## KNOW YOUR MOUSE

## [ Desk + Air ] DUAL FUNCTIONS

The innovative Air Mouse Function provides dual [Desk+Air] usage modes, turn your mouse into a multimedia controller by simply lift it in the air.  
No software installation required.

### 1. On the Desk

Standard Mouse Performance

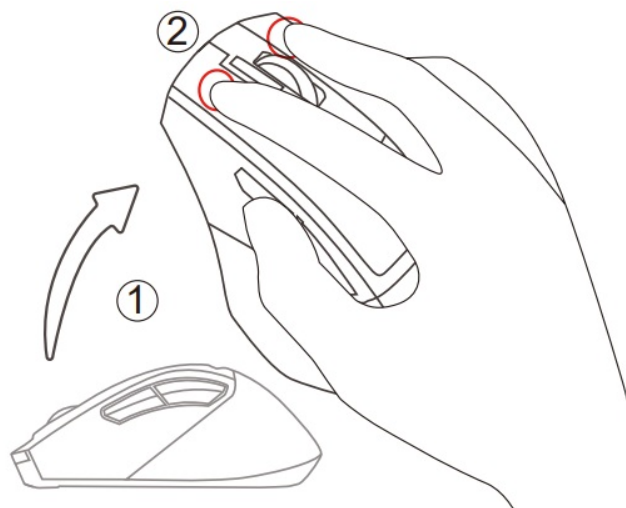

### 2. Lift in Air

Media Player Controller

### LIFT IN AIR FUNCTION

To activate the Air Function, please follow the steps:

1. Lift the mouse in the air.
2. Hold both left and right buttons for 5s.

So now you can operate the mouse in the air and turn it into a multimedia controller with the below functions.

Left Button: Anti-Sleep Setting Mode (Long Press 3S)

Right Button: Play / Pause

Capture Button: Open Browser

Scroll Wheel: Volume Up / Down

Scroll Button: Mute

DPI Button: Open Media Player

Forward / Backward: Previous / Next Track

## ANTI-SLEEP SETTING MODE

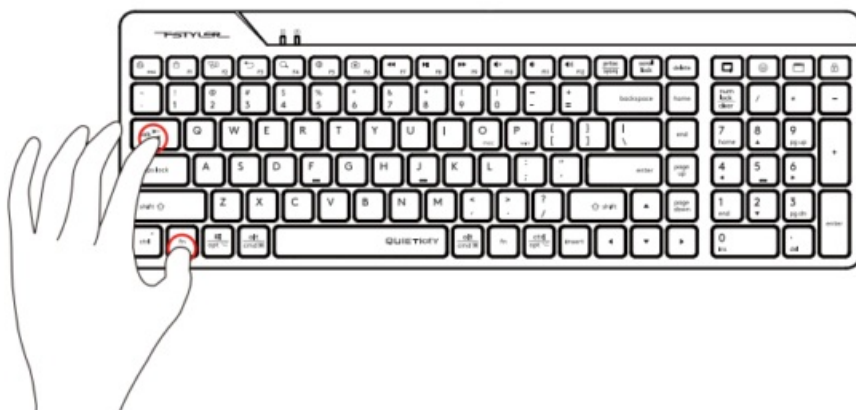

To prevent your PC from entering the sleep-mode setting while you are away from your desk, simply turn on our new Anti-Sleep Setting Mode for PC.

It will automatically simulate the mouse cursor movement once you turn it on.

To turn on/off the Anti-Sleep Setting Mode for PC, please follow the steps:

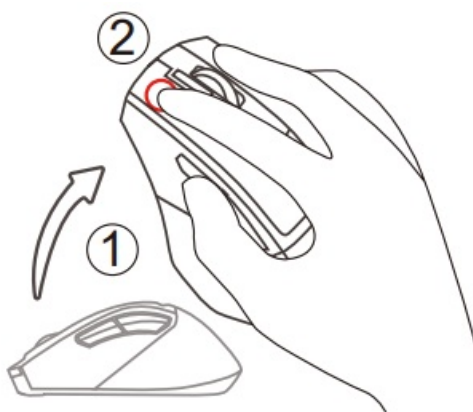

### For Keyboard

Press both the  +  buttons for 1s.

