Zephyr PRW24F02BG

Zephyr Presrv 24 Inch Dual Zone Full-size Wine Cooler Instruction Manual

Model: PRW24F02BG

1. Introduction

This manual provides comprehensive instructions for the Zephyr Presrv 24 Inch Dual Zone Full-size Wine Cooler, Model PRW24F02BG. This appliance is designed to store up to 138 standard 750 ml wine bottles across two independent temperature zones, ensuring optimal conditions for various wine types. Key features include Active Cooling Technology, a Vibration Dampening System, 3-Color LED lighting, and electronic touch controls.

2. Safety Information

Read all instructions before using this appliance to reduce the risk of fire, electric shock, or injury. Keep this manual for future reference.

- **Electrical Safety:** Ensure the appliance is connected to a properly grounded outlet. Do not use extension cords.

- **Ventilation:** Maintain adequate clearance around the unit for proper ventilation. Do not block ventilation openings.
- **Placement:** Place the unit on a level, stable surface away from direct sunlight or heat sources.
- **Children:** Supervise children to ensure they do not play with the appliance.
- **Door Lock:** This unit is equipped with a door lock. Keep keys out of reach of children.
- **Moving the Unit:** Due to its weight (approximately 269 pounds), use proper lifting techniques and assistance when moving the appliance.

3. Setup and Installation

The Zephyr Presrv wine cooler is designed for freestanding installation. Careful planning and execution are required for proper setup.

3.1 Unpacking

- Inspect the unit for any shipping damage. Report any damage immediately to the carrier.
- Remove all packaging materials, including foam and tape.
- **Note on Delivery:** This unit is typically delivered curbside. Arrange for adequate assistance (at least two people) to uncrate and move the unit into your home.

3.2 Placement

- Position the wine cooler on a flat, stable floor capable of supporting its weight when fully loaded.
- Ensure sufficient space around the unit for proper air circulation. Refer to the dimensions below.
- Avoid placing the unit near heat sources (e.g., oven, radiator, direct sunlight) or in areas with extreme temperature fluctuations.

3.3 Dimensions and Capacity

Image 2: Diagram showing the dimensions of the wine cooler: 23-7/8 inches width, 69-1/4 inches height, and 27-3/8 inches depth. It also indicates a 132 bottle capacity (750 ml).

- **Product Dimensions:** 27.38"D x 23.88"W x 69.25"H
- **Capacity:** Up to 138 standard 750 ml wine bottles.

3.4 Door Reversibility

The door hinges are reversible, allowing the door to open from either the right or left side. This adjustment can be

performed during installation if required. Refer to the detailed instructions in the full product manual for the reversal procedure.

4. Operating Instructions

This section details how to operate your Zephyr Presrv Dual Zone Wine Cooler.

