**KM0929 GSM Keypad Phone**

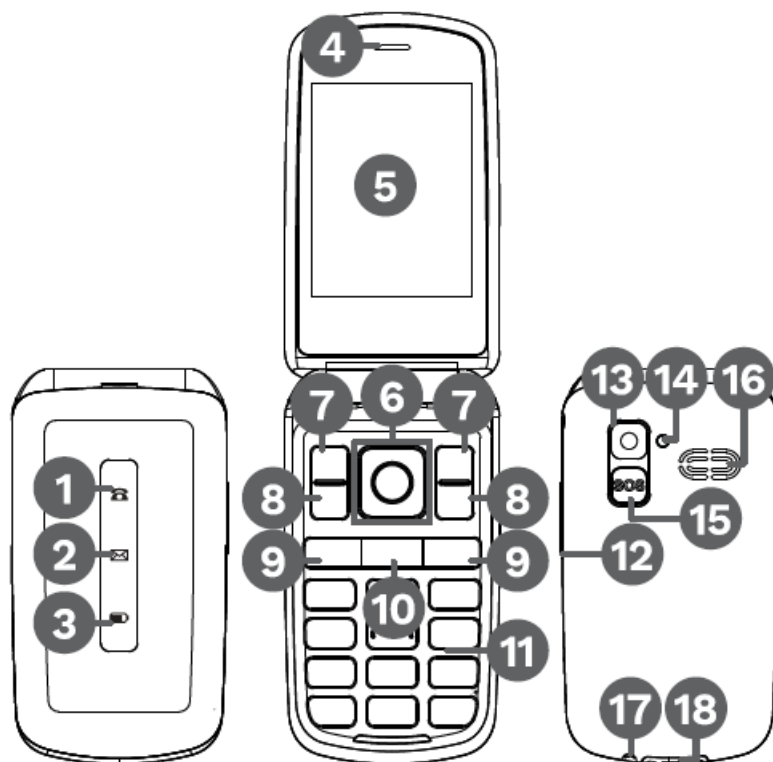

## SAFETY INSTRUCTIONS

1. In case of losing or stealing the phone, contact your network carrier about locking the SIM card. Taking action immediately will increase chances to avoid unauthorized use. To secure the phone from unauthorized use, set the SIM card PIN number and set up the phone password.
2. It is forbidden to use the phone while driving, if it requires holding the phone near your ear. If it is necessary to use the phone, use headset or earphones.
3. Do not use the phone while onboard in a plane. During flights it must be shut down or set into airplane mode.
4. Turn off the phone in places where using it is forbidden or may cause danger.
5. Do not expose the phone to high or low temperatures.
6. Do not expose the device to moisture. Submerging the device in the water may lead to damage.
7. Use of this device near medical apparatuses may cause interference in their operation. Pay attention while using your smart band near medical apparatuses such as pacemakers, hearing aids and some other electronic medical devices.
8. Any repair of this device can be carried out in qualified and authorized service point exclusively. Any attempts to repair this device on your own, may hold the risk of permanent device damage and lose of warranty.
9. Do not use accessories which are not specifically designed and recommended by the phone manufacturer.
10. Producer does not claim responsibility of damages or injuries caused by inappropriate device use and handling.
11. The phone may not include all of the features that are listed in this owner's manual due to network settings or network carrier setting. Do not rely solely on this phone in emergency situations. If there are any doubts, please consult your network carrier.
