PKPOWER AC Adapter Charger

PK Power AC Adapter Charger for AR Santa Cruz AWSF100 Outdoor Flame Speaker Power Supply User Manual

Introduction

This manual provides essential information for the safe and effective use of your PK Power AC Adapter Charger. This adapter is specifically designed to provide power to the AR Santa Cruz AWSF100 Outdoor Flame Speaker. Please read this manual thoroughly before using the product and retain it for future reference.

Important Safety Information

To prevent injury or damage to your device, observe the following safety precautions:

- Ensure the adapter's input voltage (100-240V) matches your local power supply.
- Do not expose the adapter to water, moisture, or extreme temperatures.
- Avoid dropping or subjecting the adapter to strong impacts.
- Do not attempt to open or modify the adapter. Refer all servicing to qualified personnel.
- Keep the adapter away from children.
- Unplug the adapter from the power outlet when not in use for extended periods.
- Ensure proper ventilation around the adapter during operation to prevent overheating.

This image illustrates the built-in protection mechanisms of the AC adapter, including safeguards against over voltage, over current, over temperature, electromagnetic interference, and short circuits, ensuring safe and reliable operation. It also highlights the quality microchip component.

Setup Instructions

Follow these steps to set up your AC adapter:

1. **Inspect the Adapter:** Before use, visually inspect the adapter and its cable for any signs of damage. Do not use if damaged.
2. **Connect to Speaker:** Locate the power input port on your AR Santa Cruz AWSF100 Outdoor Flame Speaker. Insert the adapter's output connector firmly into this port.
3. **Connect to Power Outlet:** Plug the AC adapter's prongs into a standard wall power outlet (100-240V, 50-60Hz).
4. **Verify Connection:** Ensure both connections are secure. The speaker should indicate that it is receiving power or charging, typically via an LED indicator.

This image displays the PK Power AC adapter, highlighting its compact design and the integrated power cable with the output connector. The input prongs are visible, ready for connection to a wall outlet.

Operating the AC Adapter

Once properly connected, the AC adapter will automatically supply power to your AR Santa Cruz AWSF100 Outdoor Flame Speaker. It converts the alternating current (AC) from your wall outlet to the direct current (DC) required by the speaker.

- The adapter is designed for continuous operation, but it is recommended to disconnect it when the speaker is fully charged or not in use for extended periods.
- The adapter features OVP (Over Voltage Protection), OCP (Over Current Protection), and SCP (Short Circuit Protection) to safeguard both the adapter and your connected device.

Maintenance and Care

Proper maintenance ensures the longevity and performance of your AC adapter:

- **Cleaning:** Disconnect the adapter from the power source and the speaker before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or solvents.
- **Storage:** Store the adapter in a cool, dry place when not in use. Avoid tightly coiling the cable to prevent damage.
- **Handling:** Always grasp the plug when disconnecting from the wall outlet; do not pull on the cable.

Troubleshooting

If you encounter issues with your AC adapter, refer to the following table:

Problem	Possible Cause	Solution
Speaker not receiving power/charging.	Adapter not properly plugged in. Faulty power outlet. Damaged cable/adapter.	Ensure all connections are secure. Try a different power outlet. Inspect adapter and cable for damage; replace if necessary.
Adapter feels excessively hot.	Poor ventilation. Overload (unlikely for this specific use).	Ensure adapter is in a well-ventilated area. Disconnect and allow to cool. If problem persists, discontinue use.
Intermittent power supply.	Loose connection. Internal cable damage.	Check and secure all connections. If problem persists, the cable or adapter may be damaged and require replacement.

Product Specifications

- **Input:** 100-240V AC, 50-60Hz
- **Output:** Specific to AR Santa Cruz AWSF100 Outdoor Flame Speaker (typically 9V-12V DC, 1.5A-2A, 18W max)
- **Protection Features:** Over Voltage Protection (OVP), Over Current Protection (OCP), Short Circuit Protection (SCP)
- **Certifications:** CE, FCC, RoHS
- **Color:** Black
- **Item Weight:** Approximately 3 ounces
- **Cable Length:** Approximately 1.2m / 4ft

This image provides the physical dimensions of the AC adapter, indicating its compact size and the length of its integrated power cable for easy placement and use.

Warranty and Support

PK-Power products are tested by the manufacturer to meet and exceed OEM specifications. For any questions, concerns, or support needs regarding your AC adapter, please contact our customer service. Our friendly and reliable customer service team aims to respond to inquiries within 24 hours.
Please refer to your purchase documentation for specific warranty terms and contact information.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
