JEKCA 01S-M01

JEKCA Basset Hound 01S-M01 Building Blocks Instruction Manual

Model: 01S-M01 | Brand: JEKCA

1. Introduction

This manual provides detailed instructions for assembling your JEKCA Basset Hound 01S-M01 plastic building block model. Please read all instructions carefully before beginning assembly to ensure a successful and enjoyable building experience.

Safety Information

This product contains small parts and is recommended for individuals aged 14 years and above. Keep small parts away from young children to prevent choking hazards. Adult supervision is recommended for younger builders within the age range.

2. Package Contents

Verify that all the following items are included in your package:

- Instruction Manual
- Bricks (various colors and shapes)
- Pins (for securing bricks)
- Pin Driver (assembly tool)
- Quick Guide

3. Initial Setup

Before starting assembly, prepare your workspace:

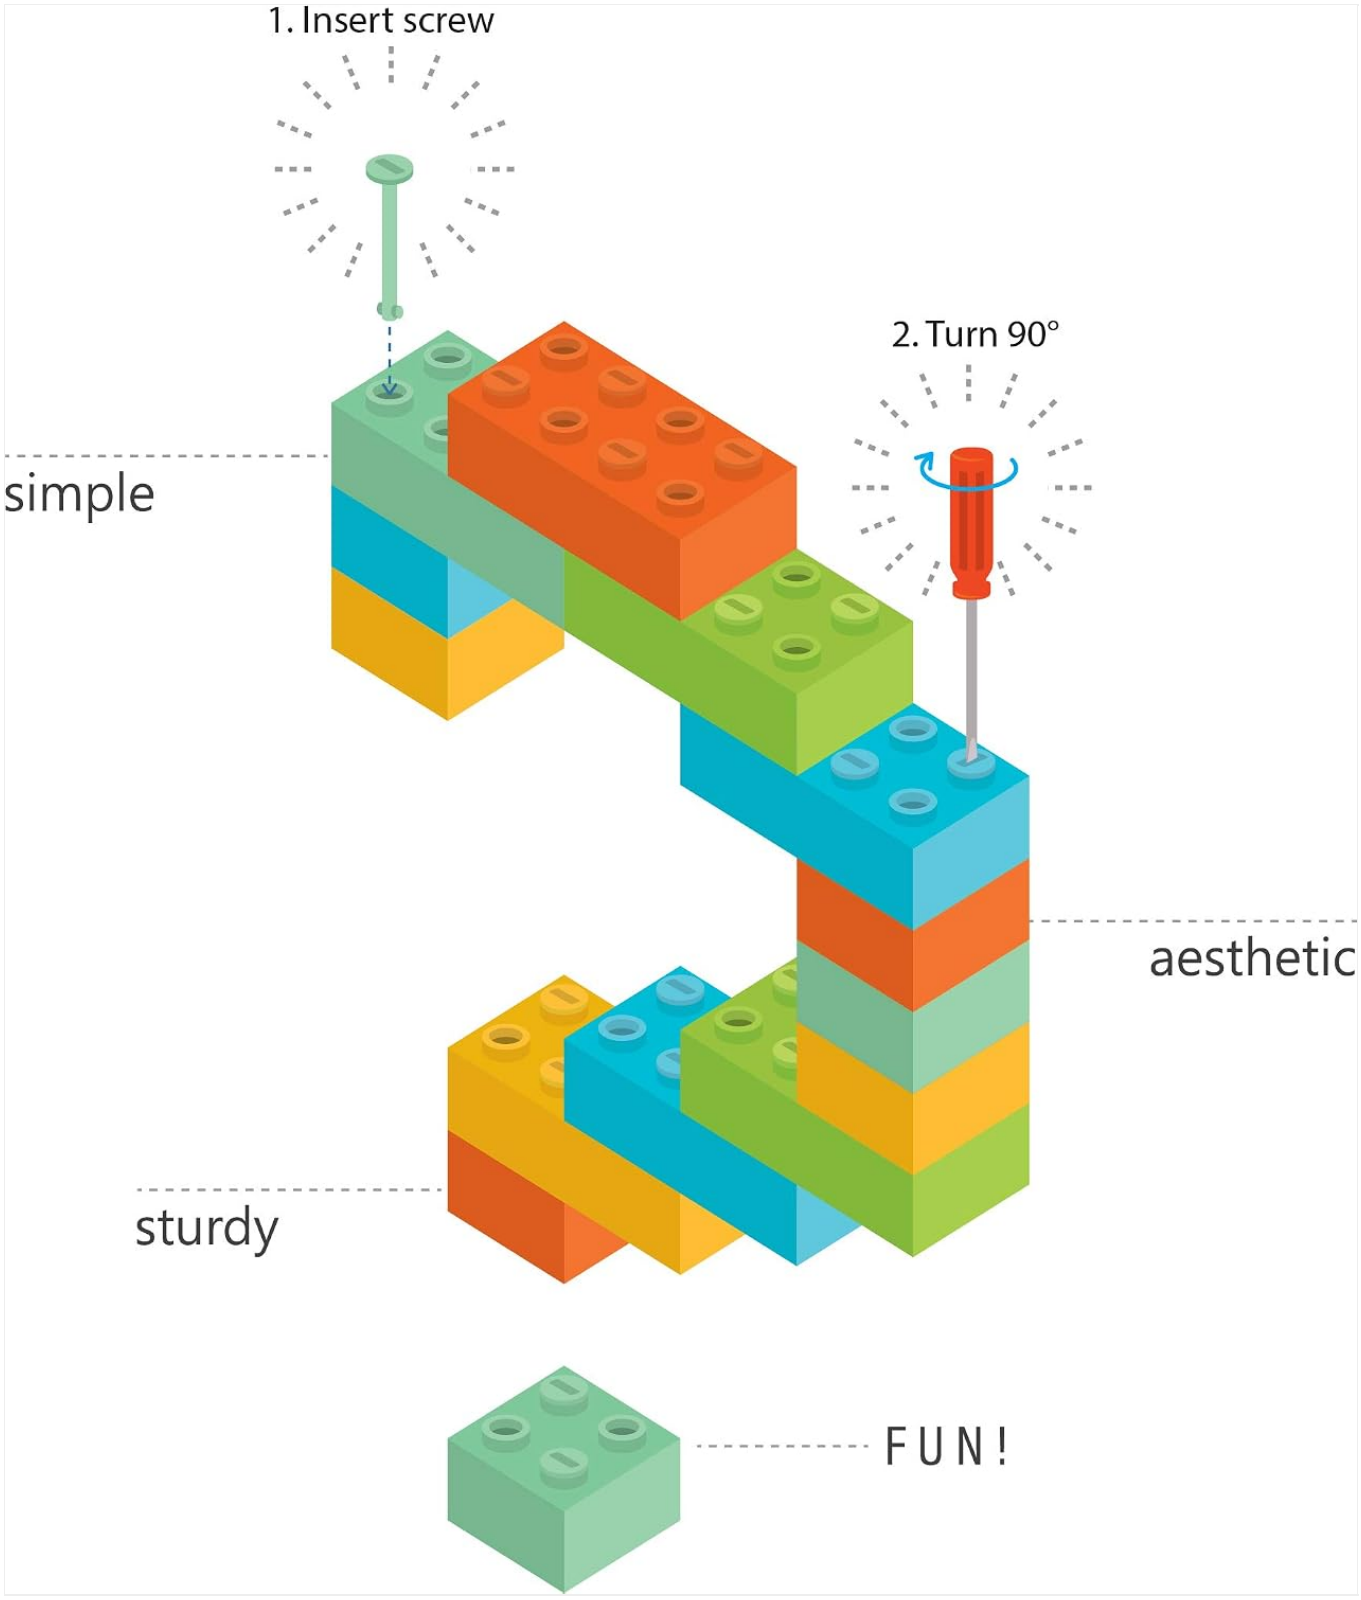
- Ensure you have a clean, flat, and well-lit surface.
- Open the package and carefully sort the building blocks by color and type. This can significantly facilitate easier assembly by allowing quick identification of required pieces.
- Keep the instruction manual readily accessible for reference throughout the building process.

