoes on their racks (not included in this set) or stand them on their side so that only they can see their values.

Gameplay

Mexican Train Dominoes:

The objective is to be the first player to play all their dominoes. The game begins with the highest double domino (e.g., Double 12) placed in the center of the hub.

1. Players take turns adding a domino to their personal train, the Mexican Train, or another player's marked train.
2. A domino must match the number of pips on the open end of the train it is being played on.
3. If a player cannot make a move, they must draw one domino from the boneyard. If the drawn domino can be played, they play it. If not, their turn ends, and they place a train marker on their personal train to indicate it's open for others to play on.
4. The round ends when a player plays their last domino or when no more moves are possible.

Chicken Foot Dominoes:

Chicken Foot is a variation where the central domino is a double. Players must play three dominoes off the double before any other train can be started or extended.

1. The game starts with a central double domino.
2. The first player to play on the central double must play three dominoes, forming a "chicken foot" pattern.
3. Subsequent plays follow similar matching rules as Mexican Train, but specific rules apply to playing on doubles.

Interactive Hub:

The central hub features an on/off switch to activate its sound effects. When turned on, the hub will play train and chicken sounds at various points during the game, adding an immersive element to your play.

Maintenance

Cleaning:

To clean the domino tiles and the interactive hub, gently wipe them with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish or electronic components.

Storage:

Always store all game components in the provided aluminum case when not in use. This protects the tiles and accessories from dust, damage, and loss, ensuring the longevity of your set.

Troubleshooting

- **Missing Pieces:** If any components are missing upon arrival, please contact customer support immediately.
- **Interactive Hub Sounds Not Working:** Ensure the on/off switch is in the 'on' position. If the issue persists, check if the hub requires batteries (not included) and replace them if necessary.
- **Damaged Dominoes:** Handle dominoes with care. If a tile becomes damaged, replacement tiles may be available from the manufacturer.

Specifications

Feature	Detail
Product Dimensions	8.25 x 8.25 x 3.75 inches
Item Weight	4.9 pounds
Item Model Number	2517MT-AL
Manufacturer Recommended Age	8 years and up
Manufacturer	CHH
Release Date	February 27, 2015

Warranty and Support

For any questions regarding product warranty, returns, or technical support, please refer to the contact information provided on the product packaging or visit the official CHH website. Keep your purchase receipt for warranty claims.
