RL R50781032 Table Lamp

Material Construction

- **Metal** · Black mat
- **Metal** · Black mat

Product Information

The product is a table lamp designed for indoor use. It has a switch with an IP20 rating, which means it provides protection against solid objects larger than 12mm and does not provide any protection against water. The lamp(s) are not included with the product. The lamp is constructed using a specific material, but the manual does not specify the material.

Product dimensions

- **Width:** 16cm
- **Height:** 50cm
- **Depth:** 23cm
- **Weight:** 1,63kg

Technical data

- **Light source:** excl. 1x E27 · max. 10W
- **operating voltage:** 230V ~ 50Hz
- **Protection grade:** 2
- **IP classification:** IP20

Product Usage Instructions

To use the table lamp, follow these steps

1. Make sure the operating voltage in your area is compatible with the lamp's requirement of 230V ~ 50Hz.

2. Place the lamp on a stable surface such as a table or desk.

3. If not already assembled, follow the assembly instructions provided in the manual.

4. Connect the lamp to a power source using a compatible power cord.

5. Ensure that the lamp is switched off before plugging it in.

6. Insert the appropriate lamp(s) into the lamp holder. Note that the lamp(s) are not included in the product.

7. Switch on the lamp using the switch provided. The switch should be located on the lamp or its cord.

Refer to the manual for additional information on safety notes and warranty details.