### For Mouse

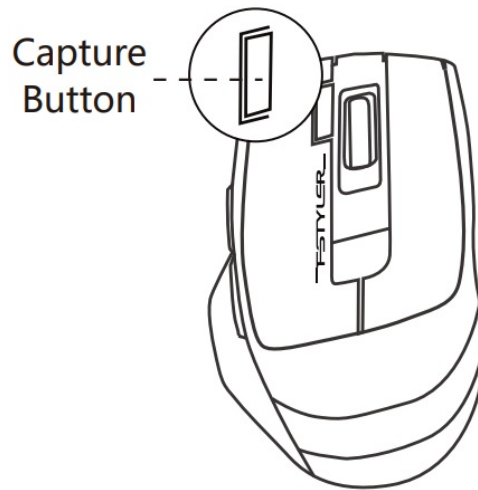

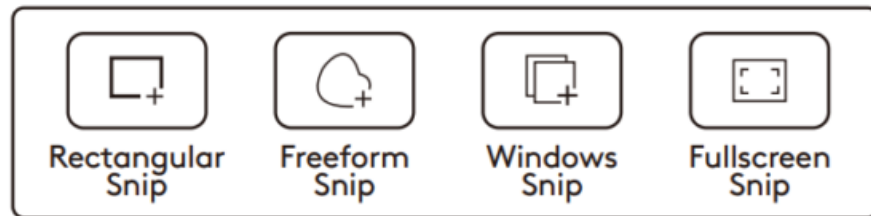

1. Lift the mouse in the air.
2. Hold the left button for 3s.

**Note:** Make sure the mouse has turned on the Air Function.

## SCREENSHOT CAPTURES

1. One click the capture button.
2. Select the screenshot type by pressing the left key.

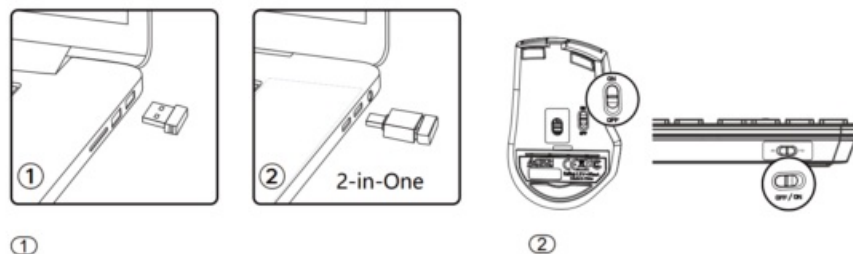

3. Long press the left key and move the mouse cursor to capture the screen area.
4. You can paste the screenshot to another application.
5. Release the left key and the screenshot will be recorded.

\*\*\* Only supports Windows 10/11 or later.

## CONNECTING 2.4G DEVICE

1. Plug the receiver into the computer's USB port.
  2. Use the Type-C adaptor to connect the receiver with the computer's Type-C port.
- Turn the mouse & keyboard power switch on.

## Q & A (For Mouse)

Question Do I need to install software for the Desk+Air mouse function?

Question Is the air function fully compatible with all multimedia platforms?

Answer The mouse air function is created according to the Microsoft operation instructions. Except for the volume control function, the other multimedia functions might be limited use by some system platforms or third-party software support.

Question How to switch layout under different system?

You can switch layout by pressing Fn + P / O under Windows / Mac. Answer

Question Does the layout can be remembered?

The layout you used last time will be remembered. Answer

Question Why can't the function lights in Mac system prompt?

Because Mac system does not have this function. Answer