4. Assembly Instructions

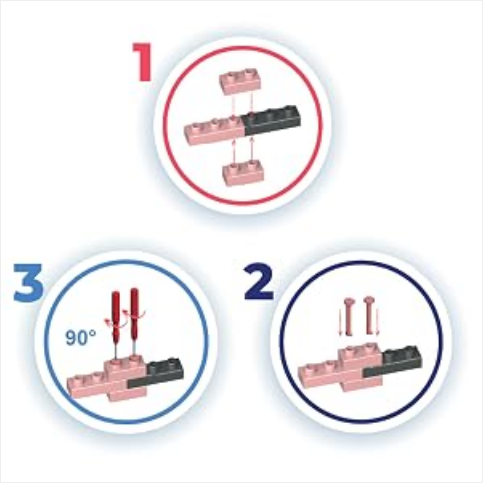
The JEKCA building system utilizes a unique screw-and-pin mechanism for sturdy construction. Follow the step-by-step

instructions provided in the included physical manual and refer to the diagrams and images below for clarification.

Understanding the JEKCA Assembly Method



This image illustrates the fundamental JEKCA assembly method. First, insert the pin (screw) into the designated hole in the block. Second, use the pin driver to turn the pin 90 degrees to secure the connection between blocks. This method ensures a strong and stable structure for your model.



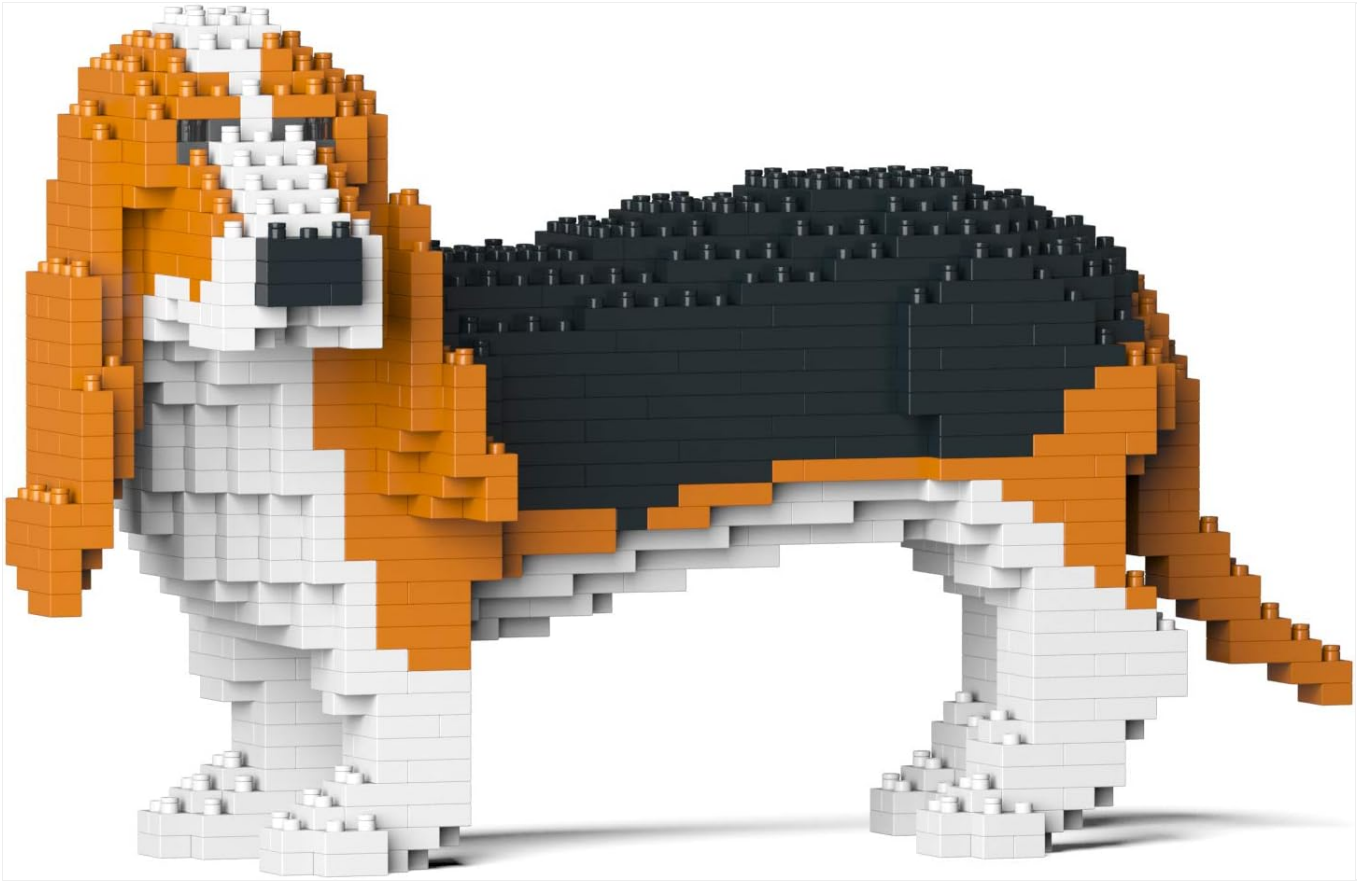
This diagram further clarifies the assembly process:

