Artago 1638STY

Artago 1638STY Handlebar Lock Instruction Manual

Model: 1638STY | Brand: Artago

Introduction

The Artago 1638STY Practic Style is a high-quality handlebar anti-theft lock specifically designed for the Piaggio Medley scooter, models from 2016 onwards. This lock features an integrated transport bracket, ensuring it does not interfere with scooter operation when not in use. Manufactured in Europe by Artago Secure, a specialist in motorcycle anti-theft devices, this product provides robust security for your vehicle.

Product Features

- **Quality Design:** Practic Style version of the high-end Practic ART handlebar lock, featuring a transport bracket specifically designed for seamless integration with your Piaggio Medley (2016 onwards).
- **Robust Construction:** Easy to mount with a high-resistance armored steel body.
- **Secure Locking Mechanism:** Advanced locking body design with a security lock, reversible dimple key, and sliding cover for keyhole protection.
- **Integrated Transport Bracket:** The Practic Style scooter lock is comfortable, clean, practical, quick to use, and includes a transport bracket designed to integrate with your scooter without causing inconvenience during transport.
- **European Manufacturing:** Produced by Artago Secure in Valencia, Spain, ensuring high quality and professional support.

What's in the Box

Upon opening the package, please verify that all components are present and undamaged.

- Artago 1638STY Handlebar Lock unit
- Dedicated transport bracket for Piaggio Medley (2016 onwards)
- Set of reversible dimple keys
- Installation hardware (screws, washers, etc.)
- Instruction leaflet (refer to this manual for detailed guidance)

Setup and Installation

The Artago 1638STY lock is designed for easy integration with your Piaggio Medley (2016 onwards). While installation is straightforward, careful attention to detail is required to ensure proper function and security. It is recommended to perform installation in a well-lit area with appropriate tools.

1. **Prepare the Scooter:** Ensure your scooter is parked on a stable surface and the engine is off.
2. **Identify Mounting Points:** Locate the designated mounting points on your Piaggio Medley's handlebar and chassis for the transport bracket. These points are specifically designed for this lock model.
3. **Attach Transport Bracket:** Securely attach the transport bracket to the scooter using the provided hardware. Ensure all

screws are tightened to the manufacturer's specifications. Do not overtighten.

4. **Test Bracket Stability:** Once attached, gently test the stability of the bracket to ensure it is firmly in place and does not wobble.
5. **Integrate the Lock:** The lock unit is designed to fit into the transport bracket when not in use. Practice placing and removing the lock from the bracket to familiarize yourself with the mechanism.

Operating Instructions

Using your Artago 1638STY handlebar lock is a quick and efficient way to secure your scooter.

1. **To Engage the Lock:**
    - Remove the lock unit from its transport bracket.
    - Position the lock so that one end secures the handlebar grip and the other end secures a fixed part of the scooter, typically the seat or chassis, as shown in the image below.
    - Push the locking mechanism firmly until it clicks into place. Ensure the lock is fully engaged and cannot be pulled apart.
    - The keyhole cover should automatically slide into place, protecting the key mechanism from dirt and moisture.
2. **To Disengage the Lock:**
    - Slide open the keyhole cover.
    - Insert the reversible dimple key into the lock cylinder.
    - Turn the key to unlock the mechanism. The lock will release.
    - Remove the lock from the handlebar and scooter.
    - Store the lock securely in its transport bracket before riding.

Maintenance

Regular maintenance will ensure the longevity and reliable operation of your Artago 1638STY handlebar lock.

- **Cleaning:** Periodically clean the exterior of the lock with a damp cloth to remove dirt and grime. Avoid harsh chemicals that could damage the finish.
- **Lubrication:** Every 6-12 months, or if the key feels stiff, apply a small amount of graphite-based lubricant or a specialized lock lubricant into the keyhole. Do not use oil-based lubricants as they can attract dirt.
- **Key Care:** Keep your keys clean and avoid using them for purposes other than operating the lock. Store spare keys in a safe, separate location.

- **Inspection:** Regularly inspect the lock body and transport bracket for any signs of wear, damage, or corrosion. If significant damage is observed, contact Artago Secure for advice.

Troubleshooting

If you encounter issues with your Artago 1638STY lock, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Key is stiff or difficult to turn.	Dirt or debris in the keyhole; lack of lubrication.	Apply a small amount of graphite-based lock lubricant into the keyhole and gently work the key. Clean the key if it appears dirty.
Lock does not engage fully.	Obstruction; improper alignment; worn mechanism.	Ensure no objects are blocking the locking path. Re-align the lock carefully. If the issue persists, inspect for damage or contact support.
Lock is difficult to remove from transport bracket.	Improper insertion; debris in bracket.	Ensure the lock is inserted correctly into the bracket. Clean the bracket of any debris.
