wp 2200 motu A Plus Meeting Conference Table

Product Usage Instructions

Assembly:

1. Place the frame in the desired location.
2. Attach the cable trough to the frame securely.
3. Mount the table top onto the frame using the provided hardware.
4. Connect the control unit to the power source.

Height Adjustment:

1. Use the control panel to adjust the height of the table as needed.
2. Ensure that the table is stable before use after adjusting the height.

Care and Maintenance:

Regularly clean the table top and frame with a damp cloth. Avoid using harsh chemicals that may damage the surface.

FAQ

- **Q: Can I add additional accessories to the table?**
 - A: Yes, you can add optional accessories such as socket units, spiral cables, cable chains, and cable socks for added functionality.
- **Q: What is the maximum length of the table top available?**
 - A: The maximum length of the table top is 2600mm for most material options. For specific details, refer to the product specifications.
- **Q: How do I request custom colors or materials for the table?**
 - A: You can contact customer support to inquire about the custom color and material options available for the table.

Product Information

Meeting table A plus

Finally there is an interaction table with lots of space for everybody to lay out their plans – whilst sitting or standing, over a length of two, four or even more metres. The end-to-end tabletop has three supports and is available in many colours. The proven A-shaped trestles incorporated into the design concept provide the highest appreciable degree of stability thanks to sophisticated clamping and a mounting bracket, also in extended table formats; whilst, availing overall electric height adjustability – to cater to those spontaneous inclinations we share for welcomed, inspirational changes in perspective: so that all persons at the meeting table may come to a common position.

As a company that has been rooted in the carpentry trade for over 80 years, it is important to us to work with suppliers from the region; to establish long-term and fair cooperation; and to be in direct personal contact with our partners. Thus, we do not only know every production step at our suppliers but also the people behind it. We develop durable furniture made of useful materials that are easy to repair. You can obtain spare parts from our customer service at any time. If nothing can be done at all, we take back our articles at the end of a long product life on request, check for further use or return them to the material cycle; or befittingly consign to proper disposal.