4.1 Control Panel

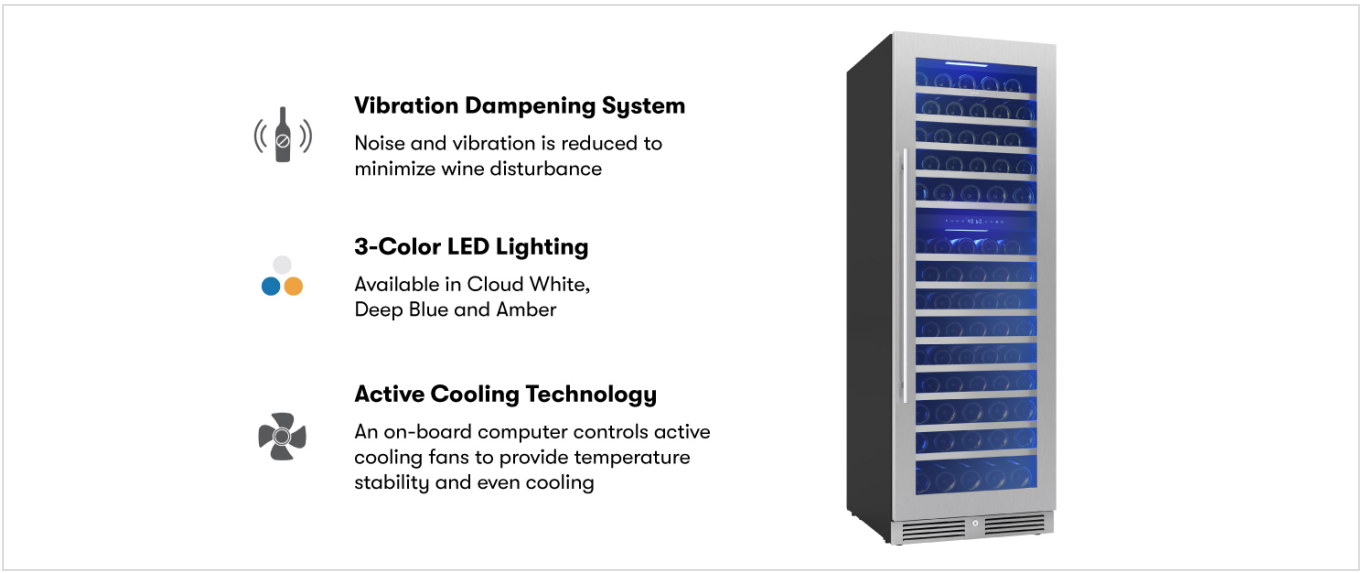

Image 3: Close-up of the electronic touch control panel, showing buttons for Power ON/OFF, °C/°F Selector, Decrease Temperature, Increase Temperature, Light Brightness, and Interior Light.

The wine cooler features electronic capacitive touch controls located on the interior panel between the two zones.

- **Power ON/OFF:** Touch to turn the unit on or off.
- **°C/°F Selector:** Toggle between Celsius and Fahrenheit temperature display.
- **Temperature Adjustment:** Use the up and down arrows to increase or decrease the desired temperature for each zone.
- **Light Control:** Adjust the interior LED lighting.

4.2 Dual Zone Temperature Control

The wine cooler has two independent cooling zones, allowing you to store different types of wine at their ideal temperatures. The temperature range for each zone is typically between 38°F and 65°F (3°C and 18°C).

- The upper zone is generally set for white wines, and the lower zone for red wines.
- Adjust each zone's temperature using the dedicated up/down arrows on the control panel.
- The Active Cooling Technology and PreciseTemp™ sensors ensure stable and accurate temperature maintenance within each zone.

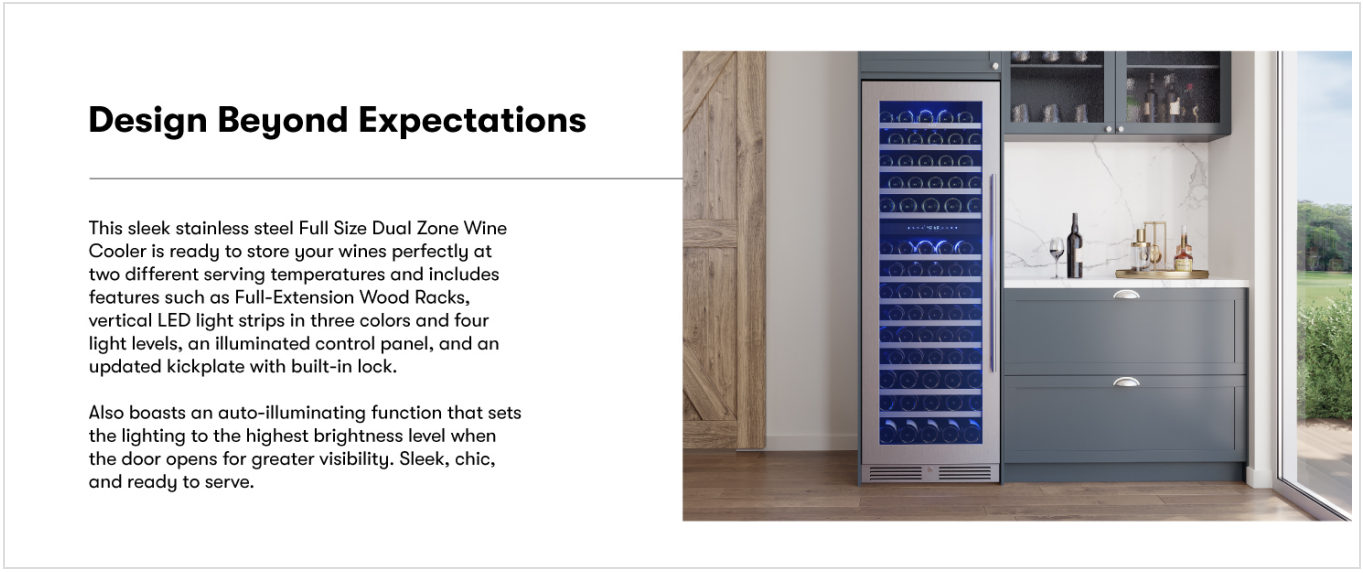

Image 4: Features of the Presrv Dual Zone Wine Cooler, highlighting Active Cooling Technology for temperature stability, PreciseTemp™ for accurate temperatures (38°-65°F per zone), and Low Noise operation (42 dBA).

