Extolife WF2

Extolife WF2 Replacement Humidifier Filter Instruction Manual

For Vicks, Kaz, Honeywell, Sunbeam, Robitussin, and ReliOn Humidifiers

1. Product Overview

The Extolife WF2 Replacement Humidifier Filter is designed to maintain optimal performance of your humidifier by filtering impurities from the water. This filter features a double absorbent mesh paper with an aluminum foil layer for enhanced filtration.

Compatible Humidifier Models:

- **Honeywell:** HCM-300T, HCM-315T, HCM-350, HCM-350B, HCM-630, HCM-631, HCM-645, HCM-650, HCM-710
- **Vicks:** V3100, V3700, V3500, V3500N, V3850JUV, V3850, V3800, V3900, VEV400, WF2
- **Sunbeam:** 1118, 1119, 1120
- **Robitussin:** DH835
- **ReliOn:** WA-8D
- **Kaz:** 3020

2. Installation Instructions

Follow these steps to properly install your new Extolife WF2 humidifier filter:

1. **Prepare the Humidifier:** Ensure your humidifier is turned off and unplugged from the power outlet.
2. **Remove Old Filter:** Carefully open the humidifier to access the filter compartment. Remove the old, used filter.
3. **Insert New Filter:** Place the new Extolife WF2 filter into the designated filter tray. Ensure it sits securely and correctly within the compartment.
4. **Reassemble Humidifier:** Close the humidifier's filter compartment and reassemble any removed parts.
5. **Fill with Water:** Fill the humidifier tank with distilled water for best results and to prolong filter life.
6. **Power On:** Plug in the humidifier and turn it on.

3. Usage and Maintenance

To ensure optimal performance and longevity of your humidifier and filter, adhere to the following guidelines:

- **Filter Replacement:** It is recommended to replace the humidifier filter every 1-2 months for optimal performance. This frequency may vary based on water quality and humidifier usage.
- **Water Quality:** For best results and longer service life, always fill the humidifier tank with distilled water.
- **Avoid Hard Water:** Excessive use of hard water will degrade filters more quickly and can cause them to turn yellow prematurely, reducing their effectiveness.
- **Regular Cleaning:** Periodically clean your humidifier according to its manufacturer's instructions to prevent mineral buildup and maintain hygiene.

4. Troubleshooting

If you encounter issues with your humidifier or filter, consider the following:

- **Reduced Mist Output:** If your humidifier is producing less mist, the filter may be clogged with mineral deposits. Replace the filter.
- **Filter Yellowing:** A yellowed filter indicates mineral buildup from hard water. Replace the filter and consider using distilled water to prevent future discoloration.
- **Unpleasant Odors:** Odors can indicate bacterial growth in the humidifier or filter. Replace the filter and thoroughly clean the humidifier's water tank and base with a suitable cleaning solution.
- **Improper Fit:** Ensure the filter is correctly seated in its compartment. Refer to the installation instructions.

5. Specifications

Feature	Detail
Brand	Extolife
Model	WF2 Replacement Humidifier Filter
Material	Paper
Package Dimensions	8.54 x 7.99 x 5.91 inches
Item Weight	8.8 ounces
UPC	751940768429