1. **Step 1: Connect Blocks:** Align the studs of one block with the holes of another block and press them together.
2. **Step 2: Insert Pins:** Insert the provided pins into the aligned holes from the top of the connected blocks.
3. **Step 3: Turn Pins 90 Degrees:** Use the pin driver to turn each pin 90 degrees. This action locks the blocks firmly together, creating a robust connection.

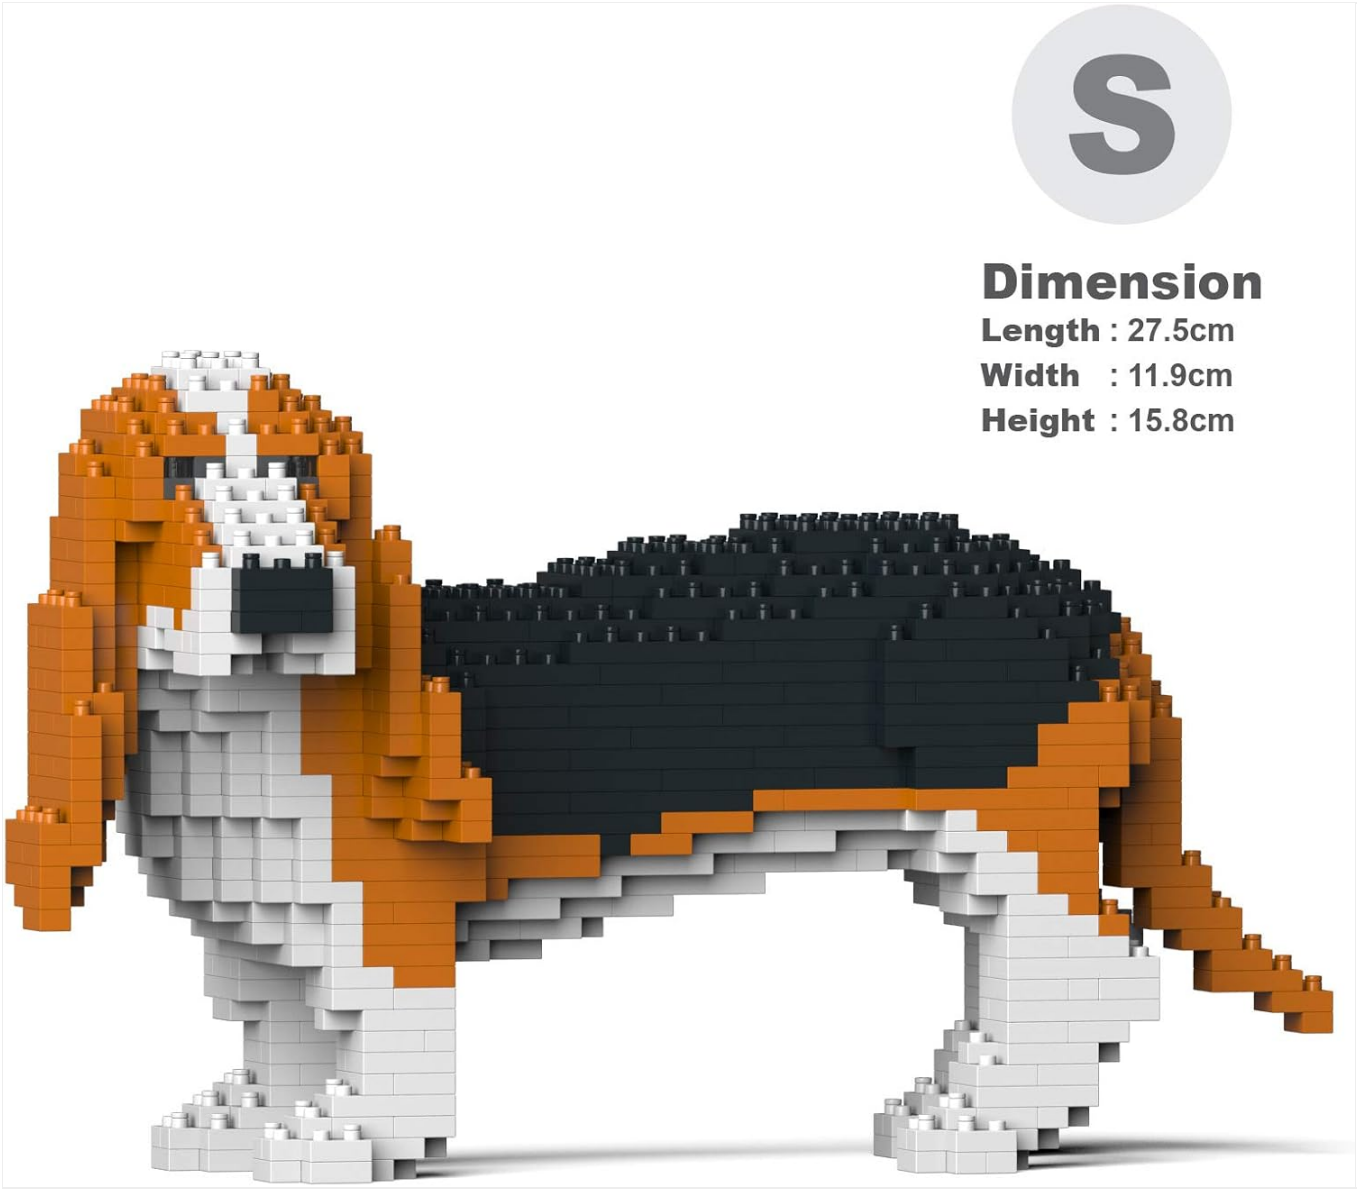
This image provides a visual example of the assembly process, demonstrating how pins are inserted into the top of the blocks to secure them. While this specific image shows a different model, the technique is identical for your Basset Hound model.

