Product features

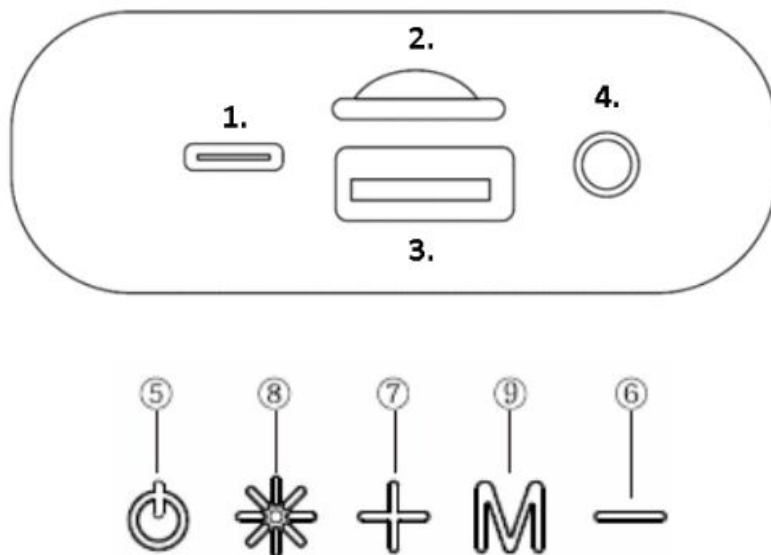

1. Advanced wireless connectivity.
2. The speaker includes a Hi-Fi system that ensures clear sound.
3. It supports Micro SD card and flash drive and also supports MP3 audio playback.
4. The wireless distance reaches about 10 meters.
5. Thanks to the AUX input, it is possible to easily connect the speaker to external devices such as a tablet, TV or mobile phone.
6. The device will automatically turn off after 30 minutes if the wireless connection is disconnected.
7. The playback device is equipped with various LED lights that pulse in different colors and their flashing is synchronized with the melody.
8. Supports TWS.

TWS: If both speakers are in wireless mode without pairing, press the “M” button on either speaker for 2-3 seconds until you hear a signal. TWS mode is now activated. After disconnecting the wireless connection and pressing the “M” button for 3 seconds on any speaker, you will exit the TWS mode.

Bluetooth pairing

1. Press the power button for about 3 seconds. A power-on signal will sound.
2. Turn on bluetooth on your phone and search for “WG-AirFlex7”.
3. A beep will sound after connection.

Functions of buttons and slots

1. USB-C slot: Use a standard USB-C charging cable for power.
2. SD card slot: When you insert an SD card into the slot, it can decode and play audio files in MP3 format. Use FAT32 format.
3. USB slot: When you insert a flash drive into the slot, it can decode and play audio files in the MP3 format. Use FAT32 format.
4. AUX slot: Use the mini 3.5mm audio input to connect external devices.
5. Buttons: Long press  to turn on/off the device.

When playing music (flash disk/SD card/wireless mode), short press  for play/pause.

In wireless mode with a paired mobile phone, briefly when there is an incoming call press  to answer the call wirelessly, press again to end the call and twice press to redial.

6. When playing music, short press to switch to previous track, long press  to decrease the volume.
7. When playing music, short press  to switch to next track and long press turn up the volume.
8. Short press  to activate the flashing LED light option, long press to turn it off LED lighting.
9. Press  briefly to switch the mode (SD card/flash disk/wireless mode/line in).

Troubleshooting:

If the speaker gets stuck during use, please hold the power button for 8 seconds to reset and shutdown.
