PKPOWER CSW1250

PK Power AC/AC Adapter User Manual for Creative Labs Inspire 4.1 Speaker System CSW1250

1. Introduction

Thank you for choosing the PK Power AC/AC Adapter. This adapter is designed to provide reliable power to your Creative Labs 4400 Inspire 4.1 Surround Sound Speaker System (model CSW1250). This manual provides essential information for safe and effective use of your new power supply.

2. Safety Information

Please read and understand all safety instructions before using this product. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- Ensure the adapter is compatible with your device's power requirements before connecting. This adapter is specifically designed for the Creative Labs 4400 Inspire 4.1 Surround Sound Speaker System CSW1250.
- Do not expose the adapter to water, rain, or excessive moisture.
- Do not disassemble or modify the adapter. There are no user-serviceable parts inside.
- Avoid using the adapter in extremely hot or cold environments.
- Keep the adapter away from children.
- Unplug the adapter from the power outlet when not in use for extended periods.
- This product features **OVP (Over Voltage output Protection)**, **OCP (Over Current output Protection)**, and **SCP (Short Circuit output Protection)** to ensure safe operation.

3. Product Overview

The PK Power AC/AC Adapter is a robust power supply designed for specific audio equipment. It features a durable casing and standard connectors for easy integration.

Figure 1: PK Power AC/AC Adapter. This image shows the black power adapter unit with its attached power cord and the two-prong wall plug. The adapter unit is rectangular with ribbed sides for heat dissipation.

4. Setup Instructions

Follow these steps to properly set up your AC/AC adapter:

1. **Verify Compatibility:** Ensure your speaker system is the Creative Labs 4400 Inspire 4.1 Surround Sound Speaker System, model CSW1250. Using this adapter with incompatible devices may cause damage.
2. **Connect to Speaker System:** Locate the power input port on your Creative Labs speaker system. Carefully insert the adapter's output connector into this port. Ensure a snug and secure connection.
3. **Connect to Power Outlet:** Plug the adapter's two-prong wall plug into a standard 100-240V AC electrical outlet. Ensure the outlet is easily accessible.
4. **Power On:** Once connected, your speaker system should receive power. Refer to your speaker system's manual for specific power-on procedures.

5. Operating Instructions

This AC/AC adapter operates automatically once connected. It converts the incoming AC voltage from your wall outlet to the appropriate AC voltage required by your Creative Labs speaker system.

- No user intervention is required for the adapter's operation after proper setup.
- The adapter is designed for continuous use, but it is recommended to unplug it during electrical storms or when not in use for extended periods.

6. Maintenance

The PK Power AC/AC Adapter requires minimal maintenance.

- **Cleaning:** Disconnect the adapter from the power outlet and the speaker system before cleaning. Use a soft, dry

cloth to wipe the exterior. Do not use liquid cleaners or solvents.

- **Storage:** When not in use, store the adapter in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid tightly coiling the cables to prevent damage.
- **Inspection:** Periodically inspect the adapter and cables for any signs of damage, such as frayed wires, cracks, or loose connections. If damage is found, discontinue use and replace the adapter.

7. Troubleshooting

If you encounter issues with your adapter, try the following steps:

- **No Power to Speaker System:**
  - Ensure the adapter is securely plugged into both the wall outlet and the speaker system.
  - Check if the wall outlet is functional by plugging in another device.
  - Verify that the speaker system's power switch (if any) is in the "On" position.
- **Unusual Noises or Smells:** Immediately unplug the adapter from the wall outlet and discontinue use. Contact customer support.
- **Adapter Feels Hot:** It is normal for power adapters to feel warm during operation. However, if it becomes excessively hot to the touch, unplug it and allow it to cool. Ensure it is not covered or in an enclosed space that restricts airflow.

8. Specifications

Feature	Detail
Input Voltage	100-240V AC, 50-60Hz
Compatibility	Creative Labs 4400 Inspire 4.1 Surround Sound Speaker System CSW1250
Protection Features	OVP (Over Voltage output Protection), OCP (Over Current output Protection), SCP (Short Circuit output Protection)
Certifications	CE / FCC / RoHS certified
