Hoggar by Okoru Nyon 4.2 m2 Bicycle Storage Shed Instruction Manual

Model: G01AM0005

1. Introduction

Thank you for choosing the Hoggar by Okoru Nyon 4.2 m2 Bicycle Storage Shed. This manual provides essential information for the safe assembly, operation, and maintenance of your new storage shed. Please read these instructions carefully before beginning assembly and retain them for future reference.

This metal shed is designed to provide secure and weather-resistant storage for up to four bicycles, featuring a durable galvanized steel structure and easy access double doors.

2. Safety Information

Warning: This bicycle storage shed is heavy and requires professional handling during transport and assembly. Please follow the instructions in this manual and use appropriate tools to prevent injuries. Ensure the shed is mounted on a stable and flat surface to prevent tipping. The shed has a load capacity of 65 kg and is not designed for transporting people.

- Always wear appropriate safety gear, including gloves and eye protection, during assembly.
- Ensure all parts are securely fastened before use.
- Do not allow children to play inside or around the shed unsupervised.
- Keep the area around the shed clear of obstructions.
- Periodically check all fasteners for tightness and re-tighten if necessary.

3. Package Contents

Before beginning assembly, verify that all components are present and undamaged. Refer to the packing list provided with your product. Typical contents include:

- Galvanized steel panels (walls, roof)
- Frame components (alloy steel)
- Double doors with hinges and latch mechanism
- Access ramp
- Fasteners (screws, bolts, nuts)
- Assembly instructions (this manual)

If any parts are missing or damaged, please contact customer support before proceeding with assembly.

4. Setup and Assembly

The Hoggar by Okoru Nyon shed is designed for easy assembly, though some steps may require two people. Ensure you have sufficient space and the necessary tools before starting.

4.1 Site Preparation

- Choose a level and stable surface for installation. A concrete slab or paved area is recommended.
- Clear the area of any debris, rocks, or vegetation.
- Ensure adequate drainage around the shed to prevent water accumulation.

4.2 Assembly Steps

1. **Unpack Components:** Carefully unpack all parts and lay them out, verifying against the parts list.
2. **Assemble Base Frame:** Construct the base frame on your prepared level surface using the provided alloy steel components and fasteners. Ensure it is square and stable.
3. **Attach Wall Panels:** Secure the galvanized steel wall panels to the base frame, following the numerical or alphabetical order indicated in the detailed diagram.
4. **Install Roof Structure:** Assemble the roof frame and attach the roof panels. Ensure all roof sections overlap correctly for waterproofing.
5. **Mount Doors:** Attach the double doors to the designated frame openings using the hinges. Ensure they swing freely and align properly.

6. **Install Latch and Ramp:** Secure the latch mechanism to the doors for security. Attach the access ramp at the entrance for easy bicycle entry and exit.
7. **Final Tightening:** Once all components are in place, systematically tighten all screws and bolts. Do not overtighten, but ensure all connections are firm.

Figure 4: Nyon 4.2 m2 Shed in a garden environment.

5. Operating Instructions

5.1 Opening and Closing the Doors

- To open, unlatch the door mechanism and pull the double doors outwards.
- To close, push the double doors firmly together and engage the latch for security.

5.2 Storing Bicycles

- Use the integrated ramp to easily roll bicycles into and out of the shed.
- The shed is designed to accommodate up to four bicycles. Position them carefully to maximize space and prevent damage.

Figure 5: Interior capacity for four bicycles.

6. Maintenance

The Hoggar by Okoru Nyon bicycle storage shed is designed for minimal maintenance due to its durable galvanized steel construction.

- **Cleaning:** Periodically clean the exterior with mild soap and water to remove dirt and debris. Avoid abrasive cleaners or harsh chemicals.
- **Inspection:** Annually inspect all fasteners, hinges, and the latch mechanism for wear or looseness. Tighten any loose components.
- **Drainage:** Ensure the area around the shed remains clear to allow for proper water drainage.
- **Rust Prevention:** The galvanized steel offers a 10-year anti-corrosion warranty. If any scratches or damage occur to the coating, touch up with appropriate rust-inhibiting paint to maintain protection.

7. Troubleshooting

- **Difficulty during Assembly:** Ensure all parts are correctly oriented according to the diagrams. Some steps may require an additional person for support. Verify that the base frame is perfectly level and square.
- **Doors not closing properly:** Check for obstructions in the door tracks or hinges. Ensure the shed is installed on a level surface, as an uneven base can cause door misalignment. Adjust hinges if necessary.
- **Water leakage:** Verify that all roof panels are correctly overlapped and all fasteners are tight. Ensure the shed is on a level surface and that water drains away from the base.
- **Missing parts:** If you discover missing parts during assembly, immediately contact customer support with your product model and a detailed description of the missing components.

8. Specifications

Brand	Hoggar by Okoru
Model Number	G01AM0005
Material	Galvanized Steel (panels 0.25 mm), Alloy Steel (frame)
Color	Grey
External Dimensions (L x W x H)	204 cm x 206 cm x 163 cm (1.63P x 2.06l x 1.63H meters)
