Waterdrop WD-PT-05P

Waterdrop Elfin Water Filter Pitcher User Manual

Model: WD-PT-05P | Brand: Waterdrop

Introduction

Thank you for choosing the Waterdrop Elfin Water Filter Pitcher. This manual provides essential information for the proper setup, operation, and maintenance of your new water filter pitcher. Designed for convenience and effective filtration, this 7-cup capacity pitcher helps reduce various contaminants from your tap water, providing cleaner, better-tasting drinking water.

Product Components

The Waterdrop Elfin Water Filter Pitcher consists of the following main components:

- Pitcher Body (7-cup capacity)
- Lid with Smart Indicator
- Water Filter Cartridge (Model: WD-PF-01A)

Key Features

- **Multi-Color Design & Compact Size:** Available in various colors, this 7-cup pitcher is designed to fit conveniently in most refrigerators.

Image: The Waterdrop Elfin pitcher is available in multiple colors, offering a compact design suitable for various kitchen aesthetics.

- **Hands-Free Lid & Dust-Proof Spout:** Features an innovative lid for automatic water dispensing, preventing the need to open it manually and ensuring hygiene. The spout design prevents dust accumulation.

Image: Detail view highlighting the automatic water inlet and dust-proof spout for enhanced convenience and hygiene.

- **NSF Certified Filtration Performance:** Certified by NSF42 and 372, confirming the use of high-quality activated carbon fiber. Achieves up to 97.4% residual chlorine reduction.

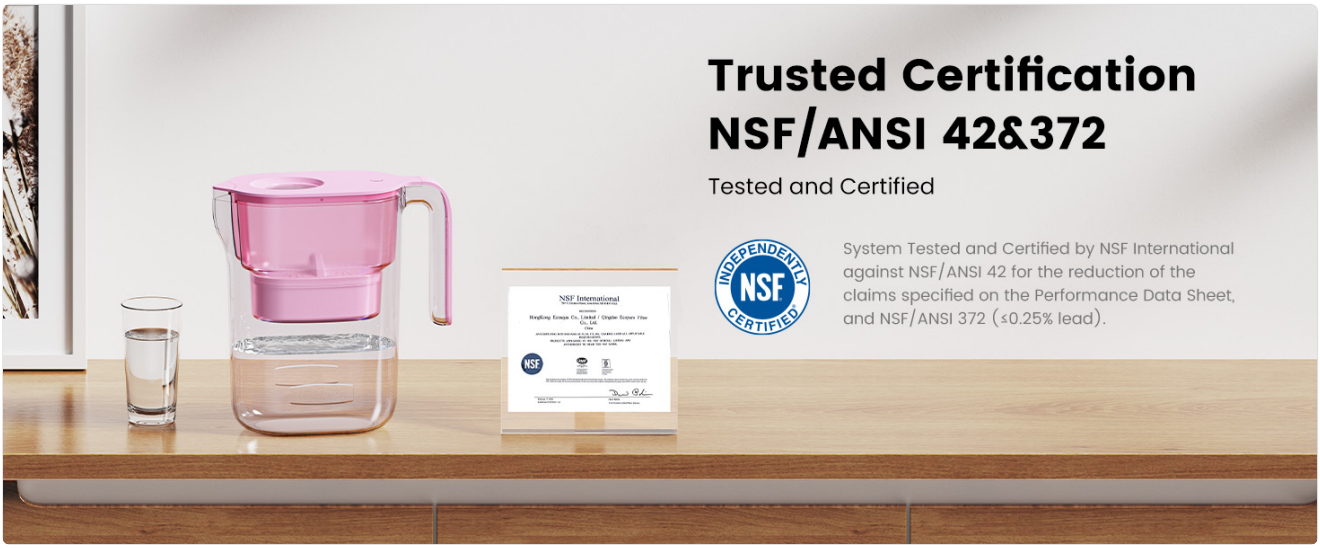

Image: Visual representation of the pitcher alongside NSF certification details, emphasizing its tested filtration capabilities.

- **Multi-Stage Filtration Technology:** Effectively reduces chlorine, PFOA/PFOS, odor, iron, and metal ions, as tested by a third-party laboratory. Note: This pitcher is not primarily designed for TDS reduction.

