Logitech G G203

Logitech G203 LIGHTSYNC Wired Gaming Mouse User Manual

1. Introduction

The Logitech G203 LIGHTSYNC Wired Gaming Mouse is designed to enhance your gaming experience with its responsive sensor, customizable RGB lighting, and programmable buttons. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your device.

The G203 features an 8,000 DPI optical gaming sensor for precise tracking and vibrant LIGHTSYNC RGB lighting, customizable across 16.8 million colors. Its classic 6-button design is fully programmable to simplify tasks and optimize gameplay. This wired USB mouse is compatible with both PC and Mac computers.

2. Setup

1. **Connect the Mouse:** Plug the USB connector of the Logitech G203 mouse into an available USB port on your computer.
2. **Automatic Recognition:** Your computer should automatically detect and install the necessary drivers for basic functionality.
3. **Install Logitech G HUB Software (Recommended):** For full customization of RGB lighting, button assignments, and DPI settings, download and install the Logitech G HUB software from the official Logitech G website. Visit logitechg.com/ghub.

3. Operating Instructions

3.1. Button Functions

The Logitech G203 features a classic 6-button layout:

- **Left Click Button:** Primary action.
- **Right Click Button:** Secondary action/context menu.
- **Scroll Wheel (Clickable):** Scroll up/down, middle-click action.
- **DPI Cycle Button:** Cycles through preset DPI sensitivity levels.
- **Forward Button:** Navigates forward in web browsers or applications.
- **Back Button:** Navigates backward in web browsers or applications.

All 6 buttons are programmable via Logitech G HUB software.

3.2. DPI Sensitivity Adjustment

The G203 is equipped with an 8,000 DPI gaming-grade sensor. You can adjust the mouse sensitivity (DPI) to match your preference and game requirements:

- **On-the-Fly DPI Button:** Use the dedicated DPI cycle button (located below the scroll wheel) to switch between up to 5 predefined DPI settings.
- **Custom DPI Settings:** Utilize Logitech G HUB software to customize these DPI levels and create your own sensitivity profiles.

4. Customization with Logitech G HUB

Logitech G HUB is a powerful software that allows you to fully customize your G203 mouse. With G HUB, you can:

- **Customize LIGHTSYNC RGB:** Choose from preset colors and animations, or create your own unique lighting effects.
- **Program Buttons:** Assign custom commands, macros, system actions, or keystrokes to any of the 6 programmable buttons.
- **Adjust DPI Settings:** Fine-tune your DPI sensitivity levels, set up to 5 DPI stages, and adjust polling rates.
- **Create Profiles:** Save different configurations for various games and applications, which can automatically activate when you launch them.

Download Logitech G HUB from logitechg.com/ghub.

5. Maintenance

To ensure the longevity and optimal performance of your Logitech G203 mouse, follow these maintenance guidelines:

- **Cleaning:** Use a soft, lint-free, slightly damp cloth to clean the surface of the mouse. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the finish.
- **Sensor Care:** Keep the optical sensor on the underside of the mouse clean and free from dust or debris. Use a soft brush or compressed air if necessary.
- **Cable Management:** Avoid sharp bends or excessive pulling on the USB cable to prevent internal damage.
- **Storage:** When not in use, store the mouse in a clean, dry environment away from extreme temperatures.

6. Troubleshooting

If you encounter issues with your Logitech G203 mouse, try the following solutions:

- **Mouse Not Responding:**
  - Ensure the USB cable is securely plugged into your computer.
  - Try plugging the mouse into a different USB port.
  - Restart your computer.
  - Test the mouse on another computer to rule out a computer-specific issue.
- **RGB Lighting Not Working/Incorrect:**
  - Ensure Logitech G HUB software is installed and running.
  - Check the lighting settings within G HUB to ensure RGB is enabled and configured as desired.
  - Update Logitech G HUB to the latest version.
- **DPI Sensitivity Issues:**
  - Use the DPI cycle button to switch between sensitivity levels.
  - Open Logitech G HUB and verify your custom DPI settings.
  - Ensure the mouse sensor is clean and free from obstructions.
- **Lag or Stuttering:**
  - Ensure the mouse sensor is clean.
  - Try using the mouse on a different surface or mouse pad.
  - Close any unnecessary background applications that might be consuming system resources.

7. Specifications

Feature	Specification
Brand	Logitech G
Model Name	Logitech G203 HERO LightSync
Connectivity Technology	USB Wired