Model Assembly (Basset Hound 01S-M01)

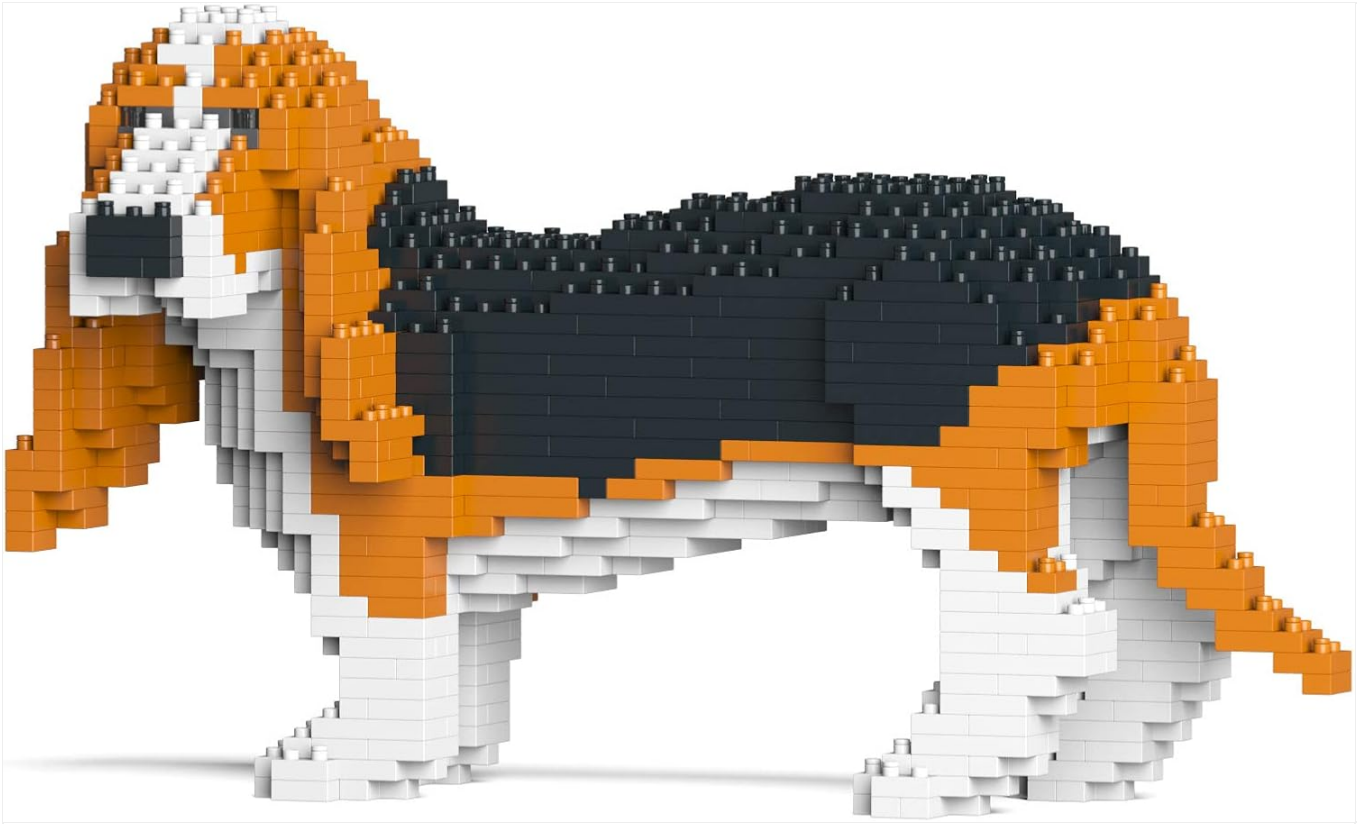
Refer to the detailed instruction manual included in your package for specific block placement and sequence. The following images provide a visual reference of the completed model and its dimensions.



