KNOW YOUR MOUSE
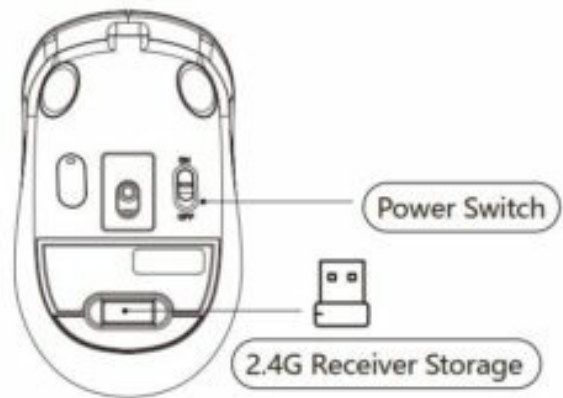

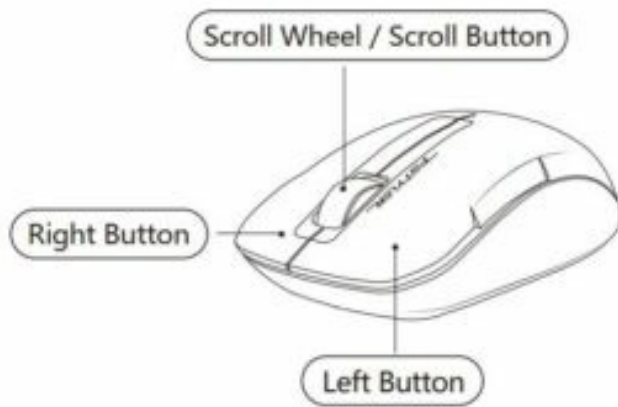

[Desk + Air] DUAL FUNCTIONS

The innovative Air Mouse Function provides dual [Desk+Air] usage modes, turn your mouse into a multimedia controller by simply lift it in the air.
No software installation required.
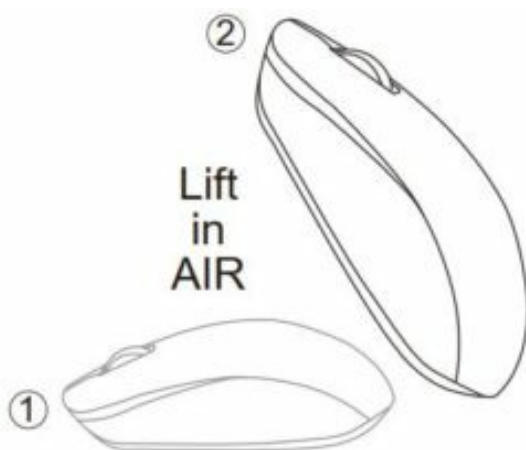

① **On the Desk**
Standard Mouse Performance

② **Lift in Air**
Media Player Controller

LIFT IN AIR FUNCTION

To activate the Air Function, please follow the steps:

1. Lift the mouse in the air.
2. Hold both left and right buttons for 5s.

So now you can operate the mouse in the air and turn it into a multimedia controller with the below functions.
Left Button: Anti-Sleep Setting Mode (Long Press 3S)
Right Button: Play / Pause
Scroll Wheel: Volume Up / Down
Scroll Button: Mute
DPI Button: Open Media Player

ANTI-SLEEP SETTING MODE

To prevent your PC from entering the sleep-mode setting while you are away from your desk, simply turn on our new Anti-Sleep Setting Mode for PC.
It will automatically simulate the mouse cursor movement once you turn it on.

To turn on/off the Anti-Sleep Setting Mode for PC, please follow the steps:

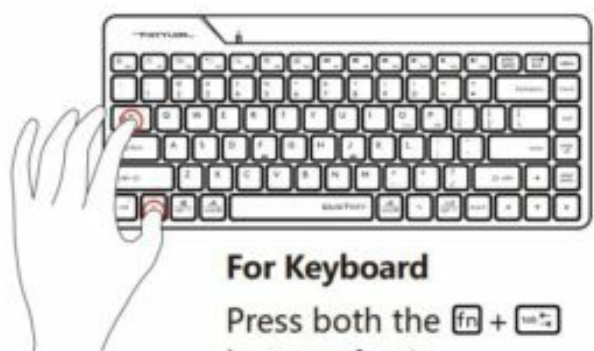

For Mouse
① Lift the mouse in the air.
② Hold the left button for 3s.
Note: Make sure the mouse has turned on the Air Function.
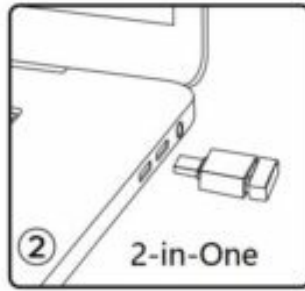

For Keyboard
Press both the [fn] + [≡] buttons for 1s.

CONNECTING 2.4G DEVICE
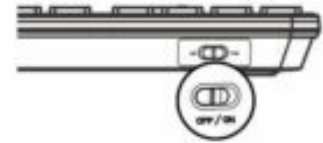

① Plug the receiver into the computer's USB port.
② Use the Type-C adaptor to connect the receiver with the computer's Type-C port.

② Turn the mouse & keyboard power switch on.

Q & A (For Mouse)

Question: Do I need to install software for the Desk+Air mouse function?

Answer

Just lift the mouse in the air, and hold both left and right buttons for 5s to enable the "Lift in Air" function, to turn it into a multimedia controller.

Question: Is the air function fully compatible with all multimedia platforms?

Answer

The mouse air function is created according to the Microsoft operation instructions.
Except for the volume control function, the other multimedia functions might be limited use by some system

platforms or third-party software support.

Question: How to switch layout under different system?

Answer: You can switch layout by pressing Fn + P / O under Windows / Mac.

Question: Does the layout can be remembered?

Answer: The layout you used last time will be remembered.

Question: Why can't the function lights in Mac system prompt?

Answer: Because Mac system does not have this function.
