Specifications

Battery capacity	10000 mAh
Battery type	Li-Ion
Input voltage, current	Micro USB (QC): 5V/2A, 9V/2A, 12V/1.5A USB Type-C (PD): 5V/2.4A, 9V/2A, 12V/1.5A
Output voltage, current	Mirco USB(QC): 5V/3A, 9V/2A, 12V/1.5A, 4.5V/5A, 5V/4.5 A Type-C(PD): 5V/2.4A, 9V/2.22A, 12V/1.67A, 4.5V/5A, 5 V/4.5A
Maximum power output, W	22.5W
Casing material	Aluminum alloy
Size, mm	89x49x24 mm
Weight. g	190 g
Charging time	3-4 h (QC/PD), 5-6 h (standard)
Charging cycles	>300

Package content

1. Power Bank — 1.
2. User manual —1.
3. USB charging cable – 1.

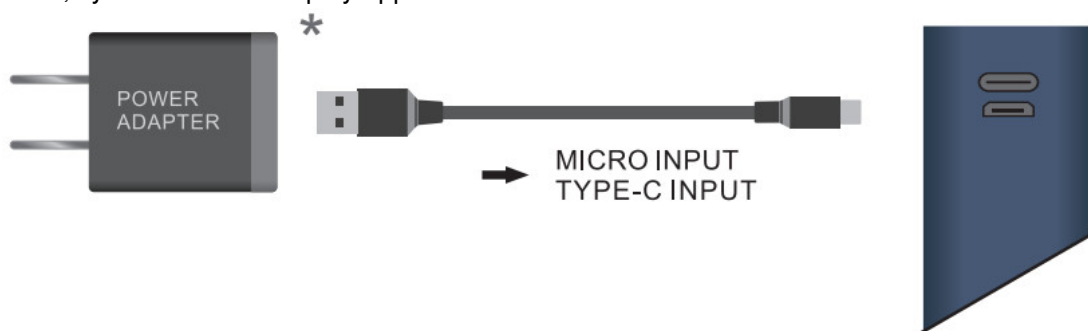

Product appearance

ID	Name	Function
1	Power button	Press once to power the Power Bank on Press twice to power the Power Bank off
2	Display	Indicates the Power Bank's charge level in percent
3	USB Output	Charges your devices from the Power Bank
4	USB Type-C	For charging the Power Bank, or charging your devices from the Power Bank
5	Micro USB Input	For charging the Power Bank

Charging the Power Bank

Connect one end of the charging cable to a power supply: a power adapter* or a PC's USB port. The other end should be connected to an input port of the Power Bank. You will see 100% on the display when the power bank is fully charged. Power Bank's input is compatible with quick charge protocol and can be charged quicker than usual if connected with a quick charge compatible cable to quick charge compatible power adapter*. When quick charge is active, symbol "PD" on display appears.

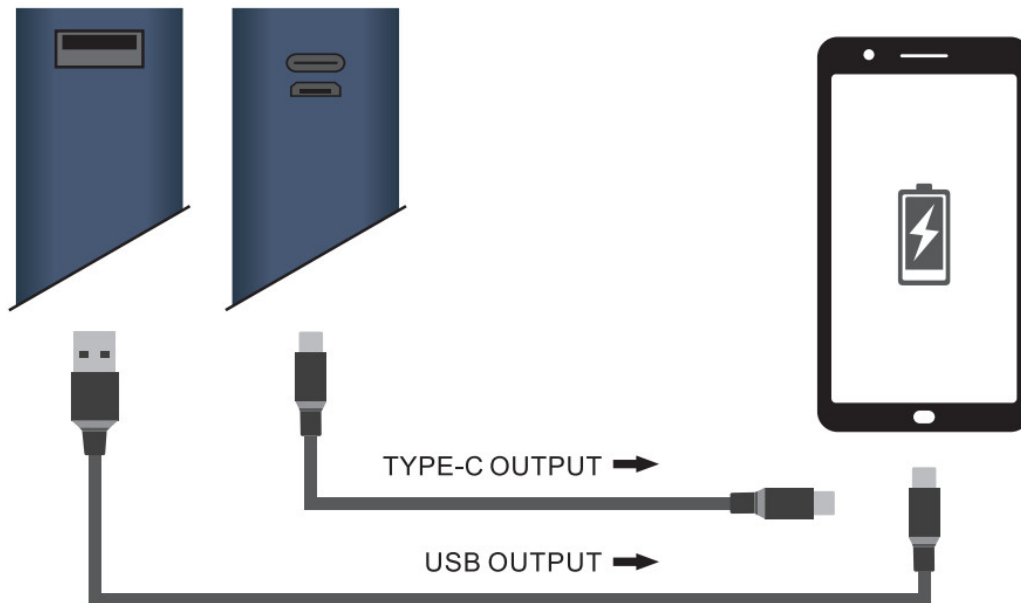

* a power adapter is not supplied with the Power Bank and should be purchased separately!

Power on/off

To switch on the Power Bank click the power button or connect your device to the Power Bank. To turn off the Power Bank click the Power button twice. Power Bank will also switch off automatically in 35 seconds if no other device is connected.

Charging your devices from the Power Bank

Please use only the original cable to charge your devices from the Power Bank. Turn on the Power Bank to start charging. Connect one end of the charging cable to the Power Bank output port, and the other end to the input port of your device (Apple or Android). Power Bank's output is compatible with quick charge protocol and can charge devices quicker than usual if connected with a quick charge compatible cable to quick charge compatible device. When quick charge is active, symbol "PD" on display appears.

Charging status indication

The Power Bank battery charge level is shown on the display (in percentage of its maximum capacity).

Note: Please kindly put the Power Bank on charge when the battery charge level is less than 20%. When the device is fully charged, "100" symbol will appear on its display. The battery has a protection triggering when overcharged, deeply discharged as well as in cases of current overload and risk of a short circuit.

Operation temperature: —2 to 40 °C; storage temperature: —10 to 45 °C.

Indication of charger connecting/disconnecting

The indication will automatically turn on after connecting a device to the Power Bank. The indication will turn off in 35 seconds after a device is disconnected and no other device is connected. Please put the Power Bank on charge if it does not respond when you press buttons or connect it to other devices.

Safety notices:

The device is powered by a battery. Improper use of the battery may cause a risk of fire, explosion or other hazards. Please kindly use the battery in a proper way.

Do not disassemble, open, bend, puncture, affect the battery mechanically or immerse in liquids. The battery may explode when damaged. In the event of battery leak, flush the affected area with clean water and seek medical help immediately. In case the battery smells, take it to a safe place away from open flames.

Use of a damaged battery may cause severe injuries.

Do not swallow!

Keep away from children!

Do not leave a fully charged battery connected to a charger as overcharging may shorten its lifetime. The battery runs down if not used.

Do not disassemble the device, avoid a short circuit. Keep the metal contacts of the battery clean.

Do not leave or keep your device in vehicles in hot weather under direct sunlight. This may cause the battery to overheat and reduce its life. The device may shut down or the capacity may not be fully consumed when used outside operating temperature requirements (below -10°C and above +45°C).

The battery contains toxic substances such as mercury, cadmium and lead. The used battery should be properly disposed of. Dispose of the battery separately from household waste to avoid leaching of heavy metals to soil, ground and surface water.

Do not burn the battery to avoid emission of heavy metals to the atmosphere and accumulation thereof in smoke and ashes. For the purpose of natural resource protection please kindly separate the battery from other wastes and submit it for recycling. The product is to be transported in the manufacturer's packing by all means of transport at any distance.
