PKPOWER B07MT4KJC4

PK Power 5V 1A/2.1A Power Charger User Manual

Model: B07MT4KJC4

1. Introduction

Thank you for choosing the PK Power 5V 1A/2.1A Power Charger. This manual provides essential information for the safe and efficient use of your new power adapter. This charger is designed to provide reliable power for compatible portable speakers, including SATECHI DIVOOM ONBEAT-200 and VOOMBOX models.
Please read this manual thoroughly before using the product and retain it for future reference.

2. Safety Information

To ensure safe operation and prevent damage, please observe the following safety precautions:

- Do not expose the charger to water, moisture, or extreme temperatures.
- Do not disassemble, modify, or attempt to repair the charger. Refer all servicing to qualified personnel.
- Ensure the input voltage (100-240V) matches the power outlet specifications.
- Avoid dropping or subjecting the charger to strong impacts.
- Unplug the charger from the power outlet when not in use or during electrical storms.
- Keep out of reach of children.
- **Proposition 65 Warning:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

3. Setup

Setting up your PK Power charger is straightforward:

1. **Inspect the Charger:** Before first use, visually inspect the charger for any signs of damage.

Image: Top-down view of the black PK Power charger, showing its compact rectangular shape.

2. **Connect to Power Outlet:** Plug the charger's prongs into a standard 100-240V AC wall outlet.

Image: Side view of the black PK Power charger with its foldable prongs extended, ready to be plugged into an outlet.

3. **Connect to Device:** Connect the appropriate charging cable (not included) from your compatible device (e.g.,

SATECHI DIVOOM ONBEAT-200, VOOMBOX Portable Speaker) to the USB output port(s) on the charger.

4. Operating Instructions

Once connected, the charger will automatically begin providing power to your device. The charger supports both 1A and 2.1A output, automatically adjusting to the needs of the connected device for efficient charging.

- Ensure your device is compatible with 5V input.
- Use only high-quality, compatible charging cables.
- Do not overload the charger by connecting devices that exceed its maximum output capacity.

5. Maintenance

Proper maintenance will extend the life of your charger:

- **Cleaning:** Disconnect the charger from the power outlet and your device before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or aerosols.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Cable Care:** Always grasp the plug, not the cable, when disconnecting from the wall or device. Avoid bending or crimping the cable excessively.

6. Troubleshooting

If you encounter issues with your charger, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging.	Charger not plugged in correctly; faulty cable; incompatible device; power outlet issue.	Ensure charger is firmly plugged into a working outlet. Try a different cable. Verify device compatibility. Test the outlet with another device.
Slow charging.	Cable quality; device drawing less current; background apps on device.	Use a high-quality cable. Close unnecessary apps on your device.
Charger feels warm.	Normal operation; heavy load.	A slight warmth is normal during operation. If it becomes excessively hot or emits smoke/smell, unplug immediately and discontinue use.

This PK Power charger is equipped with OVP (Over Voltage output Protection), OCP (Over Current output Protection), and SCP (Short Circuit output Protection) to ensure safe operation and protect your devices.

7. Specifications

Brand: PKPOWER

Model: B07MT4KJC4

Input: 100-240V AC, 50-60Hz

Output: 5V DC, 1A / 2.1A (Auto-adjusting)

Compatible Devices: Speakers (e.g., SATECHI DIVOOM ONBEAT-200, VOOMBOX Portable Speaker)

Special Feature: Portable

Power Source: Corded Electric

Certifications: CE, FCC, RoHS certified

Protection Features: OVP (Over Voltage output Protection), OCP (Over Current output Protection), SCP (Short Circuit output Protection)

UPC: 751332783764

8. Warranty and Support

PK-Power products are manufactured to high standards and undergo rigorous testing. We stand by the quality of our products.

After Sale Service: Our friendly and reliable customer service team is committed to responding to your inquiries within 24 hours.
