OTTO SHOES JY002

OTTO SHOES OSSTONE JY002 Men's Chukka Dress Boots Instruction Manual

Model: JY002

Introduction

This manual provides essential information for the proper use, care, and maintenance of your OTTO SHOES OSSTONE JY002 Men's Chukka Dress Boots. Please read these instructions carefully to ensure the longevity and optimal performance of your footwear.

Setup

Upon receiving your new boots, follow these steps for initial preparation:

1. **Unpacking and Inspection:** Carefully remove the boots from their packaging. Inspect both boots for any visible defects or damage that may have occurred during shipping.
2. **Initial Fitting:** Try on both boots with the type of socks you intend to wear. Ensure a comfortable fit, allowing for natural foot movement without excessive tightness or slippage. The zipper closure should operate smoothly.

Operating (Wearing)

To wear your OSSTONE JY002 boots:

1. **Zipper Operation:** Unzip the side zipper completely before inserting your foot. This prevents strain on the zipper and the boot material.
2. **Foot Insertion:** Gently slide your foot into the boot. Ensure your heel is seated comfortably at the back of the boot.
3. **Securing the Boot:** Zip up the side zipper until it is fully closed. The boot should feel snug but not restrictive.

Maintenance

Proper care will extend the life and appearance of your leather and suede boots:

- **Cleaning Suede:** For suede surfaces, use a specialized suede brush to gently remove dirt and dust. For tougher stains, a suede eraser can be used. Avoid water, as it can stain suede.
- **Cleaning Leather:** For leather components, wipe with a soft, damp cloth to remove surface dirt. Apply a quality leather conditioner periodically to keep the leather supple and prevent cracking.
- **Water Resistance:** The boots are water-resistant. For enhanced protection against moisture, especially for suede, consider applying a water and stain repellent spray specifically designed for footwear materials.
- **Drying:** If boots become wet, allow them to air dry naturally at room temperature, away from direct heat sources like radiators or sunlight, which can damage the material.
- **Storage:** Store boots in a cool, dry place away from direct sunlight. Use shoe trees to help maintain their shape and absorb moisture.

Troubleshooting

- **Tight Fit:** If the boots feel too tight, ensure you are wearing appropriate socks. Leather and suede may stretch slightly over time with wear. If discomfort persists, consider professional stretching or consult a footwear specialist.
- **Zipper Sticking:** If the zipper becomes difficult to operate, ensure no fabric or debris is caught in the teeth. A small amount of zipper lubricant or graphite (from a pencil) can be applied to the teeth to improve smoothness.
- **Suede Stains:** For persistent suede stains, professional cleaning is recommended. Avoid harsh chemicals or excessive scrubbing, which can damage the nap.

Specifications

Product Specifications for OSSTONE JY002 Boots

Feature	Detail
Brand	OTTO SHOES
Model Name	Zone JY002
Item Model Number	OZ-JY002-brown-suede-belt-10
Product Dimensions	12.99 x 5.12 x 9.06 inches