4.3 LED Lighting

The interior features 3-Color LED Lighting, available in Cloud White, Deep Blue, and Amber. There are also four light levels for brightness adjustment.

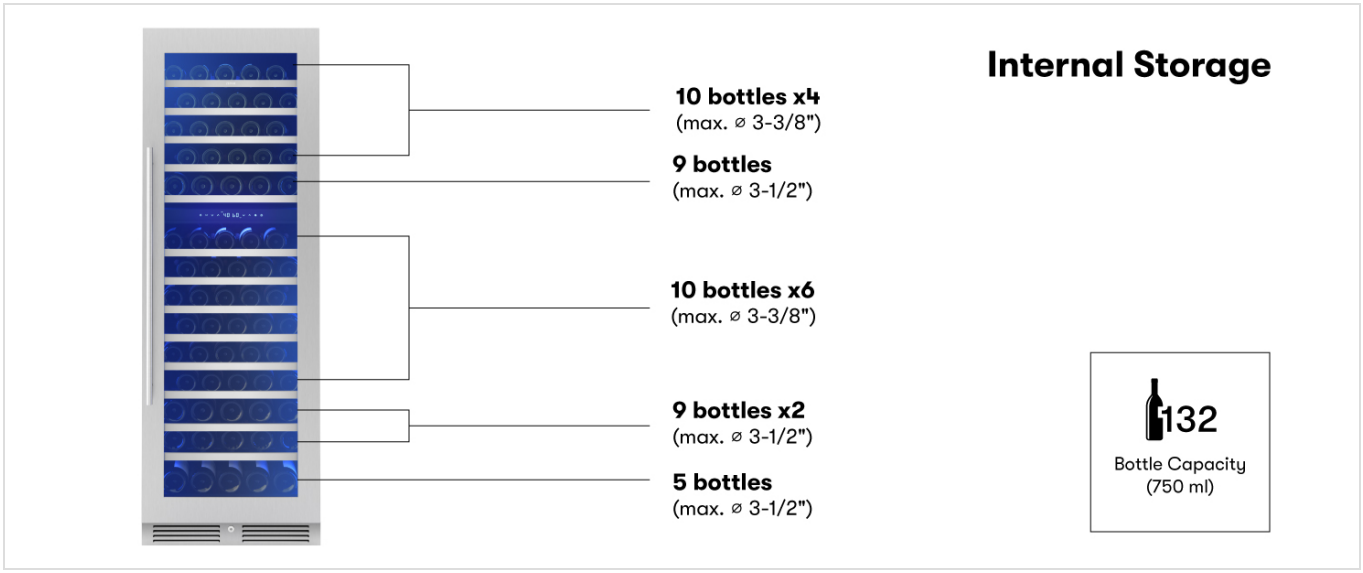

Image 5: Examples of the LED light strips in three different colors (Cloud White, Deep Blue, Amber) and various brightness levels, illuminating wine bottles on the shelves.

- Use the "Interior Light" button on the control panel to cycle through colors and adjust brightness.
- The unit also has an auto-illuminating function that sets the lighting to the highest brightness level when the door opens for improved visibility.

4.4 Shelving and Bottle Storage

The wine cooler is equipped with various shelving options to accommodate different bottle sizes.

Image 6: Interior view showing full-extension wood racks designed for various bottle sizes, including large diameter bottles like Pinot Noir, Chardonnay, and Champagne.

- The unit includes 4 adjustable, transparent-gray glass shelves with airflow openings.
- One full-extension stainless steel rollout bin is provided.
- Two full-extension black wood racks with stainless trim are included, designed to accommodate large diameter bottles such as Pinot Noir, Chardonnay, and Champagne.
- The Vibration Dampening System helps minimize disturbance to your wine.

