# hp SmartTracker Software User Manual

**HP Smart Tracker Software User Manual**

**Contents**

## CONTROL

**Powerful data tracking and reporting**

- Keep track and compare both print costs and reimbursement fees, at the same time
- Generate/schedule easy-to-read reports— use the default templates or customize them to your preferences
- Consolidate tracking and reporting across multiple HP Page Wide XL1 and Design Jet printers2
- Get the complete detail—you can access the source data on a per-page basis.
- Include Taxes – you can add tax liability to all your reports

## CONSISTENCY

**All your jobs are assigned correctly**

- Avoid manual data entry and easily merge data from HP Smart Stream/HP Click/driver/ front panel/MFP1.
- Assign jobs by print user, project, and department, or edit the categories to fit your workflow.
- Get secure print job assignment, with optional password-protected categories that help prevent errors
- Enable correct print job allocation—submit jobs as billable/not billable, and add comments with more info

## EFFICIENCY

**Easy to use, easy to integrate**

- Save time—create invoice-format reports including your company logo
- Avoid manual error—users, projects updated with active directory integration and central projects database
- Free up time—integrate with your current accounting software by easily importing or exporting .csv files
- Make better use of the team's time— automatic fill-in with the last credentials used helps simplify printing.

## Convert your printing costs into your advantage.

Take your business to the next level with HP Smart Tracker. Track printing data across multiple HP Page Wide XL1

and Design Jet printers2 and easily create consolidated reports to analyze your printing costs, or enable reimbursement.
