# WAKYME LED Full Spectrum Grow Light User Manual

Model: B07JYPTX76 | Brand: WAKYME

## 1. Introduction

Thank you for choosing the WAKYME LED Full Spectrum Grow Light. This product is designed to provide optimal lighting conditions for your indoor plants, supporting all stages of growth from seedling to harvest. Featuring adjustable goosenecks, multiple lighting modes, dimmable levels, and an automatic timer, this grow light offers flexibility and efficiency for various plant types and environments.

## 2. Important Safety Instructions

- Read all instructions before using the product.
- This product is for indoor use only. Do not expose to water or high humidity.
- Do not disassemble or modify the product. Unauthorized modifications may cause damage or injury.
- Ensure the power supply voltage is compatible with the product's requirements.
- Keep the product away from heat sources and flammable materials.
- Unplug the power cord from the outlet when not in use or before cleaning.
- Do not operate the light with a damaged cord or plug.

## 3. Package Contents

Please check the package for the following items:

- WAKYME LED Grow Light Unit (with adjustable goosenecks and LED light bars)
- Integrated Controller
- USB Power Adapter
- User Manual

## 4. Product Features

- **Full Spectrum Lighting:** Provides wavelengths suitable for all plant growth periods, from seeding to harvest.
- **10 Dimmable Levels:** Adjust light intensity from 10% to 100% to meet varying plant needs.
- **3 Lighting Modes:** Choose between Blue light, Red light, or a combination of Red+Blue light.
- **Automatic Timer:** Built-in timer with 3H, 9H, and 12H settings. Once set, the light will automatically turn on and off at the same time every day.
- **Adjustable Gooseneck:** 360-degree flexible goosenecks allow for precise light positioning.
- **Powerful Clip:** Securely attach the grow light to various surfaces.
- **SMD LED Design:** Features environmental, small power consumption, and ultra-bright LED beads.

Image: The grow light illustrating its three timing modes (3, 9, and 12 hours) and automatic daily operation.