Image 7: Diagram illustrating the internal storage configuration, showing how 132 bottles can be arranged across different shelves with varying capacities and bottle diameters.

4.5 Door Open Alarm

The wine cooler is equipped with a door open alarm that will sound if the door is left ajar for an extended period, helping to maintain internal temperatures and conserve energy.

4.6 Door Lock

For security, the unit includes a door lock. Use the provided key to lock or unlock the door as needed.

5. Maintenance

Regular maintenance ensures optimal performance and longevity of your wine cooler.

5.1 Cleaning

- **Interior:** Clean the interior surfaces with a mild detergent and warm water. Avoid abrasive cleaners.

- **Exterior:** Wipe the exterior with a soft cloth and mild soap. For stainless steel surfaces, use a stainless steel cleaner.
- **Shelves:** Remove shelves and clean them with warm, soapy water. Ensure they are completely dry before returning them to the unit.
- **Door Gasket:** Regularly clean the door gasket to ensure a proper seal.

5.2 Carbon Filter Air Filtration

The wine cooler features a carbon filter air filtration system to protect your wine from odors. The carbon filter should be replaced periodically to maintain effectiveness. Refer to the full product manual for specific replacement intervals and instructions.

Image 8: Diagram highlighting updated design features, including the built-in carbon filter which acts as a natural barrier against odors.

5.3 Defrosting

The unit features an automatic defrost system, eliminating the need for manual defrosting.

6. Troubleshooting

Before contacting customer service, review the following common issues and their potential solutions.

Problem	Possible Cause	Solution
Unit does not operate.	No power supply; circuit breaker tripped.	Check power cord connection; reset circuit breaker.
Temperature is not cold enough.	Door not closed properly; excessive door openings; ambient temperature too high; thermostat set incorrectly.	Ensure door is sealed; reduce frequency of door openings; relocate unit if ambient temperature is too high; adjust thermostat setting.
Unit is making excessive noise.	Unit not level; objects vibrating against the unit; normal compressor operation.	Adjust leveling feet; ensure nothing is touching the unit; some operational noise from the compressor and fan is normal.
Door gasket is not sealing properly.	Gasket is dirty or damaged.	Clean the gasket; if damaged, contact customer support for replacement.

7. Specifications

Feature	Detail
Brand	Zephyr
Model Info	PRW24F02CG
Item Model Number	PRW24F02CG
Part Number	PRW24F02BG
Capacity	14.5 Cubic Feet (approx. 138 bottles)
Installation Type	Freestanding
Form Factor	Wine Cellar
Special Features	Door Lock, Active Cooling Technology, Vibration Dampening System, Carbon Filter Air Filtration, Door Open Alarm, 3-Color LED Lighting
Color	Orange
Voltage	115 Volts
Defrost System	Automatic
Door Hinges	Reversible
Shelf Type	Wood racks, Glass shelves, Stainless steel rollout bin
Number of Shelves	13 (total)
Certification	Energy Star
Item Weight	269 Pounds
Product Dimensions	27.38"D x 23.88"W x 69.25"H
Sound Level	44 dBA

Note: The 'Color: Orange' specification may refer to specific variants or packaging details and might not reflect the primary product appearance, which is typically stainless steel.

8. Warranty and Support

8.1 Product Warranty

Warranty coverage for the Zephyr Presrv wine cooler typically includes a limited warranty on parts and labor. Specific warranty terms, duration, and conditions can vary. It is crucial to refer to the warranty card included with your product or visit the official Zephyr website for the most accurate and up-to-date warranty information. Please note that some components, such as the compressor, may have specific warranty periods.

8.2 Extended Protection Plans

Extended protection plans may be available for purchase to provide coverage beyond the manufacturer's standard warranty. These plans offer additional peace of mind for potential repairs or issues. Examples of available plans include:

- 2-Year Protection Plan
- 3-Year Protection Plan
- Complete Protect (monthly subscription covering multiple eligible purchases)

For details on coverage, pricing, and terms, please consult the provider of these protection plans.

8.3 Customer Support

For technical assistance, service requests, or questions regarding your Zephyr Presrv wine cooler, please contact Zephyr customer support. Have your model number (PRW24F02BG) and purchase date available when contacting support.

Zephyr Contact Information: Refer to the official Zephyr website or your product documentation for current contact details.
