- 1 *Wireless keyboard
- 1 *USB receiver
- 1 *User manual

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

FAQs

- **Q: How do I pair the keyboard with my device?**

A: To pair the keyboard, turn on Bluetooth on your device, search for available devices, select the keyboard's name, and follow any on-screen instructions.

- **Q: How can I check the battery level of the keyboard?**

A: Some devices may display the keyboard's battery level in the Bluetooth settings. Alternatively, you can replace the batteries if the keyboard stops functioning.

• **Q: Is the keyboard compatible with all devices?**

A: The keyboard is compatible with devices that support Bluetooth connectivity and are running one of the mentioned operating systems (iOS, Windows, Android, macOS).