# FULL SPECTRUM

From seeding to harvest

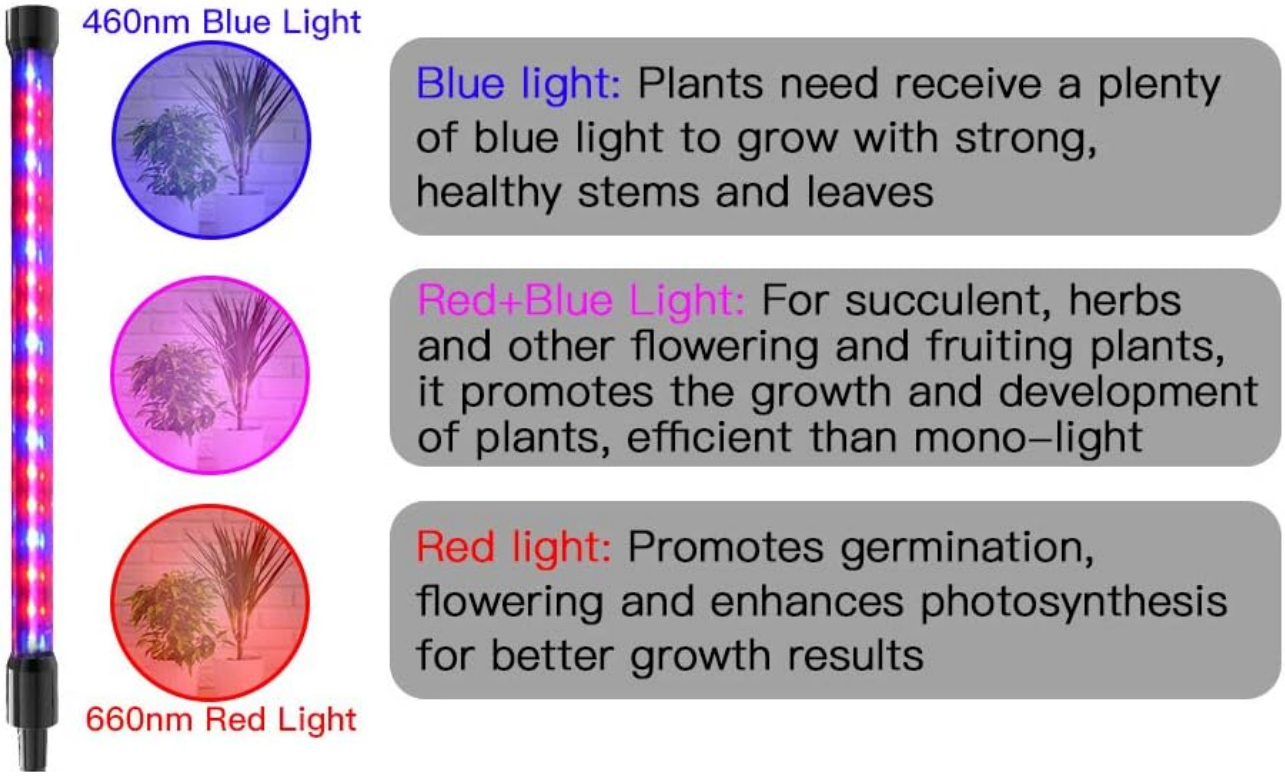

Image: Detailed explanation of the full spectrum light, including the benefits of blue light (460nm) for strong stems and leaves, red+blue light for flowering and fruiting, and red light (660nm) for germination and photosynthesis.

Image: The grow light providing proper wavelengths for plants at various growth stages, from seeding to harvest.

## 5. Setup Instructions

1. **Unpack:** Carefully remove all components from the packaging.
2. **Position the Clip:** Attach the grow light's clip to a stable surface such as a table edge, shelf, or plant stand. Ensure the clip is securely fastened.
3. **Adjust Goosenecks:** Bend the flexible goosenecks to position the LED light bars over your plants. Ensure the light covers the desired area and is at an appropriate distance from the plant canopy.
4. **Connect Power:** Plug the USB cable from the grow light controller into the provided USB power adapter. Then, plug the power adapter into a standard electrical outlet.

Video: This video demonstrates the setup process, including attaching the clip, adjusting the goosenecks, and connecting the power adapter. It also shows the various lighting modes, dimming levels, and timer functions in action.

## 6. Operating Instructions

The grow light is controlled via an integrated controller on the power cord.

1. **Power On/Off:** Press the **Power Button** () to turn the light on or off.
2. **Adjust Brightness (Dimming):** Use the **+** and **-** buttons to cycle through 10 dimmable brightness levels (10% to 100%).
3. **Change Lighting Mode:** Press the **Mode Button** () to switch between the three lighting modes: Red light, Blue light, and Red+Blue light.
4. **Set Timer:** Press the **Timer Button** () to select a duration of 3 hours, 9 hours, or 12 hours. Once a timer is set, the light will automatically turn on and off at the same time every day. The indicator light on the button will change color to show the active timer setting (e.g., Blue for 3H, Green for 9H, Red for 12H).

## 7. Maintenance

- **Cleaning:** Ensure the light is unplugged before cleaning. Use a soft, dry cloth to wipe the LED bars and goosenecks. Do not use liquid cleaners or sprays directly on the light.
- **Storage:** If not in use for an extended period, unplug the light, clean it, and store it in a cool, dry place away from direct sunlight.
- **Inspection:** Periodically check the power cord and connections for any signs of damage.

## 8. Troubleshooting

| Problem | Possible Cause | Solution |
|---|---|---|
| Light does not turn on. | No power supply or loose connection. | Check if the power adapter is securely plugged into the outlet and the USB cable is connected to the controller. Ensure the outlet has power. |
| Timer function is not working as expected. | Timer not set correctly or power interruption. | Ensure the timer button is pressed to select the desired duration (3H, 9H, or 12H). The timing function works when the power is plugged in. If power is interrupted, reset the timer. |
| Light intensity is too low/high. | Brightness level needs adjustment. | Use the '+' and '-' buttons on the controller to adjust the brightness to your preferred level. |

## 9. Specifications

- **Brand:** WAKYME
- **Model Number:** B07JYPTX76
- **Lamp Type:** Growing Light
- **Light Source Type:** LED
- **Special Feature:** Dimmable, Full Spectrum
- **Control Method:** Touch (via integrated controller)
- **Lighting Method:** Adjustable (via gooseneck)
- **Recommended Uses:** Indoor Plants
- **Item Weight:** 1.17 pounds

- **Package Dimensions:** 13.9 x 4.92 x 3.27 inches

## 10. Warranty and Support

WAKYME products are manufactured to high-quality standards. For any product-related inquiries, technical support, or warranty claims, please contact our customer service team. Please retain your proof of purchase for warranty purposes.
