## Notice

### Applicable equipment

Please check whether the device support wireless charging, otherwise it cannot be charged.

### Adapter selection

When using a 5V/3A, 9V/3A output adapter, the wireless charger supports a 5W load. In order to ensure the normal use of the charger, it is recommended to use an adapter that supports fast charging over 18W.

### Other information

Please do not place metal objects or magnetic cards in the charging area, which may cause the charger to heat up. It is normal to be slightly heated when the foreign body alarms. The battery of the mobile phone will heat up during the charging process. Do not place the charger near a fire source or corrosive environment.

## FCC STATEMENT

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

#### **RF Exposure Warning Statements:**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.

### **Warranty**

ACEFAST provides 24-month warranty from the date of purchase for the workmanship, all parts of the product and materials. This warranty should be effective only if the warranty card is fully completed and mailed to the authorized dealers for registration. The consumers return the defective product to the authorized dealers in their country for repair or replacement after getting a response to the completed warranty card from the authorized dealers. This warranty is null and void if the unit or components therein have been damaged by improper handling, use or unauthorized repair. In all cases of damage during shipping, for repair, a claim must be filled by purchaser and the shipping carrier, not by ACEFAST. In all cases the manufacturer agree to repair or replace the defective parts but never to exceed the purchase price. As this is a limited warranty, ACEFAST's liability for consequential and incidental damages expressly disclaimed and shall not exceed the purchase price paid. Please keep this warranty card and valid purchase product certificate as a necessary certificate for warranty service. Please do not modify the content without authorization, otherwise it will be deemed invalid. The company reserves the right to interpret the product after-sales service regulations.
