Contents

A4TECH FS300 Hot Swappable Mechanical Keyboard

Specifications

- Switch Type: Hot-Swappable
- Actuation Point: Special tuned

Product Usage Instructions

Operating System Swap

To swap between Windows and Mac OS layouts:

- Press **Fn + Windows key** for Windows layout.
- Press **Fn + Mac key** for Mac OS layout.
- The Caps Lock indicator light will show the current layout.

Combination FN Keys

- Use the FN key in combination with other keys for various functions like multimedia controls, lighting effects, and volume adjustments.

Installation

- **Connection:** Connect the Type-C cable to the keyboard and USB plug to the computer directly. Avoid using hubs or extension cables.
- **Software Download:** Download and install the Keyboard Master Editing Software for optimal performance from the provided link. Note that the software is not compatible with Mac systems.
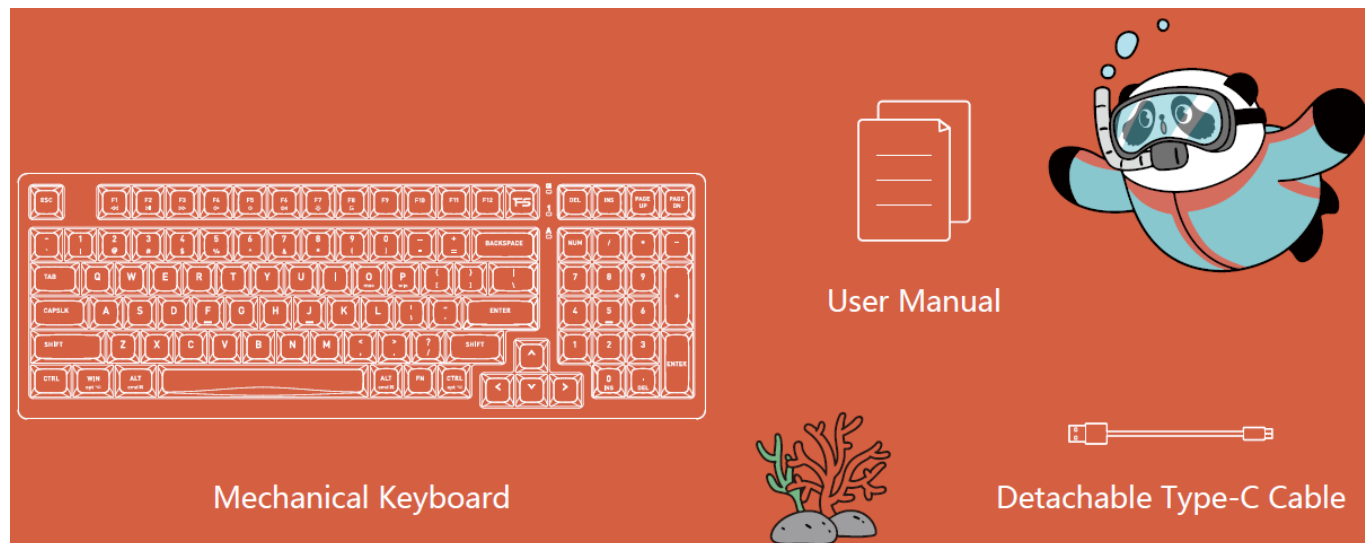

### *Hot-Swappable Switch*

To swap switches:

1. Remove keycaps with the keycap puller.
2. Use the switch puller to remove switches.

3. Align switch pins with the PCB socket and place the switch securely.

4. Gently press the switch into place and test it by placing back the keycaps.
