TRESKO Blanc

TRESKO Swivel Stool Instruction Manual

Model: Blanc

INTRODUCTION

Thank you for choosing the TRESKO Swivel Stool. This manual provides essential information for the safe assembly, operation, and maintenance of your new stool. Please read it thoroughly before use and keep it for future reference.

Image: The TRESKO Swivel Stool, white with a black base, positioned in a contemporary kitchen environment, demonstrating its versatile use.

Safety Information

Attention: The maximum recommended weight for this stool is 150 kg (approximately 330 lbs). Exceeding this limit could cause product damage or personal injury.

- Ensure all components are securely fastened before use.
- Do not stand on the stool.
- Use on a flat, stable surface to prevent tipping.
- Keep hands and fingers clear of moving parts during height adjustment.

Package Contents

Please check that all the following components are included in your package:

- 1x Padded Seat
- 1x Gas Lift Cylinder
- 1x Base (Star-shaped)
- 5x Wheels

Image: An infographic detailing the stool's dimensions (seat diameter 34 cm, padding 10 cm, height 47-60 cm, base diameter 52 cm) and key features like 150 kg weight support, and its light yet robust design.

Assembly Instructions

The TRESKO Swivel Stool is designed for easy assembly. No special tools are required.

1. **Attach Wheels to Base:** Insert each of the five wheels into the designated holes at the end of each leg of the star-shaped base. Push firmly until they click into place.
2. **Insert Gas Lift into Base:** Place the wider end of the gas lift cylinder into the central hole of the assembled base.
3. **Attach Seat to Gas Lift:** Position the padded seat on top of the narrower end of the gas lift cylinder. The seat will

settle securely once weight is applied.

Your stool is now assembled and ready for use.

Operating Instructions

Height Adjustment

To adjust the seat height (from 47 cm to 60 cm), locate the lever under the seat. While seated, pull the lever upwards to lower the seat. To raise the seat, stand up slightly and pull the lever upwards. Release the lever at your desired height.

Image: An infographic illustrating the smooth gas lift function and the seat height adjustment range from 47 cm to 60 cm.

360° Swivel Function

The seat is designed to rotate 360 degrees, allowing for easy movement and access in any direction without repositioning the base.

Image: An infographic highlighting the 360-degree swivel capability of the wheels, along with features like silent wheels, stability, and a scratch-resistant surface.

Mobility

The stool is equipped with smooth-moving wheels suitable for hard floors, enabling comfortable, quick, and safe movement across your workspace.

Image: An infographic demonstrating the smooth gliding of the wheels on the floor and illustrating how the stool promotes an upright posture for back support and comfort.

Maintenance

Cleaning

The polyurethane upholstery can be easily cleaned with a damp cloth. Avoid using abrasive cleaners or harsh chemicals, as these may damage the material.

Image: An infographic emphasizing the stool's comfortable 10 cm padding, its easy-to-clean surface, and its water-repellent properties.

General Care

- Regularly check all screws and connections to ensure they are tight.
- Keep the wheels free of hair and debris to maintain smooth movement.

Troubleshooting

Stool does not adjust height

Ensure the gas lift lever is fully engaged and that there is no obstruction. If the issue persists, verify that the gas lift cylinder is correctly seated in both the base and the seat mechanism.

Wheels do not roll smoothly

Check the wheels for any accumulated dirt, hair, or debris and remove them. Ensure the wheels are properly inserted

into the base.

Stool feels unstable

Verify that all components are correctly assembled and securely tightened. Ensure the stool is used on a flat, even surface.
If you encounter any other issues, please contact customer support.

Specifications

Brand	TRESKO
