PKPOWER PBX-61159

PK Power Cord Instruction Manual

For QFX PBX-61159 Battery Powered Bluetooth PA Speaker

1. Introduction

This manual provides important information regarding the safe and effective use of your PK Power Cord. This power cord is designed to provide reliable power to compatible devices, specifically the QFX PBX-61159 Battery Powered Bluetooth PA Speaker. Please read these instructions carefully before use and retain them for future reference.

2. Safety Instructions

- **Voltage Compatibility:** Ensure the power outlet voltage matches the cord's specifications (100-240V).
- **Proper Connection:** Always insert the plug fully into the outlet and the device. A loose connection can cause overheating.
- **Avoid Damage:** Do not bend, twist, or pull the cord excessively. Avoid placing heavy objects on the cord.
- **Environmental Conditions:** Do not use the cord in wet or damp conditions. Keep away from heat sources.
- **Disconnection:** When unplugging, grasp the plug firmly, not the cord.
- **Inspection:** Regularly inspect the cord for any signs of damage, such as frayed wires or cracked insulation. Discontinue use if damage is found.
- **Protection Features:** This PK Power cord is designed with Over Voltage Protection (OVP), Over Current Protection (OCP), and Short Circuit Protection (SCP) to safeguard your devices.

3. Setup and Installation

Follow these steps to correctly connect your PK Power Cord:

1. **Identify Connectors:** The power cord has a standard 2-prong or 3-prong AC plug on one end (for the wall outlet) and a C7 (figure-8) or C5 (cloverleaf) connector on the other end (for the device). Ensure these match your device's power input.
2. **Connect to Device:** Insert the device-specific connector firmly into the power input port of your QFX PBX-61159 speaker.
3. **Connect to Power Outlet:** Insert the AC plug into a standard wall power outlet.
4. **Verify Connection:** Ensure both ends of the power cord are securely connected.

Image 2: Another view of the PK Power Cord, showing the two-prong wall plug and the figure-8 (C7) connector. The cord is partially coiled, highlighting its flexibility.

4. Operating Instructions

Once the power cord is securely connected to both the QFX PBX-61159 speaker and a power outlet, the speaker should receive power. Refer to your QFX PBX-61159 speaker's instruction manual for specific power-on procedures and operational details.

- Ensure the power cord is not strained or kinked during use.

- Avoid running the cord under carpets or in high-traffic areas where it could be damaged or create a tripping hazard.

5. Maintenance and Care

- **Cleaning:** Disconnect the power cord from the wall outlet and the device before cleaning. Wipe the cord with a dry, soft cloth. Do not use liquid cleaners or solvents.
- **Storage:** When not in use, coil the cord loosely and store it in a dry, cool place away from direct sunlight and extreme temperatures. Avoid tight coiling or kinking.
- **Regular Inspection:** Periodically check the cord for any signs of wear, cuts, or damage to the insulation or connectors.

6. Troubleshooting

If your device is not receiving power, consider the following:

- **Check Connections:** Ensure both ends of the power cord are securely plugged into the device and the wall outlet.
- **Test Outlet:** Plug another working appliance into the same wall outlet to confirm the outlet is functional.
- **Inspect Cord:** Visually inspect the power cord for any visible damage, such as cuts, kinks, or bent pins. If damaged, discontinue use and replace the cord.
- **Device Power Switch:** Ensure the power switch on your QFX PBX-61159 speaker is in the "ON" position.

If the issue persists after these steps, contact customer support.

7. Product Specifications

Feature	Detail
Input Voltage	100-240V AC
Input Frequency	50-60Hz
Connector Type (Wall)	US Standard 2-prong or 3-prong AC plug
Connector Type (Device)	C7 (Figure-8) or C5 (Cloverleaf)
Protection Features	OVP (Over Voltage Protection), OCP (Over Current Protection), SCP (Short Circuit Protection)
Certifications	CE / FCC / RoHS certified
Compatibility	QFX PBX-61159 Battery Powered Bluetooth PA Speaker and other compatible devices

8. Warranty and Support

PKPOWER products are manufactured to high-quality standards. For any questions, concerns, or support needs, please contact our customer service. Our friendly and reliable customer service team aims to respond within 24 hours. Please refer to your purchase documentation for specific warranty terms and conditions.
