Getting Started and Initial Familiarization

Upon acquiring your 2010 Lexus RX 350, it is recommended to familiarize yourself with its primary controls and features. This section outlines initial steps to ensure a smooth start.

Key Features and Controls

- **Ignition System:** Understand the key insertion and turning procedure for starting the engine.
- **Door Locks:** Familiarize yourself with manual and remote locking/unlocking mechanisms.
- **Seat Adjustments:** Learn how to adjust the driver's and passenger's seats for optimal comfort and safety, including power adjustments and lumbar support.
- **Steering Wheel Controls:** Identify controls for audio, cruise control, and multi-information display.
- **Climate Control:** Understand how to operate the heating, ventilation, and air conditioning (HVAC) system.

Dashboard Indicators

The instrument panel provides critical information about your vehicle's status. Pay attention to warning lights such as the check engine light, oil pressure warning light, and battery charge warning light. Consult the manual for a complete list and their meanings.

Operating Your Lexus RX 350

This section covers the essential procedures for driving and utilizing the various functions of your vehicle.

Driving Procedures

1. **Starting the Engine:** Ensure the transmission is in Park (P) or Neutral (N), depress the brake pedal, and turn the ignition key to the START position.
2. **Automatic Transmission:** Understand the gear selector positions (P, R, N, D, L) and their appropriate use.
3. **Braking System:** Learn about the anti-lock braking system (ABS) and how to use the parking brake effectively.
4. **Cruise Control:** Instructions for setting, adjusting, and canceling the cruise control system.

Infotainment System

Your RX 350 may be equipped with an audio system, navigation system, and Bluetooth connectivity. Refer to the dedicated sections within the full owner's manual for detailed instructions on pairing devices, operating the navigation, and using audio sources.

Maintenance and Care

Regular maintenance is crucial for the longevity and performance of your Lexus RX 350. Adhering to the recommended service schedule will help prevent issues and ensure optimal operation.

Scheduled Maintenance

- **Oil Changes:** Follow the recommended intervals for engine oil and filter replacement.
- **Tire Rotation and Pressure:** Check tire pressure regularly and rotate tires as recommended to ensure even wear.
- **Fluid Checks:** Regularly inspect levels of brake fluid, power steering fluid, coolant, and windshield washer fluid.
- **Brake Inspection:** Have brake pads, rotors, and fluid inspected at recommended intervals.

Basic Checks You Can Perform

You can perform several basic checks between scheduled services:

- Check all exterior lights (headlights, taillights, turn signals).
- Inspect wiper blades for wear and tear.
- Monitor dashboard warning lights.

Troubleshooting Common Issues

This section provides guidance on addressing minor issues that may arise during vehicle operation. For more complex problems, consult a certified Lexus technician.

Symptom	Possible Cause	Solution
Engine will not start	Dead battery, faulty starter, out of fuel, immobilizer system engaged.	Check battery terminals, try jump-starting, ensure adequate fuel, consult manual for immobilizer reset.
Warning light illuminated	Indicates a system malfunction (e.g., low oil pressure, engine fault, low tire pressure).	Identify the specific warning light and refer to the manual for its meaning and recommended action. Seek professional service if necessary.
Poor braking performance	Worn brake pads, low brake fluid, air in brake lines.	Have the braking system inspected immediately by a qualified technician.
