AceList GZ-LT502 Red Lantern String Lights

INTRODUCTION

The AceList GZ-LT502 Red Lantern String Lights will turn your area into a cozy and welcoming setting. With their wonderful radiance, these adorable LED lights that resemble little kerosene lamps are ideal for home décor, weddings, parties, Christmas, and Ramadan. They add a joyful yet nostalgic touch to any space with their 20 warm white LED lamps. These battery-operated lights, which are made for both indoor and outdoor use, are simple to install in a variety of locations, including living rooms, patios, and balconies. They give a fantastic atmosphere to any event with their 9.8-foot (3-meter) length and two lighting settings (flashing and steady on). These lights are made of sturdy ABS+BC material, which guarantees both energy efficiency and long-lasting performance. The AceList GZ-LT502, which retails for **\$14.99**, is a great option for anyone looking for fashionable and environmentally sustainable lighting options.

WHAT'S IN THE BOX

- Lantern LED String Lights
- User Manual

FEATURES

- **20 LED Lanterns:** This set comes with 20 little red lanterns that resemble kerosene and with warm white LED lamps.
- **Battery & USB Powered:** Having two power sources gives you more positioning and usage choices.
- **Warm White Glow:** Produces a warm, welcoming ambiance ideal for festivities.
- **Two Lighting Modes:** For varying moods, select between steady-on and flashing modes.
- A long string of lights that is 3 meters (9.8 feet) long and easily wraps around items to decorate them.
- **Sturdy ABS Material:** Longevity and safety are guaranteed by the use of premium ABS and BC materials.
- **Waterproof Design (IP44):** Splash-resistant and appropriate for both indoor and outdoor use.
- A 360-degree beam angle distributes light evenly for a more pleasant atmosphere.
- Lightweight and portable, it's simple to install anywhere there aren't any bulky fixtures.
- Low-voltage LED lights use less energy and produce less heat, making them safe and environmentally friendly.
- **Adaptable Decoration:** Perfect for weddings, parties, Halloween, Ramadan, Christmas, and interior décor.

- No electrical outlet is required because it runs on batteries and can be placed anywhere.
- **Stunning Red Lantern Design:** The beauty of traditional lanterns add flair to festival décor.
- **Low Power Consumption:** Extended use without frequent battery replacements is ensured by long battery life.
- Soft, non-glaring light improves atmosphere without being too harsh or dazzling.

SETUP GUIDE

- Unpack carefully. To prevent tangling or breaking the wires, take out the string lights slowly.
- Select the Power Source Choose between using a USB connection or three AA batteries.
- **Put Batteries in (if necessary):** For portable use, put three AA batteries in the battery compartment.
- **Choose an Installation Location:** Patios, balconies, gardens, porches, and event spaces are all excellent options.
- Put the lights in place by using string, sticky clips, hooks, or nails.
- **Avoid Overstretching:** To keep the wire durable, avoid putting too much strain on it.
- **Test Before Final Placement:** Prior to permanently fastening it, make sure the lights is operational.
- **Position for Maximum Visibility:** Put the lanterns in the most visible and admirable positions.

- **Select a Lighting Mode:** Depending on your desire, you can set it to either steady-on or flashing.
- Make sure the controls are easily accessible by keeping the USB port or battery pack close at hand for fast adjustments.
- **Avoid Positioning Near Heat Sources:** Steer clear of heaters, open flames, and intense heat.
- Use in protected outdoor spaces to prevent extended exposure to intense rain. Waterproof but not submersible.
- **Use Indoor-Friendly Hooks for Interior Setup:** Adhesive hooks can be used indoors to prevent wall damage.
- **Evenly Distribute Lights:** Make sure that each lantern is properly spaced out to display.
- **Double-Check Connections:** Make sure the plug is tight for continued functioning if you're using USB power.

WIDELY USE

CARE & MAINTENANCE

- When not in use, store properly by keeping it in a dry location to avoid damage.
- Steer clear of prolonged sun exposure as this can lead to fading or overheating.
- Periodically clean the lanterns by wiping them down with a gentle cloth to get rid of dust and grime.
- **Change Batteries When Necessary:** To keep the brightness at its best, use new batteries.
- **Avoid Submersion in Water:** Although the lights are splash-resistant, avoid submerging them in water.
- **Look for Loose Connections:** Verify that the USB cord and battery compartment are still firmly attached.

