Bushnell 368850

Bushnell Neo Ion 2 Golf GPS Watch User Manual

Model: 368850

Introduction

The Bushnell Neo Ion 2 Golf GPS Watch is a sleek and comfortable device designed to enhance your golf game. It comes preloaded with over 36,000 courses across more than 30 countries, providing essential golf course data directly on your wrist. This manual provides comprehensive instructions for setting up, operating, maintaining, and troubleshooting your Neo Ion 2 GPS Watch.

Getting Started: Setup

1. Package Contents

Before you begin, ensure all components are present:

- Bushnell Neo Ion 2 Golf GPS Watch
- Charging Cable
- Instruction Manual (this document)

2. Initial Charging

It is recommended to fully charge your Neo Ion 2 watch before its first use. Connect the provided charging cable to the watch and a USB power source. The watch features a long battery life, allowing for approximately three full rounds of golf on a single charge.

Figure 1: Bushnell Neo Ion 2 Golf GPS Watch displaying golf course data.

3. Powering On and GPS Acquisition

To power on the watch, press and hold the designated power button. Upon activation, the watch will begin searching for GPS signals to locate your current position and identify nearby golf courses. This process may take several minutes, especially

during the initial setup or in areas with limited satellite visibility. Ensure you are in an open area for optimal signal acquisition.

4. Wireless Course Updates

The Neo Ion 2 supports wireless course updates. It is advisable to periodically connect your watch to the Bushnell Golf app on your smartphone to ensure your course data is up-to-date. This provides access to the latest course layouts and information.

Operating Instructions

1. Golf Mode Overview

Once a course is selected and GPS is locked, the watch will display key information for the current hole. This typically includes:

- **Hole Number:** Current hole being played.
- **Par:** Par for the current hole.
- **Distances:** Front, Center, and Back distances to the green.

Figure 2: Display showing distances to various course hazards.

2. Shot Distance Measurement

The Neo Ion 2 allows you to measure the distance of your shots. To activate this feature, press the designated button (refer to the watch's physical buttons for specific layout). This will reset the distance counter to zero. Walk to your ball, and the watch will display the distance from your previous position to your current location, indicating your shot length.

Figure 3: Watch displaying a measured shot distance.

3. Hazard Distances

In addition to green distances, the watch can provide distances to various course hazards. Navigate through the watch's menus using the side buttons to access hazard information. This feature helps in strategic shot planning by providing distances to bunkers, water hazards, and other obstacles.

4. Button Functions

The watch features several physical buttons on its sides. These buttons are used for navigating menus, selecting options, activating features like shot measurement, and adjusting settings. Familiarize yourself with the button layout and their corresponding functions for efficient use on the course.

Maintenance

1. Cleaning Your Watch

To maintain the appearance and functionality of your Neo Ion 2 watch, regularly clean it with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials that could damage the screen or casing. Ensure the charging contacts are clean and dry before charging.

2. Battery Care

While the watch boasts excellent battery life, proper care can extend its lifespan. Avoid exposing the watch to extreme temperatures. If storing for an extended period, ensure the battery is partially charged (around 50%) to prevent deep discharge.

3. Software and Course Data Updates

Periodically check for software updates via the Bushnell Golf app or Bushnell's official website. Keeping your watch's software and course data updated ensures optimal performance and accuracy, as well as access to new features or bug fixes.

Troubleshooting

Problem	Possible Cause	Solution
Slow GPS Acquisition	Poor satellite signal; initial setup.	Move to an open area with clear sky view. Allow more time for initial lock. Ensure course data is updated.
Watch Not Charging	Improper cable connection; dirty charging contacts; faulty charger/cable.	Ensure charging cable is securely connected. Clean charging contacts on watch and cable. Try a different USB power source or cable if available.
Screen Fogging	Condensation due to temperature/humidity changes.	This can occur in certain environmental conditions. If persistent or severe, contact customer support.
Accidental Button Presses / Mode Changes	Watch worn too tightly; golf glove interfering with buttons.	Adjust watch strap for a comfortable fit that doesn't press buttons. Consider wearing the watch on the opposite wrist if issues persist.

Product Specifications

Brand: Bushnell

Model Name: iON2

Part Number: 368850

Color: Black/Blue

Material: Plastic

Item Dimensions (LxWxH): 0.4 x 3.1 x 5.6 inches

Package Dimensions (LxWxH): 5.2 x 4.53 x 0.39 inches

Package Weight: 0.02 Kilograms

Screen Size: 4.2 Inches *(Note: This specification typically refers to a larger display area or packaging detail, not the watch face*

itself.)

Connectivity Technology: Bluetooth

Map Type: Worldwide

Battery Life: 12 Hours (in GPS mode)

Sport Type: Golf

Included Components: Watch, Charger, Instructions

Model Year: 2023

Warranty Information

The Bushnell Neo Ion 2 Golf GPS Watch comes with a**1-year limited warranty**. For detailed terms and conditions, please refer to the warranty card included with your product or visit the official Bushnell website. Keep your proof of purchase for warranty claims.
