Mystim Opus Mica Masturbator User Manual

Model: 05371520000

Introduction

This manual provides essential instructions for the safe and effective use, care, and maintenance of your Mystim Opus Mica Masturbator. Please read this manual thoroughly before first use and retain it for future reference.

Image: A cross-section view of the internal sleeve, highlighting the intricate textured canal designed for enhanced sensation.

Setup

1. **Unpack:** Carefully remove the masturbator from its packaging.
2. **Inspect:** Before first use, inspect the device for any visible damage. Do not use if damaged.
3. **Clean:** Clean the internal sleeve thoroughly before initial use as per the "Maintenance and Cleaning" section.
4. **Lubricate:** Apply a generous amount of water-based lubricant to the entrance of the internal sleeve and to the desired area for comfortable insertion.

Operating Instructions

The Mystim Opus Mica Masturbator is designed for a realistic experience with adjustable pressure.

1. **Insertion:** Gently insert into the lubricated opening.
2. **Adjust Pressure:** The device features side squeeze areas and an air valve to control the internal pressure and suction.
    - **Squeeze Areas:** Pressing the side squeeze areas will increase the internal pressure and sensation.
    - **Air Valve:** Use the air valve to regulate the airflow and adjust the suction level. Closing the valve increases suction, opening it reduces it.
3. **Experience:** Adjust the pressure and suction to your preference for a personalized experience.

Maintenance and Cleaning

Proper cleaning and maintenance are crucial for hygiene and longevity of your device.

1. **Disassembly:** After each use, carefully remove the internal sleeve from the outer casing.
2. **Cleaning the Sleeve:** Wash the internal sleeve thoroughly with warm water and a toy cleaner or mild antibacterial soap. Ensure all lubricant and residues are removed.
3. **Rinsing:** Rinse the sleeve completely under running water until no soap residue remains.
4. **Drying:** Allow the internal sleeve to air dry completely before reassembling or storing. You may gently pat it with a lint-free cloth.
5. **Cleaning the Casing:** Wipe the outer casing with a damp cloth and mild soap if necessary. Do not submerge the outer

casing in water.

6. **Storage:** Store the masturbator in a clean, dry, and dust-free environment, away from direct sunlight and extreme temperatures.

Note: The internal sleeve is designed to be easily removed for cleaning. Ensure it is fully dry before reinserting into the casing.

Troubleshooting

- **Difficulty with Insertion:** Ensure sufficient water-based lubricant is applied to both the device and the user.
- **Insufficient Suction/Pressure:** Check that the air valve is properly adjusted. Ensure the internal sleeve is correctly seated within the casing.
- **Cleaning Concerns:** If the sleeve is difficult to clean, ensure it is removed from the casing and cleaned immediately after use. Use a dedicated toy cleaner for best results.

If you encounter any other issues or if problems persist, please refer to the "Support" section for assistance.

Specifications

Feature	Detail
Model Name	Mystim Opus Mica Micaela Schaefer Masturbator
Model Number	05371520000