- **Smart Life Indicator:** An inbuilt indicator on the lid signals when it's time to replace the filter, ensuring optimal

performance.

Image: The smart indicator on the pitcher's lid, displaying blue for good filter status, flashing red for soon replacement, and solid red for immediate replacement.

- **Longer Lifespan & Faster Flow Rate:** Each filter lasts for approximately 200 gallons (equivalent to 1,600 16.9oz bottled waters) and filters water quickly, typically filling the pitcher in about 1 minute.

Setup Instructions

1. **Unpack Components:** Carefully remove all parts from the packaging.
2. **Wash Pitcher:** Wash the pitcher body and lid with mild detergent and warm water. Rinse thoroughly. Do not wash the filter cartridge with soap.
3. **Prepare Filter:** Submerge the new filter cartridge in cold water for 10 minutes to remove any air bubbles. This ensures optimal filtration performance.
4. **Insert Filter:** Firmly insert the prepared filter into the reservoir opening until it sits securely.
5. **Initial Filtration:** Fill the reservoir with tap water. Allow the water to filter through completely. Discard the first two full pitchers of filtered water to flush out any carbon fines.
6. **Activate Smart Indicator:** After installing a new filter, press and hold the button on the lid for 5 seconds until the

blue light flashes. This resets the filter life tracking.

Operating Instructions

1. **Filling the Pitcher:** Place the pitcher under a tap. The hands-free lid will automatically open as water is poured in. Fill the reservoir to the maximum fill line.
2. **Filtration Process:** Water will gravity-filter through the cartridge into the main pitcher body. The filtration process is quick, typically completing in about 1 minute.
3. **Pouring Water:** Tilt the pitcher to pour filtered water. The dust-proof spout is designed for easy, clean dispensing.
4. **Monitoring Filter Life:** Observe the Smart Life Indicator on the lid:
    - **Blue Light:** Filter is in good condition.
    - **Flashing Red Light:** Filter needs replacement soon.
    - **Solid Red Light:** Filter needs immediate replacement.

Maintenance

- **Regular Cleaning:** Wash the pitcher body and lid regularly with mild soap and warm water. Rinse thoroughly. Do not use abrasive cleaners or put the filter in the dishwasher.
- **Filter Replacement:** Replace the filter cartridge (Model: WD-PF-01A) when the Smart Life Indicator signals a solid red light, or approximately every 200 gallons, whichever comes first. Follow the 'Setup Instructions' for preparing and installing a new filter.
- **Storage:** If storing the pitcher for an extended period, remove the filter, dry all components, and store in a clean, dry place.

Troubleshooting

Problem	Possible Cause	Solution
Slow filtration rate	Air bubbles in filter; filter nearing end of life; filter clogged.	Re-soak filter to remove air; replace filter if indicator is red.
Water tastes unusual after new filter	Carbon fines from new filter.	Discard the first two pitchers of filtered water as per setup instructions.
Smart Indicator not working	Not reset after filter change; battery issue (if applicable, though typically sealed).	Press and hold button for 5 seconds to reset. If issue persists, contact customer support.

Problem	Possible Cause	Solution
Lid falls off when pouring	Not securely attached.	Ensure lid is firmly seated on the pitcher. Hold lid when pouring if pitcher is nearly empty.

Specifications

Attribute	Detail
Brand	Waterdrop
Model Name	Elfin
Item Model Number	WD-PT-05P
Product Dimensions	9.7"L x 3.8"W x 10"H
Capacity	7-Cup
Filter Lifespan	Up to 200 Gallons
Special Feature	NSF certified, Chlorine Reduction, Smart Indicator
Installation Type	Countertop
Power Source	Manual (Gravity-fed)
Item Weight	2.31 pounds
UPC	840814178348, 840814168943, 840814163139, 840814169513, 840814178355

Note: Product dimensions are approximate.

Safety Information

- **Proposition 65 Warning:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
- Use only cold tap water with the pitcher. Do not filter hot water.
- Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.
- Keep out of reach of children.
- Avoid exposing the pitcher to direct sunlight or extreme temperatures.