- Wires should not be dropped or bent since rough handling can harm internal circuitry.
- **Make Use of Energy-Efficient Batteries:** Over time, rechargeable AA batteries can result in cost savings.
- **Test Before Every Use:** Verify that the lights are operating properly before to significant occasions.
- **Store Coiled, Not Tangled:** To avoid damage and knots, wind the string carefully.
- To ensure consistent performance, replace all batteries at once rather than mixing old and new ones.
- Children and pets should not handle small parts since they could entangle them or choke them.
- **Steer Clear of Harsh Chemicals:** Use a moist cloth rather than potent cleaning solutions.
- Keep an eye out for wear and tear by looking for any cracks or damaged parts in any lanterns.
- **Replace Non-Working LEDs Whenever Possible:** If an LED fails, think about swapping out the faulty one.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Lights not turning on	Dead batteries or loose USB connection	Replace batteries or check USB power source
Flickering lights	Weak battery power	Replace with fresh batteries or use USB power
One or more LEDs not working	LED bulb malfunction	Contact manufacturer for replacement
Dim lighting	Low battery power	Use new batteries or switch to USB mode
Short working duration	Battery drain	Switch to USB power for continuous use
Water damage	Exposed to heavy rain	Dry thoroughly and ensure placement in covered areas
Modes not switching	Faulty switch	Toggle switch multiple times or contact support
Uneven light distribution	Bulbs not fully extended	Adjust and evenly space the lanterns
USB not working	Faulty cable or port	Try a different USB cable or adapter
Battery compartment loose	Improper closure	Securely close battery compartment

PROS & CONS

Pros:

- **Beautiful Design** – Classic red lantern aesthetic enhances decor.
- **Battery & USB Powered** – Versatile power options for convenience.
- **Weather-Resistant** – IP44 waterproof rating for outdoor use.
- **Energy-Efficient LEDs** – Bright yet low power consumption.
- **Multiple Lighting Modes** – Choose between a steady glow or flashing.

Cons:

- **Not Fully Waterproof** – Can withstand splashes but not heavy rain.

- **Battery Life Varies** – Depending on usage, it may require frequent battery changes.
- **Limited Length** – Only 9.8 feet long; may require multiple sets for larger spaces.
- **Plastic Material** – While durable, may not have a premium feel.
- **No Remote Control** – Manual switching is required.

WARRANTY

AceList provides a **one-year limited** warranty covering manufacturing defects and malfunctioning LEDs. For warranty claims, customers must provide proof of purchase. This warranty does not cover damage caused by improper use, water exposure beyond IP44 limits, or battery leakage.

FREQUENTLY ASKED QUESTIONS

What makes the AceList GZ-LT502 Red Lantern String Lights unique?

These AceList lantern string lights feature 20 mini kerosene lamp-shaped LEDs with a warm white glow, perfect for indoor and outdoor festive decorations.

What are the power options for the AceList GZ-LT502 Red Lantern String Lights?

They can be powered by three AA batteries or via USB, giving flexible placement options.

How many lighting modes do the AceList GZ-LT502 Red Lantern String Lights have?

They offer two lighting modes: steady on and flash.

How long are the AceList GZ-LT502 Red Lantern String Lights?

The string lights measure 3 meters (9.8 feet) in length, with 20 LED lanterns evenly spaced.

Why are my AceList GZ-LT502 Red Lantern String Lights not turning on?

Ensure the batteries are properly inserted or that the USB power source is working. Check if the power switch is turned on. Try replacing the batteries if using the battery-powered option.

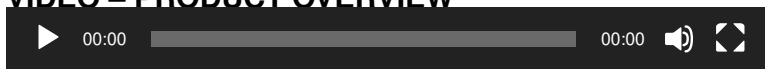

Why do my AceList GZ-LT502 Red Lantern String Lights only work in USB mode and not with batteries?

The battery compartment may not be making proper contact with the batteries—try rearranging or replacing them. Ensure the battery contacts are clean and not corroded.

Why do my AceList GZ-LT502 Red Lantern String Lights flicker unexpectedly?

If in flash mode, ensure you have set the lights to steady mode if you want continuous illumination.