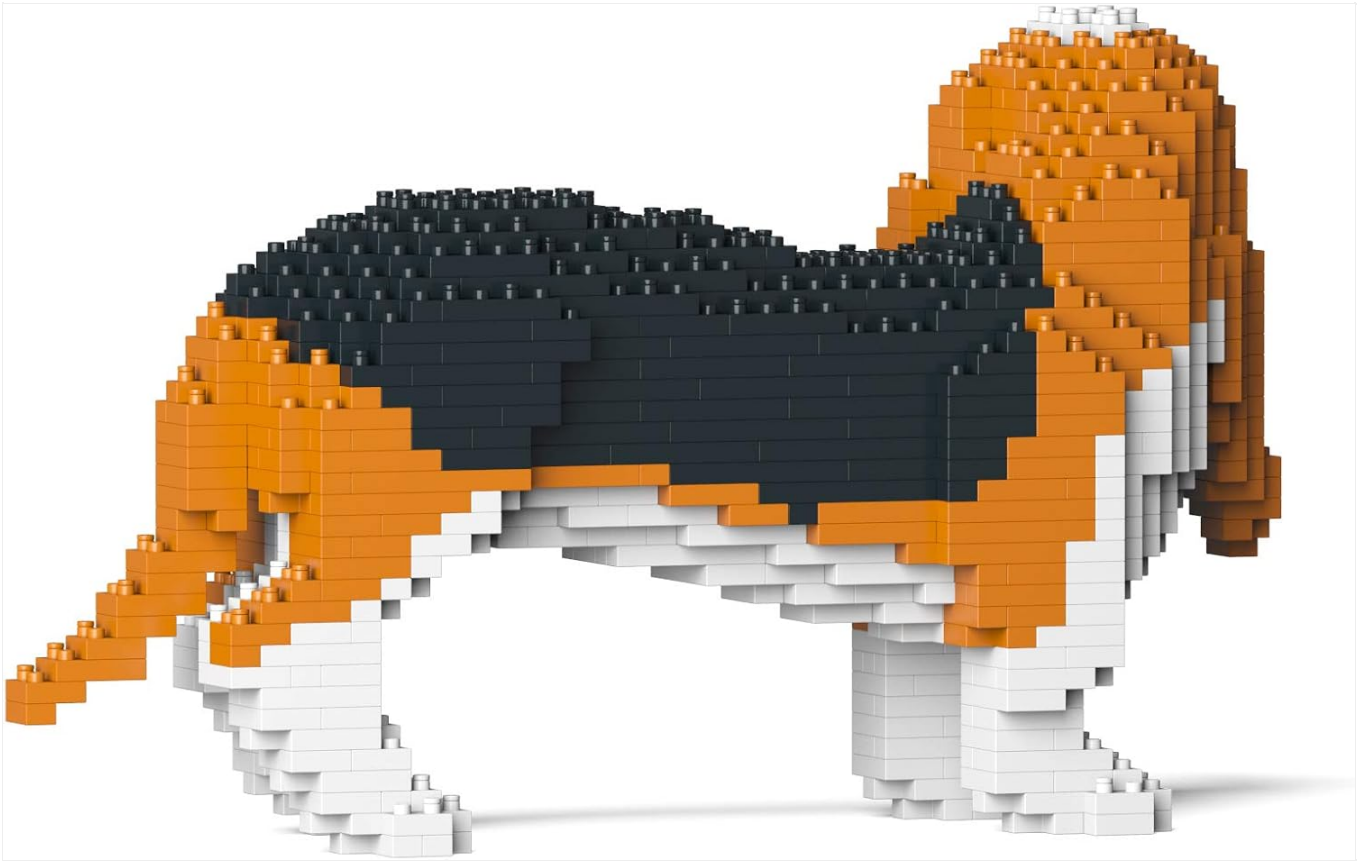
A front-side view of the fully assembled JEKCA Basset Hound 01S-M01 model, showcasing its distinctive orange, white, and black block arrangement.



This image displays the Basset Hound model from the side, along with its approximate assembled dimensions: Length 27.5cm, Width 11.9cm, Height 15.8cm.



Another side view of the assembled Basset Hound model, highlighting the block patterns and overall form from a different angle.



A rear-side perspective of the completed Basset Hound model, showing the tail and hindquarters details.

Tip: Work in sections as outlined in your physical instruction manual. Ensure each pin is securely inserted and turned 90 degrees to prevent the model from becoming unstable or falling apart.

5. Care and Maintenance

To maintain the appearance of your assembled JEKCA model, follow these guidelines:

- **Cleaning:** Gently wipe the model with a dry, soft cloth to remove dust. For more stubborn dust or light smudges, a slightly damp cloth can be used, followed by immediate drying with a dry cloth.
- **Avoid Chemicals:** Do not use harsh chemicals, abrasive cleaners, or solvents, as these may damage the plastic blocks or fade their color.
- **Storage:** Store the model in a stable location away from direct sunlight and extreme temperatures to prevent material degradation or discoloration.

6. Troubleshooting Common Issues

If you encounter any difficulties during assembly or with the completed model, consider the following:

- **Model Instability:** If parts of the model feel loose or unstable, carefully re-examine the connections in that area. Ensure all pins are fully inserted and securely turned 90 degrees.
- **Missing Parts:** Double-check the packaging and your workspace thoroughly. Small parts can sometimes be overlooked. If parts are genuinely missing, refer to the customer support section.
- **Difficulty Inserting Pins:** Ensure that the blocks are perfectly aligned before attempting to insert pins. Apply gentle, even pressure. Do not force pins, as this may damage the blocks or the pins themselves. If a pin is bent, replace it with a new one if available.

7. Product Specifications

Attribute	Detail
Product Name	JEKCA Basset Hound 01S-M01
Model Number	ST19PT59-M01
Number of Pieces	>830 pieces
Recommended Age	14 years and up
Product Dimensions (L x W x H)	10.83 x 4.69 x 6.22 inches (27.5 x 11.9 x 15.8 cm)
Item Weight	1.55 pounds
Manufacturer	L10 group
